The Profit on Cotton Goods.

The editor of the New England Farmer in his "notes of travel," says:

"A stay of four hours at Lowell gave me an opportunity to learn that most of the mills are in operation, and earning large dividends for stockholders. I was told by a gentleman somewhat conversant with the manufacture of cotton, that, on all light cotton goods, a profit of one dollar is made on every pound of cetton used !"

Just think of it. A profit of one dollar on every pound of cotton consumed in the Cotton Mills of New England. Is it strange that every species of such goods range at prices which prevent poor men from clothing their families comfortably, when the Yankee capitalists are realizing an unheard of profit like that? Yet this is only the elfect of a tariff. Not of a just and equitable revenue tariff, such as we had in old fashioned Democratic times; but of a Republican tariff, fixed up expressly to enable the New England Yankees to fleece the people of every other section. It is one of the blessings of Republican rule, for which so many people were foolish enough to vote at the recent State elections.

There is another bad practice. I observe; that of giving grain and hay on their return to the stable immediately after hard work. Being very hungry, they de-vour much food eagerly, and do not propis not so well digested, and not mearly so nutritious. When a horse returns from work, perspiring and out of breath, it should be allowed to rest for a time, then given a little hay; half an hour afterwards water, and then oats or other grain. By
