best paper in West Jersey, says, July 21st.—
HOOPLAND'S GERMAN HITTERS.—We have seen many flast ring notices of this medicine, and the source whome they came induced us to make inquiries respecting its merits. From inquiry we were persuaded to use thand must say we found it specific in its action upon diseases of the liver and directive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine were more generally used, we are satisfied there would be loss sickness, as from the stemach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epicientics generally. This extraordinary medicine we would advise our friends who are at all indisposed to give a trial—it will then recommend itself. It should, in fact, be in every family. No other medicine can presume such evidences of merit.

From the Boston Bee—editorial, Dec 22d received from the use of this remest, an effectual, permanent cure of laver Complaint. We are contineed that in the use of these litters, the patient constantly cain strength and vigor—a fact worthy of great complerate. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs, with safety under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

Judge M.M. Noan, a gentleman of great scientific and literary attainments, said in his "New York Weekly Messenger. Jan 6, 1850—

Dr. Hooften is German Büterz.—Here is a preparation which the leading presses of the Union appear unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christophar Wilhelm Hoeffand, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers feermany has ever produced. He was emphatically the enemy of huseling, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constitution, and all complaints arising from a disordered condition of the stomach, the Liver and the Intestines. Nine Philiadelphia papers express their conviction of its escellence, and several of their Editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor (Dr. C. M. Jackson's) preparation, but in recommending the article to all afficied.

It is seldom that we recommend what are termed Patent Medicines to our readers' patronage and confidence; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nestrains of the day, that are noised about for a brief period and are forgetten after they have done their guilty race of mischief, but of a medicine inorg established, universally prised, and which has met the hearty approval of the Faculty liself.

Evidence on evidence has been received (like the foregoing) from all sections of the Union, the last 3 years, and the strongest latinony in its forest, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than of all other nostrams combined—a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval whon presented even in this form. That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the Stomach and Liver. It is preferable to Calomel in all bitious diseases. The effect is immediate—they can be administered to remain or intrant with safety and reliable benefit, at any time.

Beware of counterfeits! This medicine has attained that character which feiters to put forth a spurious article at the risk of the lives of those who are innocently deceived.

published, said Aug 25th—
Dr. Hoortaxo's Granax Birries, manufactured by Dr
Jackson, are now recommended by some of the most prominent members of the Faculty, as an article of much
efficacy in cases of female weakness. As such is the case,
we would advise all mothers to obtain a bottle, and thus
save themselves much sickness. Persons of debilitated
constitutions will find these Bitters advantageous to their
health, as we know from experience the salutary effect
they have upon weak systems.

They have the written signature of C.M.Jackson upon the wrapper, and the name blown in the bottle, without which they are spurious.
