Guano in appearance, odor, and composition. The value of all Guanos and Super Phosphates of Lime, of whatever name, depends, as is well known, upon the per cent. of Ammonia, Soluble date and Bone Phosphate of Lime they con-This Guano differs from Peruvian only in the fact that it contains less Ammonia, but this difference in Ammonia is more than made up by the fact that it contains almost double as much Soluble and Bone Phosphate of Lime. This difference makes it a durable fertilizer, with all the activity of Peruvian Guano. Although the price of this Guano is only one-half the price of Peruvisa, and is not higher than the Super Phosphates of Lime, yet it contains, as is proven by analysis and inspection, vasily more of ammonia, soluble, and Bone Phasphate, than is found in the best of them. Hence its economy and intrinsic value must render it an object of great interest to farmers generally.

Bone Flour, TNADULTERATED,

BOSTON MILLING AND MANUFACTURING COMPANY.

The value of unburnt, unadniterated Bone, is well known. When reduced to the condition of FLOUR, it is as active as if dissolved with acid, and is far better, because it retains all its Phosphates. Its superiority over the common Bone Dust is two-fold or more. It is a consummation sought for in vain for the last Christian Hostetter, late of Union township, half century, and is destined to give new value Adams county, deceased, having been granted to Bone as a fertilizer, and work a revolution to the undersigned, residing in the same town-
