In: Heighnel's Geometr Bitters.—Here is a preparation which the leading presses of the Union appear unanimous in recommending, and the reason is obvious. It is made after a prescription formished by one of the most celebrated physicians of modern time—the late Dr. Christopher with the Woodland, Professor to the University of Jens. years occupied by his Father, and is now prepared to accommodate friends and the traveling community in a manner acceptable to all.

The HOUSE is large and roomy, well arranged in all its departments, and every care will be taken to render his guests comfortable and happy. His TABLE will always be furnished with the choicest delicacies of the season, and the best the market can afford. The BAR will at all times be attended by careful persons, and none but the very best of liquors will be kept. His STABLES are ample and convenient, and the OSTLERs punctual and attentive.

the United States, the editor says of Dr Hoofland's German Bitters—

It is seldom that we recommend what are termed Patent Medicines to our readers' patronage and confidence; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nestrume of the day, that are noised about for a brief period and are forzotzen after they have done their guity race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty (teelf. Evidence on evidence has been received (like the foregoing from all sections of the Union, the last 3 years, and the strongest testimony in its forms, that there is more of it used in the practice of the regular there is more of it used in the practice of the regular. Physicians of Philadelphia, than of all other nestrum-somblined—a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form. That this medicine will cure Liver Complaint and Dyspeptia, no one can doubt, after using it as directed. It acts specifically upon the Stomach and Liver. It is preferable to Calomel in all billions discusse. The effect is immediate—they can be administrated to FEMALE OF INFANY with safety and reliable benefit, at any time.

Beware of counterfeits! This medicine has attained that character which it is necessary for all to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived.
