BRANDRETH'S PILLS,

WHOSE TIMELY USE, UNDER PROVIDENCE, HAS OFTEN SAVED LIFE.—These celebrated Vegetable Pills are no new, untried remedy; they have been used and tested in the United States for thirty years, and are relied upon by hundreds of thousands of families as almost their sole medicine when sick. No care or expense is spared in their preparation, and it is certainly true when I assert that no King can have a medicine safer or surer than Brandreth's Pills.

They produce a good effect upon disease almost immediately they are taken. By some wonderful power, perhaps electric or nervous influence, the progress of diseased action is arrested; where watchfulness and pain have been present, the system becomes quieter, and the patient soon obtains refreshing sleep.

The genuine BRANDRETH PILL BOX has upon it a UNITED STATES GOVERNMENT STAMP with B. BRANDRETH in White Letters in the same. [Aug. 21, 1865. 1m

A REWARD IS WON BY THE AMERICAN WATCH IS THE BEST.

It is made on the right principle, while the foreign watch is generally made on no principle at all. The foreign watch is made by women and boys, by HAND. While their labor is cheap, their work is dear at any price. Such watches are rarely without pins, and sold with the guarantee. They are irregular in consequence, and quite as irregular in movement. They are rarely ever sold to suit, and the buyer is the party not thoroughly sold. Those who have been carrying "Repines" and "Swiss levers" in preference for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH.

Instead of being made of several hundred little pieces screwed together, the body of the American Watches is made of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden check can throw its machinery out of gear. In doing or any business pursuit, it is all held together firmly as a single piece of metal. It is just what all machinery should be—

1st. ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *trash* are, but that for its real value is sold for one-half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more Jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship; is quite small, but warranted to *keep time.*

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.
