The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured nearly every work on the subject, whether published in England, France, or Germany, the most examinal parts of which lains command in the wholesale and retail lished in England, France, or Germany, the most essential parts of which being comprised in this Dictionary, render it as perfect and compre-hensible as possible. The publishers have endeavored to use great economy in type, so that each page of the work contains at least four times the number or words found in the pages of the same size. This has also secured to each plate working drawings of ample size and clearnees, so that a mechanic may construct accurately any machine described.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with regularity.

The whole work will be published in 40 numbers, at 25 the whole work will be published in 40 numbers, at 25 the whole work will be made to again. Any see wall them out; then rinse them through two or three waters, hang up and dry.—This Washing work through the post-office free of expense.

In the large number of cases, 206 out of 234, its use was followed by marked, unequivocal improvement, varying in degree in different cases, from a temporary retardation of the progress of the disease and a mitigation of distressing symptoms, up to a more or less complete restoration to apparent

"The effect of the Cod Liver Oil in most of these cases was very remarkable. Even in a few days the cough was mitigated, the expectoration diminished in quantity and opacity, the night sweats ceased, the pulse became slower, and of better volume, and the appetite, flesh and strength were gradually improved.

"In conclusion I repeat that the pure fresh Oil

from the Liver of the Cod is more beneficial in the treatment of Pulmonary Consumption than any agent, medicinal, dietotic or regimenal, that has yet been employed."

Old Dr. Jacob Townsend, THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla Genuine Townsend is used about 70 years of age, and has long been known as the AUTHOR and DISC OVERER of the GENUINE UNE DRIGHNAL "TOWNSENS OF the GENUINE". Below pear, he was compelled limit its manufacture, by which means it has been kept act of market, and the sales circumserabed to those sales and the sales circumserabed to those sales and the sales circumserabed to those sales and proved its worth, and known its value. It had reached the ears of many, nevertheless, as show persons also been healed of some diseases, and saved from death, to caused its wootherful.

This GRAND AND UNEGLALING POWER.

This GRAND AND UNEGLALING POWER.

This GRAND AND UNEGLALING PREPARATION of manufactured on the largest scale, and to called as a constitution of the land, especially as it is found incapable of degeneration or determoration.

Unlike young S. P. Townsend's, it improves such are and never changes but for the better; because it is persuad on scientific principles by a scientific man. The highest knowledge of Chemitry, and the bitest decoveres as it at, have all been brought into requirition in the manufacture of the Old Dr's Sussiparitie. But such is not the article known as the GENUINE OLD DR JACOB TOWNSEND S SARSAPARILIA.

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable becoming acid or fermentation, is extracted and represent them every particle of medical virtue to secured in a positional concentrated form; and thus it is readered incapable of losing and of its valuable and healing properties. Begard in this way, it is made the most powerful again in the

Is not this then The Medicine you pre-eminently need? But can any of these things be soul of S. P. Townson.

But can any of these things be said of S. P. Towners micrior article? This young man's liquid to not like the COMPARED WITH THE OLD DRS, because of one GRAND FACT, that the one is INCAF BLE of DETERIORATION, and NEVER SPOILS, while the other DOES: souring, fermenting, and for the bottles containing it into transmits, the sour as liquid exploding, and damaging other gases. Must contribute compound be possessus to the system. If put acid into a system already distrained without the compound be possessus to the system. would bear the most distant resemblance to S. P. Tossend's article!

We wish it understood, because it is the absolute tradthat S. P. Townsend's article and old Dr. Jacob Powsend's
Samaparilla are heaten wide sport, and infinitely desirailar; that they are unlike in every particular, having all
one single thing in common.

As S. P. Townsend's no dector, and never was in eashemist, no pharmaceutist. Roswa not more of making
disease than any other common, unscientific, unpresent
man, what guarantee can be public have that they are
caiving a genuine scientific moderine, containing all the vitties of the articles used in preparing it, and which are
capable of changes which might reader them the AGLNIS
