put your finger on a bit of territory, disputed or undisputed, where the Yankee Doodle is not. If you go to Land's End, he is there; to Mount Ararat, he is there; Chimborazo, Himalaya, the mountain of the Moon, or the Pyramid of Cherps, he is there; anywhere, in fine, where an ark, a dove, a camel, a snake can arrive, by their several faculties; bartering, scratching his name on trees, stones and African slaves. He knows the whole map of the ancient tiominions of Prestor John, and every nook and corner of Mozambique, and he is hand and glove with all the savages in the world. He has been to Ichaboe until he has scraped it perfectly clean; and if your English trader has discovered a new bank of Guane. and is getting ready to fire a gun or two and take possession of it in the name of her Majesty, imagine his concernment to discover a dozen of these fellows seventy feet deep in a Guano cavern, scooping it out with their fingers, and a Bangor schooner bouncing up and down in a little cove like a duck among bulrushes.
