#### THE COUNTY.

The result of the election in this county on Tuesday, is given in the official figures, published in another column. It will be with rousing cheers. seen that whilst the Democrats elect the ney and Commissioner are successful.

The loss of any part of our ticket could easily have been avoided. We have since made it a subject of close inquiry with persons from the different districts, and find that, whilst the Republican vote was out almost to a man-never more thoroughly so- Samuel Lauver, John Musser. The Democratic vote was back in all but three or four districts. In the balance, numbers of Democrats varying from 15 to Adam Deardorff, Jacob Sheely. 70, stayed at home, contenting themselves with the often fatal plea that there "would be enough to carry the county anyhow."

This is the main cause of the defeat of a portion of our excellent ticket, though the never-paying practice of "scratching" had something to do with it too.

These causes defeated nearly our whole ticket in 1861, as well as on several previous occasions-and it seemed that the lesson had to be leared again.

We think it sale to say that more than four hundred Democrats remained from the polls throughout the county, on Tues day, whilst the non-voting Republicans would not number one hundred. This is no mere guess. It is a firm belief, established by information derived from the best-informed sources-and we predict now that next year's result will prove it.

In 1861 we saved but a candidate or two In 1862 , reswept everything by almost unprecedented majorities. The "stay-at home" and "cutting" lessons had been tanity was sought to wipe out the disgrace. So it will be again.

It should be mentioned also that whilst the Republicans were pretending to be unit or not.

Then look at the "cutting" business .-

of the county would have been gloriously triumphant. The same act of folly should never again occur-and we do not believe last year was about 100,000! that it will for some years to come. There is no school so dear as that of experience.

## THE STATE.

The Republicans have again carried Pennsylvania. What effect this result may have upon national affairs time must determine It will, of course, embolden the Radicals and in the next Congress they will endeavor to force the Administration to adopt the destructive and barbarous programms of Stevens and Sumner. Success in that endeavor would be ruinous in the extreme.
