REVENUE EXTENSION Silver Mining Co. of Nevada: CAPITAL STOCK, 8500,000. Divided into 50,000 Shares, at \$10 Each.

President-Hon, GEORGE P. FISHER, Judge of the Superior Court, Washington, B. C.
Vice President—T. S. EMERY, Philadelphia.
Treasurer—E. B. HAREPR, of Harper, Durney &
FOR HORSES, CATTLE
Co., Binkers, Philadelphia. Superintendent at the Mines—D. S. CHILDS, Mining Engineer, Austin, Nevada.
OF FICE—NO, 55 South Third street, Philadelphia, SILVER MINING PROFITABLE.
That the ousiness of Mining and reducing silver quarts is immensely profitable, is simply satested by the results waich have accrued from the mines of Markos, Pera, Germany, and other silver-bearing southries, and thus silver to less are markable rich, as with as namerous, in Nevada, we have the tastimony of such eminent and distince seted in an ast fisting Simpson, Frof. Sillingan, Prof. James, Hon. Hor we Greeley, Speaker Coltax and Senator Ny, who personalty visited and husperized the mines, besides hun ireds of other individuals who are now engaged in the business of mining in that State.

In the city of New York, after his return from Newada, said: "Were the dator of pour nation \$2,000,000,000, there is wealth enough there, who note debt is paid off to give every soldier whoreturns from our battle-fields muskets of silver instea to from. * * I do not speak now from tille speculation, but I ap ak of that wealth from observation and actual calculation."

WHAT INVIDENTS MAY BE EXPECTED. As to the amount of dividends that may be set down as ranging from the progress made in the mines, and the quantity of machinery at work.

Happer's Montaly Magazine for Aguntscontained and article on "Newada," which with references in the progress made in the mines, and the quantity of machinery at work.

Happer's Montaly Magazine for Aguntscontained and article on "Newada," which with references in the quantity of machinery at work.

Happer's Montaly Magazine for Aguntscontained and article on "Newada," which with references in the progress made in the mines and progress in the progress made in the mines and progress in the progress made in the mines and progress in the progress made in the mines and progress in the progress made in the mines and progress in the progress made in the mines and progress and progress made in the mines and progress made in th Harper's Monthly Magazine for Angusticontained an article on "Nevada," which with reference to the profits of silver mining, said: "If the mine be of even average value it can scarcely fall to return from ten to 20 per cent, per month to the investor, an I salver mines are usifixe gold mines. In that they are inexhaustible, and may be worked for generations when once opened."

A recent issue of the Philadelphia Eventro Tellers April speaking of the subject, says: "The mining statistics of Nevada showns that whenever worked with proper appliances, and under judicious management, these mines have paid from \$10 to \$10 per cent, per annum up in the capital invested."

30 to 30 per cent. per annum up in the capital invested."
WHAT OTHER COMPANIES ARE DOING.
There is not a single Company nowin operation with their own mechinery in Nevada, as far as we have learned, that is not a complete success. All are returning not only large but ENORMOUS Dividends, and the prices of their shares have corpaspondingly advanced. For instance, on March 21, the stocks of the older Companies were quoted in the city papers as follows: "Gould & Curry 8 191; Savage, \$917; Choliar Potosi, \$207; Imperial \$107; Crown Point, \$1,097; Alpha, \$207; Yellow Jin-keb, \$480." The original price of these stocks was less than \$50-40mo of them only \$10. And the Companies more resently organized are not a was less than \$50—some of them only \$10. And the Companies more exemtly organized are not a whit less prosperous, but as far as progressed give every promise of an ultim ansuccessover grearer than that schleved by the Gonld & Curry. For example, the stock of the Hale & Norcross Company of Novadia, which a few months ago was worth only \$1, is now quoted at \$1.10. So, also, the Boston and Reese River Minling Company, which come is accessed work only last full; its shares, though originally sold at \$10, soon went up to \$105, and on the lat of March had advanced to \$200.

THE NATURAL CONCLUSION.

THE NATURAL CONCLUSION,
I may therefore be safely asserted that no other
enterprise requiring the association of capital,
offers so many indusements for investment, with
so little risk, as Silver Mining. Every Company
that was a mine, and will honestly go to work, wist in Astocess' iteannot possibly fail. The only difference between companies at work will be in the dunum of that dividents.

MOWERS & REAPERS.

THE undersigned is still Agent for the sale of MOWING AND REAPING MACHINES oth combined and single Mowers. These machines can be used as Self-Bakers or Hand Bakers, as farmers may wish. They are made with two cutter bars, one for cutting grain with sickle kulfo-cutting five teet nine inches wide-and extra bar, with two knives for grass, cutting four feet six inches wide,

ger bar. The company building these machines have secured by lease and purchase, the control of all the desirable and atandard patents now in

use, among which are the OHIO AND BUCKEYE PATENTS, to which we direct special attention. In com-pactness, lightness of draft, excellence of workmanship and finish, combined with great strongth and adaptation to all kinds of work, they will compete with, and we believe, surpass, any other machine now offered to the public.

Farmers would do well to examine these machines before purchasing any other. They will be sold as cheap as any other first class machine now manufactured, and we warrant north-east of Gettysburg.

CHOLERA PREVENTIVE!

100c. L. THE GREAT ZINGARI BITTERS. THES WONDERFUL REVEDY was discovared and introduced about twenty years

ago by Dr. S. Cheopeus, an emineut Egyptian He had long seen and felt the want of some remedy which would strike as the root of discase, and so prevent much of the suffering which the human family was then compelled to

The great question was presented to his mind every day in vivid colors as he moved a-mong the sick and dying, and observed the inefficiency of nearly all the remedies then in nee. Thus he was lead to think and experi-ment; and after ten years of study and labor, the presented to his fellow man the wouderful ingari Bitters. The eff ot of this preparation in the prevention and cure of disease, was so narvellous and astonishing, that the most We will sell Hate cheaper than anybody else. flattering marks of royal favor were becomed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription-Dr. S.

medal with the following inscription—Dr. S. Cheopens, the Public Benelactor—was presented to him by the Viceroy.

The preparation has been used in several epidamics of choiers, both as a preventive and curative measure, and with such great success

that it has been introduced into nearly all the general hospitals of the old world. The old saying that in cance of prevention is worth a pound of care, applies with mar-vellous force to cholers, and therefore any amedy that will protect us against this terrible disease should be freely and persistently

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory o gans, and keeps them in work-ing order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fevers.

The Zingari Bitters is just such a remedy as the above conditious require. It nots on the organs of exerction and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, po-nicely concocted that every organ is noted upon, and put in tone. his taste is pleasant and its effects prompt and leating. Numerous cases of the following discusses have been cured by it: Cholers, Distribuon, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularties,

Sold by Druggists, Hotel keepers & Greens.
