The fire on the mountains between Buffalo and White Deer, has raged several days.

Fugitive Slave Law.

As the jury failed to agree upon the facts in the case of Oliver against Knuffman, in the U. S. Circuit Court at Philadelphia...

In his charge to the jury, Judge Grier stated that it was "too plain for argument, that the act of 1793 did not intend to make common charity a crime, or treat that man as guilty of an offence against his neighbor, who merely furnishes food, lodging, or raiment to the hungry, weary, or naked wanderer, though he be an apprentice or a slave."

It is for an unlawful interference or hindrance of this right of reclamation, secured to the master by the Constitution and laws, that this penalty is imposed. The harboring made criminal by this act, then, requires some other ingredient besides a mere kindness, or charity rendered to the fugitive. There must be a knowledge that the person harbored or concealed is a fugitive from labor; and formal notice of the latter fact, from the owner, is not necessary.

—Judge Grier has also published a semi-judicial opinion, in reply to a letter on the subject from Charles Gibbons, Esq., that the new fugitive slave law does not require that a judge should, without trial, surrender a citizen of Pennsylvania to a kidnapper.

Another Fire in Northumberland! On last Saturday evening, about 8 o'clock another fire broke out in Northumberland, and burnt down Mark Priestly's dwelling house; the stable formerly connected with Mrs. Withington's Hotel; and a blacksmith shop.

We are indebted to our friend and correspondent, Mr. W. H. CHAMBERS, for a copy of the "California Courier" of Sept. 4th, in which we observe among other things the "Romantic Marriage" recorded in this "Chronicle" some months ago...

Cholera at Jamaica.

We learn, from the N. Y. Evening Post, that the Cholera is raging with frightful violence on the island of Jamaica, West Indies; and dreadful as it has been, the physicians think its destructiveness has only commenced. The later cases proved fatal in a quarter of an hour. In one place, out of a population of 200, twenty-five died in 24 hours. In the burial ground of Spanishtown, the seat of Government of the Island, 25 bodies were left above the ground, one Sunday, because no one could be found to bury them.

LATE FROM LEWISBURG.—The editor of the Chronicle has got a bad cold that hinders the discharge of his editorial duty. His nose weighs one pound and seven ounces. In the meantime, he uses "Pepsin" to digest his ideas.

Slightly mistaken, neighbor. Our nose counts by feet, not pounds. Therefore we should like to take a peep at the scales by which you arrived at such a ponderous result. Our only medical prescription in a pinch, is one of "Wright's Vegetable Pills," to wit: a copy of the Lewising Gazette; though we will admit to you (in the strictest confidence) that after such a dose, a little "Pepsin" would not come amiss, to help restore the digestive functions.

in wealth, the others in misery—by the thoughtless demand for "cheap" articles. Let every honest man—let all who have human hearts—not only denounce such villainy, but, by knowing who make their clothing and shoes, be sure they are paid for honestly. Such imposition must not only be denounced, but put down by abstaining from any encouragement of it by sharing its supposed profits.

From the Truckee to the head of the Humboldt the Cholera is killing them off; the sick surround the Truckee Station, unable to proceed. Capt. W. was about starting to try to persuade such as are from four to six hundred miles back to return to Salt Lake. He calls for ten thousand pounds of flour for the Station at Truckee, and the same amount for the Summit. He says that those back several hundred miles will die unless relieved.

"Satanic Literature" is a very appropriate name for the streams of moral death and putrefaction that poison the public health. This engineery of Satan is less powerful than formerly, but the people still need to be warned of its many-sided arts. There are still unprincipled printers, publishers and booksellers, in almost every county, who for money will (secretly if not openly) pander to the most brutish passions of man—who would not hesitate to undermine that love and practice of purity which is the first ingredient in the cup of domestic bliss—health of person—and strength of mind.

On the 9th instant, as the vanguard of Solozar's army was descending the Pass of Bonica, they were attacked by about 500 Dominican troops, who drove back the Haytiens with terrible slaughter.

Rumors of War between Brazil and Buenos Ayres.—Letters from Buenos Ayres, of Sept. 3d, state that the city is full of rumors that a declaration of war between Buenos Ayres and Brazil is soon to take place.

"Seeing the Elephant." After the exhibition of the Menagerie on Wednesday afternoon last, the elephants were chained to different logs to remain over night.

"Economy in Wintering Stock" is as reasonable as it is reasonable, both to "man and beast." Many shrewd farmers have long practised upon Mr. T.'s principle, not knowing the philosophy of it.

Offering to the community this justly celebrated remedy for diseases of the throat and lungs, it is not our wish to trifle with the lives or health of the afflicted, but frankly to lay before them the opinions of distinguished Naturalists, and some of the evidences of its success, from which they can judge for themselves. We pledge ourselves to make no wild assertions or false statements of its efficacy, nor will we hold out any hope to suffering humanity which facts will not warrant.
