In general, the Judges were averse to deciding questions of law. They did not like the responsibility of offending one or the other parties. They preferred to submit everything they could to be decided by the jury. I knew one who, when by the jury. Prof. bUNGLISON, of the Jefferson College, Philad, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. Pepsin is the chief element or great dige ing principle of the gastrie juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest or eat itself up. It is also found in the stomach of animals, as the ox, saif, &c. It is the material used by farmers in making cheese styled **Remnet**. the effect of which has long been the special wonder of the dairy. Cardling of milk is the first process of digestion. A call's stomach can curdle nearly one thousand times its own weight of milk. Baron Liebig states, "one part of Pepsin dissolved in sixty thousand parts of water, digests meat and other food." "Resolved. That we are the friends of George Washington, Esq., and will sustain him in the coming election for President, against all other candidates."

"Gentlemen," said Mr. Jones, "the Chair is now about to put the question. The Chair hopes that every man will declare his sentiments, for or against. All those in favor of the resolution, will say Ave."

The response was like the shout of ma ny voices.

"Now for the opposition," said Mr. Jones; "all of the contrary mind say 'No.""

Not a voice was heard. This dead silence seemed to confuse Mr. Jones a little, and he said, "Gentlemen, do vote. The Chair can't decide a disputed question when nobody votes on t'other side. I hope our political opponents will meet the question like men. Come, gentlemen, no dodging ! vote one way or t' other, so that the country may know who are the true friends of Washington."

Upon this appeal one of the audience arose and said that he perceived the dilemma in which the Chair was placed, and in order to relieve him from such a quandary, he proposed to amend the resolution by adding after the name of Washington, "and John Jones for Congress."

"I accept the amendment," said Mr. Jones,. "and the Chair will now put the question as amended. All who are in favor of Gen. Washington for President, and John Jones for Congress, will please to say, 'Aye.'"

"Aye-aye," said Mr. Jones and his brother Sam.

The Chair hesitated like-"Put the contrary," said a hundred voices. "All op-op-opposed say 'No.""

"NO!" thundered the congregated multitude.

"Gentlemen," said Mr. Jones, "the Chair perceives that there are folks in this cts per box, by meeting what don't belong to our partythey have come here to agitate. I therefore adjourn this meeting." Upon which he left the chair, amidst shouts and huzzas for Washington, and laughter for poor John Jones.
