Wit and humor.

Diamond out Diamond.

The other day a gentleman who had oc rasion to cross New York in a cab, found, on alighting, that he had no change in his pocket. The only shop at hand was a ci ger store, in which there were some three or four fellows, besides the proprietor, puffing the villanous weed.

The gentleman entered, requesting the cabman to follow him, handing a five dollar bill to the "Yorker," asked him to change it. The cigar-vender him a three-dollar bill and the balance in silver, out of which the cabman was paid, and went on his way rejoicing.

But a moment afterwards, the gentleman looking at the bill, found it to be a very suspicious looking document, purporting Cassimeres, Vestings, Summer Stuff, Fancy Cravats, &c. A splendid lot of HATS, CAPS to be a promissary note of the Dogtown Lumber & Mining Company or some such embiguous and apocryphal institution. Finding he had been shaved, he asked the eigar-vender if that was a good bill.

sand of them. Bill! (winking to a villainous looking 'b'hoy,') isn't that 'ere a good

"Good as wheat !" said the b'hoy ; and "good," "good," was echoed around the

"Very well," said the gentleman, "I asked for information. You seem to have no doubt of the genuineness of the note, and as you were kind enough to accommodate me, I think the best thing I can do is to break it at your counter. Gentlemen, try another cigar at my expense."

The cigar-man was regularly taken in and done for-caught in his own trap. With great reluctance he changed the sparious note,and the operation cost the intended victim but a shilling.

As he was about leaving the store, one of the b'hoys touched him on the shoulder. "You're one of 'em," said he, "and I'll bet high that you're a Yankee,"

"I aint anything el-e," replied the gen tleman, "and while I'm in this small village, I mean to keep my eyes open tight !"

Lobby Influence.

During the recent session of the Legislature, it became necessary for one of the Detroit banks to receive a little "legislative aid"-a kind of stimulus which institutions of that kind are very much in the habit of needing. The bill was all right in the House, but in the Senate just one vote was lacking to pass the bill. In the extremity of their dispair, the bank lobbies applied to C. P. B. a most indefatigable lobby, and besought him to give the aid of his "genius" to help them out of the dilemma. B., after some hesitation, agreed to aid him. Waiting his opportunity at the moment stepped up to the chair of Senator F., and three daily recitations. Every Saturday forenoon is said, "Come, there's nothing doing here; and reading select and original Compositions. lei's go and take a horn." F. vielded to the "inducement," and took his hat.

The bank lobbies and their friends were on the alert, and understood the whole move; and the moment F.'s back was turned, passed the bill, moved a re-consideration, which was lost, and passed on. Just at this moment, F., who had been a function of the bill, entered, took his sent, and enquired of Finley, who sat near him, "what they had been doing while he had been gone."

"Oh, nothing," said Finley, "only we have passed that bank bill you have been gation, Analytical Geometry, Chief Students.

"The d-I you have! Mr. President,

I move to re-consider."

Down came the hammer. "The gentleman from Swine Creek, will come to order; a motion to re-consider has been lost."

An Irish gentleman was in company with a beautiful young lady, to whom he was paying his addresses; when on giving n shudder, she made use of the common expression, that some one was walking over her grave. Pat, anxious for every opportunity to pay a compliment to her, exclaimed, "By the powers, madam, but I wish I was the happy man!"

Cross Firing .- "Did you see the fire in my eye ?" asked a swaggering toper of a temperance lectures.

"I didn't make any observation beyond your nose," was the answer.

"Do you mean any reflection, sir ?" "It the fire was in your eye as you inti-

Old Dr. Jacob Townsend

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of are, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEN! SARSAPARILLA." Being peer, he was compelled timit us manufacture, by which means it has been seption of market, and the sales circumseribed to those unly who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, are claimed its wonderful

HEALING DOWNED HEALING POWER. This GRAND AND UNEQUALLED PREPARATION

This GRAND AND UNEQUALLED PREPARETICAL manufactured on the largest scale, and is called the things out the length and breakth of the land, especially as n in found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the monitor through the best of the Old Dr's Sarsaparilla. The Sarsaparila rose, it is well known to medical men, contains many mellicular properties, and some properties which are user or assess, and others, which if retained in preparing it for use, postuce fermentations and actic, which is injurious to the stem. Some of the properties of Sarsaparilla and of some of the properties of Sarsaparilla and of some that they are not preserved by a scientific process, know of these research principles, which is you in vapor, or as an athalation, under heat, are the very essential medical properties.

Any person can bed or seew the root till ther get a da colored liquid, which is more from the coloring matter the root than from anything cleer, they can then strain insipld or vapid liquid, ascerting with some median-then call it "SARSAPARILAR EXTRACT or SVET" seeding in Grain. Farmers by this plough can seed in as much grain, in one day, as in three days with common ploughs.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it down wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER-COMPLAINT, and in RHEUMATISM, SCROTTULA, PILES, COSTIFENENS, all CUTANE-GUS ERUPTIONS, PIMPLES, BLOTCHES, and all deletions existing from. IMPURITY OF THE BLOOD. It possesses a marveilous efficacy in all complaints arising from Indigestion, from Acidity of the Stowneck, from menual circulation, determination of blood to the bend, palpitation of the heart, cold feet and hands, cold chils and hot fishes over the body. It has not its equal in Colds and Coughe; and promotes easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat and every

because of one GRAND FACT, that the one is INCAPA-BLE of DETERIORATION, and
NEVER SPOILS,
while the other DOES souring, fermenting, and blowing the bottles containing it into fragments: the sour, and liquid exploding, and damaging other goods! Must not this northle compound be poissuous to the system?—IFact put acid into a system directly discussed is thacid? West causes Dyapepaia but acid? Do we not all know that when food sours in our stomachs, what muschief it produces?—fatnilence, heartbarn, palpitation of the heart, liver complaint, diarrhea, dyeantery, colic, and corruption of the blood? What is Scrofula but an acid humer in the body! What produces all the humors which bring on Empirical the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus speirs all the fluids of the body, more or less. What causes Rheumatism but a sour and acid fluid which instantes itself between the ionits and elsewhere, irritating and inflaming the delicale tissues upon which it acta? So of nervous diseases, of impurity if the blood, of deranged circulation, and nearly all the atlineous which afflict human nature.

wend's article!

We wish it understood, because it is the absolute truth, that S. P. Townsend's article and old Dr. Jacob Townsend's Sarsaparilla are heaven seide opert, and infinitely dissimiliar; that they are unitie in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no absence on pharmacounty.

As S. P. Townsend is no doctor, and never was, is no shemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessoral man, what guarantee can the public heve that they are eceiving a genuine scientific medicine, contonine all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease meteod of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and severe uposen a common decent meal. How much more important is that the persons who manufactures medicine designed for WEAR STOMACHS AND ENFERRED SYSTEMS.

Should know well the medical properties of plants, the best
