Sharp Epitaphs .- Some years since, when Caleb Curhing was younger, he met in so-ciety a Miss Gould, who did not like him, so she exercised her poetical powers in writing cutting epitaphs upon the young beaux of the neighborhood, and Caleb in particular. At a party which both attended, a paper was circulated, which caused great merriment, and finally came to the eye of Cushing, who read:

"Lie along ye dead, For in the next bed Repose the ashes of Cushing, He has crowded his way

Through the world as they say, And even though dead may be pushing. Cushing took the paper, disappeared few minutes, and returned with another, which being circulated put an end to the persecutions of the poetess. It contained

the following: "Here lies one whose wit Without wounding could hit; Green be the turf that's above her; Having sent every beau

To the regions below,
She now has gone down—for a lover."
Miss Gould, who was verging towards old
maidenhood, did note relish this thrust, and left off writing epitaphs in that society.

The Climate of California .- Dan Marble was once strolling along the wharves in Boston, when he met a tall, gaunt-looking figure, a "digger" from California, and got into conversation with him. "Healthy climate I suppose?" "Healthy? It ain't anything else. Why, stranger, there you can choose any climate you like, hot or cold, and that without traveling more than fifteen minutes. Just think of that the next cold morning when you get out of bed. There's a mountain there, with a valley on each side of it, the one hot and the ley on each side of it, the one hot and the yord endurance. Which will you do? Wear other cold. Well, get on the top of that a pleasant countenance, let joy beam in your mountain with a double-barrelled gun, and eye and love glow on your forehead. MESSAGE OF GOVERNOR PIERPORT WASHINGTON, June 22 Governor Pierpont, in his message to the Virginia Legis-

lature, says:
The most important question which demands immediate consideration is that of the restoration of political rights to those who have heretofore empryed them. If the test of loyalty prescribed by the amended State Constitution is enforced in the election and qualification of officers, it would render organization impracticable in most of the counties of the State. It is folly, he says, to suppose that a State can be governed under a republican form of government when a large portion of the State—nineteen twentieths of the people—are disfranchised, and cannot hold office.

But, fortunately, by the terms of the Constitution, the General Assembly has control of the constitution.

of this subject. The restricting clauses of the Constitution were devised in time of war; but we have passed through this great war; out we have passed through this gleat and terrific conflict, waged on both sides with a skill and pertinacity seldom equalled. When the passions of men ran riot, and blood was spilled like water—when on this side of the line all between the ages of 17 and 50 were made soldiers, and, for want of faith in a depreciated currency, supplies to these soldiers failed, it is not wonderful A Baltimore correspondent of Harper's that men responded to appeals for voluntary aid in the shape of food and clothing to how a pupil became too smart for his prethose of their own family and household. Indeed it would be wonderful if they had leaded it would be wonderful if they had not. But now that the conflict is passed, they accept the facts developed by the logic of the past four years; declare that they have taken the oath of allegiance to the Government of the United States without detecting counterfeit money by an original Government of the United States without and practical method of his own. He had mental reservation, and intend to be and instructed several tellers in leading banks, remain loyal to the government of their all of whom testified to the superiority of fathers. It would not be in accordance practicable to organize the counties under the disqualifying clauses of the Constitu-tion, I should still earnestly recommend their repeal. We must not lose sight of the great fact, that whilst man is a social and religious being, he is at the same time a. fighting animal. Hence, whilst we comissued.

"Well, what are your terms?" said Mr.

BE, looking intently at the man, as though somewhat incredulous as to the prograde where we would elevate and ennoble. "My terms are five dollars for full instruc-ons," he replied.
"I can't give it," respended B—: "I should not be allowed to vote or hold office under that government. Hence the suggestion of an oath of loyalty. I would re-commend the amnesty oath prescribed by

Officers are to be appointed in each district to carry out the provisions of this order.
Guardians of minors, aged and infirmed? Well, that don't sound quite as bad as slave owners. But is not the order of General Schofield a positive admission of the general inferiority of the negro, and of his incapacity to take care of and provide for him-

An Incident .- The Librisville Democrat of Tuesday has the following:

A Confederate officer who was on his way back to his home in Georgia, was out near the Nashville depot yesterday. He was suddenly surprised at being surrounded by five or six negroes who had recognized him and jumped down from their wagon to run and meet him. They were driving govern-ment teams. He recognized them as his own negroes, who had followed the Federal army off. They begged him to take then back home with him, that they would be "de best niggas he eber seed" if he would. Arrangements were made, and master and negroes all left on the train for Georgia to-

gether last night. The names of pensioners on the rolls in States lately in rebellion have been dropped. Such persons who are loyal and wish their names restored, must apply to the Commissioner of Pensions. Pension agencies are about to be re-opened in Virginia, Tennessee and Louisiana.

The Virginia Baptists think they can take care of the souls within their jurisdicion without the aid of New England mis-

sionaries. WEAR A SMILE .- Which will you do, smile and make others happy, or be crabbed, and make everybody around you miserable? You can live among beautiful flowers and singing birds, or in the mire surrounded by fogal and frogs. The amount of happiness which you can produce is incalcuable, if you will show a smiling face, a kind heart, and speak pleasant words. On the other hand, by sour looks, cross words, and a fretful disposition, you can make hundreds unhappy almost beyour daily business.

CHANGING NAMES .- The darkles at the South no longer realize each other as Sombo, Quimbo, Jumbo, Sally Ann, Mary Ann, Dinab, &c.; it is Miss Brown, Mr. Wise, &c. It is amusing to hear their salutations, as they en-deavor to imitate the forms of fashionable recognition.
