autuma." We prefer to graft apples, pears and plums. They do better, if fact never fail if well done, and grow twice as much the same season than if builded. Cherries, peaches, &c., are much mings, as well as an assorted stock of READY more certain to grow if budded - Germantown Telegraph.

BOW DUGS GET MAD .- Nine-tenths of the people are in ignorance in regard to the premonition of maduers in dogs. One of the premonition of madue's in dogs. One of the entiest signs of madue's in dogs, and one which should always arouse attention on the part of those in charge of dogs, is a sullenness combined with fidgetiness. When it means rabies (madness,) the dog retiers to his bed for the corner of Stration street and the Railroad, in Getty, burg, where they will carry on the GRAIN AND PROPUCE BUSINESS, in the corner of Stration street and the Railroad, in Getty, burg, where they will carry on the GRAIN AND PROPUCE BUSINESS, in the proposes of the bighest prices will all the branches. several hours, and may be seen curled up, his will its branches. The highest prices will alface baried between his paws and breast. He ways be paid for will answer WHEAT, RYE, shows no disposition to bi e, and will answer to the call, but he answers slowly and sullenly. Alter a while he becomes restless, seeking out new resting places, and never satisfied long with one. He then returns to his bed, Dried Fruit, Nuts, Soap, Hams, Shoulders and but continually shifts his posture. He rises of country produce line.

ON HAND, FOR SALE. his countenance is clouded and suspicious, we bushel, ton, or car load. may be certain that madness is coming on.

AN INCIDENT AT GETTYSBURG.-A Galpublished, but cerainly descrives to be, as it is the history of a gallant action that ought not to be unrewarded. On the last day of the fight, when the Rebels, massing some 18,000 for desperate courage, is almost unparalleled inform the public that he continues the an the history of warfare, but were benton BLACKSMITHING BUSINESS, back with awful slaughter, leaving thousands of his shop, fately Philip Decreom's, adjoining of prisoners in our lands, and the field strewn thick with their wounded and dead, the 19th pared to do Blacksmithing work to Carriages, Massachugetts Infantry were among those who bore the brunt of the onset. They were opposed directly by a Virginia regiment, and as the two forces came in contact with each other and fought with bayonet and clubbed-muskets, and rought with bayonet and rought with bayonet and rought with bayonet and rought with bayonet and rought with a r Thomas J. Jellison, the color-bearer of the gallant 19th, having lost his sword in the melee, rushed up to the color-rergeant of the Virginians, and putting into play the flexor and biceps muscles of his right arm, knocked him down, and captured the fing, bearing it safely down, and captured the flag, hearing it safely have just received from the cities a large stock. May 22, 1865.

Tire peculiar taint or infection which we call Scrottta lurks in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitinted state of the blood, wherein that fluid becomes inre vital forces in their igorous action, and leaves the system to

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure sir, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The discases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dwspensia, and liver complaints, on gestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and tion of the blood. Furty the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease. Ayor's Sarsaparilla

is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be tound in Aven's American At MANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrotula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Avi as SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Saraiparilla in alterative power. By its and you may protect your elf from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stamulates the vital functions, and thus expels the distempers which lark within the system or lurst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived por disappointed in

this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very Although under the same control which has different medicine from any other which has a wal is far more efbeen before the people, and is far more effectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients

in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it timy be relied on to do all it has ever done.

Agricultural Chemical Co.'s THE AP FERTILIZERS.

The Fertilizers prepared by the Agricultural Chemical Co., (a Company chartered by the Legislature with a capital of \$250,000,) have been proved in practice to be the cheapest, most profitable and best, for the Farmer, Gardner and Fruit-grower, of all concentrated manures now offered in any market. The Company's list embraces the following:

PABULETTE. This Fertilizer is com-the fertilizing elements of urine, combined chemically and mechanically with other valuable fertilizing agents and absorbents. It is reduced to a pulverulent condition; ready for immediate use, and without loss of its highly nitrogenous fertilizing properties.
Its universal applicability to all crops and soils, and its durability and active qualities, are well known to be all that agriculturists

can desire.

CHEMICAL COMPOST. This Ferting largety composed of animal matter, such as meat, bone, fish, leather, hair and wool, to-gether with chemicals and inorganic fertilizers, which decompose the mass, and retain the nitrogenous elements.

It is a very valuable fertilizer for field crops

Composite Fertilizer, This bighly hatte fertilizer is periledually edapted for the cultivation of trees, finits, lawns and flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the frui. For hot-house and household plants and flowers, it will be found an indispensable. article to scare their greatest perfection. It will prevent and cure diseased conditions of: the peach and grape, and is excellent for grass

adapted to the growth of all kinds of crops in all kinds of soils.

Phosphate of Lime. The Agricultural Company manufacture a Phosphage of Lime in accordance with them and valuable formula by which a very superior article is produced, so as to be afforded at a less price than other manus theturers charge. Practical tests have proved that its value, or a fortilizer, is equal to the best
