"Ayer's Cherry Pectoral."

The remarkable cures of discusses of the Large which have been realized by its use, attested as they are by many prominent professors and physicians in this and foreign lands, should encourage the afflicted to persevere with the strong assurance that the use of the "Cherry Pertoral" will relieve and ultimately cure them.

We present to the public unsolicated testimulais from some of the first new in our country, upon whose judgment and experience implied coindence may be placed one of the most learned and intelligent physicians in the country, considers it a "composition of rare excellence for the cure of that formidable disease, Consumption."

Norwich, April 26, 1846.

Dr. J. C. Ayer—Bear Sir: Agreeable to the request of your agent, we will cheerfully state what we have known

Dr. J. C. Ayer—Bear Sir: Agreable to the request of your agent, we will cherrinily state what we have known of the effects of your Cherry Peetersl, and they have been astonishing indeed. Mrs. flotsy Sirveter had been attleted with a severe and relentless cough, which reduced her very low; so low that little hope could be entertained of her receivery. Numerous remedies had been tried without effect, before the Cherry Peetoral. And that has curved her. George Wathinson, Beq. had to our knowledge been afflicted with Asthma, for deven very and grown yearly worse, until the Cherry Peetoral, has new remarked the discusse and he is as free from any symptoms as we are. The Rev. Merk Dane had been so severely attacked with the Bronchitts, as to disable him from his duties, and nothing had alforded him reief auntil I (Mr. Thorning) carried hum a battle of your Peetoral, which curved him at once, and he now officiates as usual in his place.

which curset him at once, and
in his place.
These are three of the cases in which we have known
it successful, but never to fail. We have great pleasure
in certifying to these facts; and are, respected sir, your
humble servants.
