[Correspondence of the Chromele] Western Notes.

MR. EDITOR : In my last, written at Burlington, (lown.) I believe I promised your readers my ideas of this truly great State. Iowa is great in extent, great in recourses, great in enterprise, and still greater ir. expectation. I was disappointed with Burlington, however, which has hitherto been the boasted metropolis of the State. I expected to see much more of a city than what it is. Its location, on the banks of the Mississippi, is rather commanding, but will require many years of the enterprise that seems to evince itself there. before it presents the appearance, that I had pictured to myself before 1 saw it. Several potent rivals are springing up along the river, so that the Burlingtonians will be obliged to bestir themselves, if they desire to maintain their former position. Keokuk, which is located at the outlet of the Des-Moines (De Moin) river, is improving very fast, and is doubtless gaining ground upon its neighbor. Muscatine (Bloomington) and Dubuque, are also evincing a commendable spirit of enterprise. The towns generally are next comfortable looking, and have much the wholesome oppearance of Pennsylvania taste and neatness.

I have said so much of a laudatory character of the lands in Wisconsin and IIuois in my former letters, that I am almust afraid to give due credit to the soil and natural advantages of this State, for fear your renders will conclude that I was either easily pleased, or that I feel disposed to disparage my native State; but I beg leave to assure them, that I carry with me

perfumery of a Skunk.

FWISBURG

The educational arrangements in Iowa thor's intend it to accomplish, but must are perhaps tetter than ours. A very needs engender a political strife productive large fund is raised from donations of pub- of much evil, and only add fuel to the he lands, the interest of which is used for flame until they shall produce their own educational purposes, and thus the burthen destruction, and not their party's as some of taxation for that purpose is avoided. CHRONICI

as much State pride, and partiality for old Pennsylvania, as any of her boys dare bave, but it is not of a character to make me blind to superior excellence.

lows is a magnificent farming country. Corn and other summer crops are always abundant and luxuriant. Wheat sometimes fails, owing to the want of a sufficiancy of snow to protect it from the frost, but it is generally believed that more careful cultivation" and skill would in a great measure obviate the difficulty, the soil being so productive that farmers grow imperceptibly careless, and very frequently make one ploughing answer for two crops. It is a common occurrence to see wheat sowed in corn and oat stubbles, and harrowed down, and when not destroyed by frost, produce sure crop. The Des moines river country has a delightful soil and climate, and if the river were made permanently navigable, or a Railroad were constructed through it, the country would be every-

thing that man need desire ; but then you may almost go where you will in lowa, and you find the same character of soil and climate. The prairies are almost universally rich and fertile, while the poorest land and most broken, is along the streams, which is timber land. The more northern part of the State is fully as good, and having more snow, is perhaps preferable as a wheat country. Take Iowa as a State, it presents many

inducements for emigration thither. Men who have good/farms in Pennsylvania of their pecuniary interests. their own, are as well off where they are ; but a farmer who has to rent, or crop for the shares, who can command a few hundred dollars, can not fail to better his condition by going there. I met with men there, who I knew to have slaved themselves in Pennsylvania for years on poor farms, and had but little more than took them out, that are now the owners of land whose equal in quantity, quality, and location, could not be purchased in Pennsylvania for thousands ; and there is very to the few dissenting from the many whose little risk ; it would be difficult to find as poor land in lowa, as some men are obliged to support themselves and families upon by cropping on the shares.

Were I to venture an opinion as to which part of the State would be at this time the most preferable to migrate to, I think I would say, taking into consideration soil, health, and geographical position, that the counties of Muscatine, Cedar, Dubuque, and that section of the State, have the advantage, while at the same time Washingsoil, and are as healthy as any other ; and should a Railroad be built from Dubuque topinion from a large portion of my fellows among aspirants ; but finding themselves Fillmore.

Not darksome clouds or Tyrant's rol Could still the clarion cry (While nobly waved the Stars and Stripes) "TIS LIBERTY OR DEL!" The gallant forms that here thee on Now fill the Conquirer's grave, But spirits bold and brave as theirs Still bear thy glorious wave.

With they I see fair Freedom's chiefs, And France's patriot son; In thy bright folds I read the name Of noble WASHINGTON : With thre I hear the Soldier brave. With glazed and closing eye, Exclaim, "If yet the Stripes float free, Most happily I die!"

Thy staff is fixed in Freedom's soil. In Freedom's breeze doth flow, While perched above is Eagle form, Best Fight Bring below Thy folds may float o'er lifeless forms, May dip in gory wave, But never let the Stors and Stripes Stream o'er our Uniou's grave! LEWISBURG, SEPT. 1850. MRS. C. C. DOW
