Soluble Pacific Guano. TORN S. REESE & CO.,

WHOLEBALE AND BETAIL AGENTS POR
THE PACIFIC GUANO COMPANY,
71 South Street, Baltimore.

The Soluble Partic Guano resembles Perurian Guano in appearance, odor, and composition. The value of all Guanos and Super Phosphates of Lime, of whatever name, depends, as is well known, spou the per ceat. of Ammonia, Soluble Phosphate and Bone Phosphate of Lime they con-tain. This Guano differs from Peruvian only in the fact that it contains less Ammonia, but this difference in Ammonia is more than made up by the fact that it contains almost double as much Soluble and Bone Phosphate of Lime. This difference makes it a durable fertilizer, with it gerer brought to Gettysburg, embracing all the activity of Peruvian Guano. Although the price of this Guano is only one-balf the price of Peruvian, and is not higher than the price of Peruvian, and is not higher than the Super Phosphates of Lime, yet it contains, as among which are fine fitting Dress and Business Corte, Cloth, Cussimete, Silk, Satin and is proven by austrais and inspection, vasily Cotton Vests, Dress and Business Pants, of more of ammonia, soluble, and Bone Phosphate, every style, quality and size, Under Clothes of than is found in the best of them. Hence its economy and intrinsic value must render it an object of great interest to farmers generally.

THE peculiar taint or infection which we call Schofella lurks in the constitutions of either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain

vigorous action, and leaves the system to decay. The scrofulous contamination is vadecay. I he acromious comminments to re-routly caused by mercurial disease, low hving, disordered digestion from unhealthy food, impure air, filth and filthy habits. food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take arious names, according to the organs it attacks. In the lungs, Scrofula produces tubercles; and finally Consumption: in the tubercies; and many Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Furify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that n.edical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, in their enect apoit in sense of compiaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Claudular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from in-purity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ATMANAC, which is farnished to the dauggism for gratuitous di tribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other retacties had failed to afford relief. Those, cases are purposely taken from all sections of the country, in order that every reader to y have access to some one who can speak to him of its lengths from personal experience. Scroula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the pullic under the name of Alik's SARSAPARILLA, although it is composed of of Saraperilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and faster out the folio corruptions that the and tisser in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the viral functions, and thus expels the distensive which tasks within the corresponding to which lurk within the system or burs; out on any part of it. We know the pullic have been deceived

by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be decrived nor disrppointed in this. Its virtues have been proven by abundant trial, and there remains no question of us surpassing excellence for the cure of the afflicting diseases n is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far nore effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
