

Wit and Humor.

An apt illustration. The Norfolk (Massachusetts) Democrat repeats an illustration of Mr. Culver, of Washington county, in his address at the Tremont Temple of the bargain in Congress at the last session, that is, if the South should have the Compromise measures carried through, the North was to have a Tariff. He said there was a boy in his neighborhood, who, after having eaten a full meal, had a spaniel dog that was very hungry. He took a cracker, and holding it up, told the dog if he wanted it, to stand up. The dog stood up. "Now," said the boy, "sit down." The dog sat down. "Now roll over." The dog rolled over. "Now speak." The dog spoke. Then turning round, the boy put the cracker in his pocket, saying, "I shall want that to make him do it again." So with the Tariff. After carrying all the obnoxious measures, the South turns coolly around, kills the bill, and says, "We shall want to that make them roll in the mud again."

A RICH RELIC.—A correspondent who had occasion to rummage over some musty records investigating an old land title, involving a question of legitimacy, stumbled upon the following marriage certificate, which is decidedly too good to be lost, and is literally bona fide. The marriage, of which this is the only legal evidence, took place in the Corpora precinct, in Illinois, in primitive times, and the magistrate who gave the certificate, ought to be immortalized, whether he ever got his commission or not. The certificate is as follows: State of Illinois, Peoria County, ss. To all the world Greeting: Know ye that John Smith and Peggy Myers is hereby certified to go together and to be old folks does, anywhere inside of the corpora precinct, and when my commission comes I am to marry em good, and date em back to kizer accidents.

AN HONEST OBITUARY.—A western paper, announcing the death of a resident of the county, says: "He came to his death by too frequently nibbling at the still-worm, which soon placed him in a non-traveling condition. Ho lay out the night previous to his death, near a cotton gin in this place, and was found too late on the following morning for medical aid to be of much importance in staying his breath. He had been a regular tippler for the last half century."

A PRETTY GOOD JOKE.—The members of the Pennsylvania Legislature, last week, paid a visit in a body to Baltimore city. Soon after they arrived, an individual in the gaping crowd, who appeared to be attentively listening to the casual remarks of the Members, with an exclamation of astonishment, remarked—"why, they talk English!"

The Ancient Greeks, it is said, had so strong a faith in immortality, that they frequently lent money to be paid in a future state." It would be consoling to some moderns, if they could enjoy this full assurance of hope unto the end.

George Coleman getting out of a hackney coach one night, gave the driver a shilling. "This is a bad shilling, sir," said the driver. "Then it is all right," said George, yours is his imitable check, 'tis all right; yours is a bad coach."

I've seen her out of a walking, in her habit of a la rve, and it ain't no use talking, she's pumpkins and 'a few'; she glides along in beauty, like a duck upon a lake, oh! I'd be all love and duty, if I only was her drake.

"John, why don't you stop crying and go to sleep? What do you want?" "Pre got the better ache—that's what I want!"

A Farmers' Paper for Central Pennsylvania!

LEWISBURG CHRONICLE, AND WEST BRANCH FARMER.

On the 2d of April next, the undersigned will commence the Eighth Volume of this weekly journal, edited by HENRY C. HICKOK, Esq.

The "Lewisburg Chronicle" is a seven column sheet, well printed on good paper, and will contain per week an average of 15 columns of fresh reading matter, on fair NEW TYPE. It is issued Wednesdays, at \$1.50 cash in advance; \$1.75 if paid in six months; \$2 within the year; or \$2.50 at the end of the year.

In addition to a carefully selected portion of Literary and General News matter, with Political items given in an impartial form, it is our design to make the Chronicle and Farmer distinctively a FARMERS' PAPER, as far as can be done by selections from Agricultural publications, by contributions from good practical farmers, whose assistance is desired and expected, and by the proceedings of Agricultural Associations.

The President of the Nation, and the Governor of the State, have both adverted to the importance of, and encouragement to, Agricultural progress, in their last Annual Messages. A State Agricultural Society has been formed, and County Societies are springing up on every hand. To aid in fostering the spirit thus aroused, papers devoted to Agriculture are certainly necessary. Situated as the Chronicle is in a highly flourishing farming country, and independent as it is of all party claims, we have thought proper to offer it to the lovers of improvement in Agriculture, Practical Science, and Domestic Economy, as a medium of communicating with each other, and thereby gaining mutual pleasure and profit. We propose devoting about ONE PAGE per week to Agriculture and kindred topics, and even more should the interest and patronage seem to warrant it.

Under the New Postage Law, the Chronicle will circulate free in Union county, and the postage will be but 20 cts. per year to most of the counties in Central Pennsylvania. Its circulation is already superior to that of any English paper in Union county, and affords a good medium for the publication of Advertisements of Real Estate, &c.

Payments may be made by mail, at our risk, when the money is enclosed and sent with the knowledge of the Post Master. Persons procuring five subscribers and remitting the pay, shall have a copy gratis.

Communications and subscriptions respectfully solicited by LEWISBURG, Union county, Pa., March 13, 1851.

Table with columns: SUBSCRIBER'S NAME, COPIES, POST-OFFICE AND COUNTY.

A SLEND PICTORIAL SHEET. "SCENES IN LONDON, or a Visit to the World's Fair." The April Number of "Penny Vision," to be issued about the 15th of March, will contain a splendid Pictorial Sheet, embracing 24 plates of GILDED SCENES AND CAPRIES in the most striking manner, and the most striking objects to be visited during a month's residence, with full directions and descriptions. To persons contemplating visiting the Fair, this would be found to be an invaluable guide and assistant; and those whom necessity compels to remain at home, for a more trifling, obtain a thorough insight and view of all the Wonders of the Great Exhibition. The views will mostly consist of: 1. The Glass Palace, 12 Westminster Hall, 2. London for York Column, 13 14 St. James and Hyde Parks, 15 The Horse Guards and Bank of England, 16 London Port Office, 17 Westminster Hall, 18 Pall Mall, 19 National Gallery, 20 University Club House, 21 House of Lords, 22 Grosvenor House, 23 St. Paul's Cathedral, 24 View of the Thames.

ANOTHER SCIENTIFIC WONDER!

PEPSIN!

The true DIGESTIVE FLUID or GASTRIC JUICE—a great Dyspepsia Cure!

Prepared from Rennet, or the fourth stomach of the Ox, after directions by Baron LIEBIG, the great physiological chemist, by J. S. HOUGHTON, M.D., No. 11 N. 5th St. Philadelphia, Pa.

PEPSIN is the chief element of good digesting principle of the gastric juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes contained in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making their stysd Rennet, the effect of which has long been the special wonder of the dairy.

SCIENTIFIC EVIDENCE: Baron LIEBIG, in his celebrated "Chemical Treatise," has shown that the gastric juice is a true digestive fluid, and that its action is due to the presence of a certain principle, which he has named Pepsin.

Dr. HOUGHTON, in his valuable "Physiology of the Stomach," has shown that the gastric juice is a true digestive fluid, and that its action is due to the presence of a certain principle, which he has named Pepsin.
