LEWISBURG CHRONICLE & WEST BRANCH FARMER.

The Cuban Insurrection.

WASHINGTON, July 28 .- The Nationa Intelligencer has intelligence from passen gers by the Isabel, who state that Havana was filled with rumors of a revolt on the eastern part of the Island. Three compunies of the regiment of Cantabria (?) are said to have thrown down their arms and gone over to the patriots. The remainder of the regiment has been publicly Wednesdan Morning, July 30, 1851 disbanded. It is also rumored at Havana that the people of San Juan de los Remedios are in open insurrection, and have established a provisional government. The reported loss of three hundred Spanish troops is said to have occurred from the sinking of a scow whilst crossing the river. The Gaceta de Habana contains an official unnouncement of the rout of two small parties of insurgents, and of the ordering f a court martial for the trial of the prisoners.

BALTIMORE, July 28 .- Ned Buntline has arrived here with the steamer Monmouth for repairs. As he is fresh from Cuba, the Government officers are watching his movements. He is believed to be fitting out another Cuban expedition.

Latest Despatch.

CHARLESTON, July 27 .- The Isabel has at last reached her dock. Letters received by her fully confirm the accounts of the insurrection in Cuba.

Neveral of the towns in the interior are : presented as being in arms to the numler of five thousand men. The Queen's troops in the late engagement suffered a severe loss.

It is the intention of the insurgents to declare a provisional government.

A Puzzler.

While Hobbs, the Yankee, is picking the patent lock of Chubb, the Cockney, at the Great Exhibition, with all case, Herring, the Gothamite, is challenging the world, in the same line, most provokingly. He has one of his plain counting room safes in the "American quarter," over which is a sign thus inscribed : "This conains two hundred sovereigns. The key is the office of the U. S. Commissionerat the service of any one, and the money shall be the reward of the person who opens t" Herring has posted off to France, leaving his safe thus labelled, and feeling confident that his gold is in the only place where it will be perfectly secure .- New York Express.

The use of Fruit.

Instead of standing in any fear of a generous consumption of ripe fruits, we regard them as positively conducive to health The very maladies commonly assumed to have their origin in a free use of apples, peaches, cherries, melons, and wild berries, have been quite as prevalent, if not equally destructive, in seasons of scarcity. Horrible Affair at Browntown.

We are informed by a gentleman, that n Sunday morning, a shanty located at Browntown, Bradford county, Pa., was found in ruins, the place having been burnt ome time on Saturday night. On making an examination, the charred remains of four persons, consisting of Mr. Fisher and son, of South Wilkesbarre, employers on the canal, and also two others, a cook in the shanty, and another person whose name has not been ascertained, were found among he burnt rubbish. It is supposed that the sum of about

There are many pleasing indication that in the choice of Judges next Fall, the People will act independently of party. At the recent Democratic Convention in Dauphin county, it was agreed to support the Whig nomince and incumbent, (John J. Pearson,) for President Judge. On the subject of the next Presidency, they were in favor of Gen. Cass' re-nomination, and as has been their custom-they elected Delegates to the next State Convention.
