Wit and humor.

Blitz in a Tight Place.

Signor Blitz is well known throughout this country as the prince of magicians and ventriloquists, who can hocus-pocus anycable and mysterious manner, while his audience are wrapped in astonishment. He can throw his voice into any spot within hearing distance, and imitate the language of animals themselves. He is noted for tact and self-possession, and is usually equal to any emergency in which he finds himself placed. We never knew the Signor 'set back' and completely 'flabbergasted' but once, and then it happened in a country town in Connecticut, in this wise.

The Signor, contrary to his usual custom. had consented to stop at this town on his route through New England, by the assurance of certain persons that it would pay bim well for the trouble, as amusements were scarce, and the 'free list' small. He accordingly gave a series of performances in a large hall in the principal tavern in the place, which was a large, old fashioned structure. The hall was crowded to its fullest on each of the evenings, and everything worked to admiration until the last evening, when a mischievous boarder conceived the idea of varying the entertain-

One of the most popular things in the when the Signor held an animated conversation with 'Peter' in the chimney, which was situated on one side of the hall, near the middle. The aforesaid boarder was aware that the smoke-house, in which his daily slice of bacon was cured, was situated over the ball, and an aperture in the main chimney at that spot gave access to a flue which led from the fire-place to the hall room. He accordingly captured : cat, and enseenced himself in the smoke house, just before the feat of ventrilequism house, just before the feat of ventrilequism was to begin. When the Signor com STRAW GOODS.

July, 1851.

July, 1851. to converse with the imaginary interlocucor for a short time without interruption, but when Blitz requested 'Peter' to come down near the fire-place for a familiar chat the boarder's voice replied that he would see him in the place of punishment first, 'and then he wouldn't.'

Blitz was hardly able to conceal his as tonishment at this reply, but the audience thought the magician was outdoing him self, and cheered tremendously.

"Peter, come down, will you?" "See you in my home, first! Nor my

name ain't Peter, neither. He keeps the keys of t'other place."

"What is your name?" " I am Old Scratch."

Blitz scratched his head, and the audience thought he was getting profane. He knew that he was sold, but could think of

"Are you old Scratch, the Fire King?"

"I would be happy to see Old Scratch

"Well, are you ready?" " Yes."

The word scarcely entered the chimney when the big cat came tumbling and scratching down, filling the magician's eves with soot, and the audience with inextinguishable laughter. The cat's eyes glared like the flash from two locofoco matches, and she disappeared with a bound. Blitz was utterly discomfitted, and was compelled to close the performance without finishing the last act .- Yankee Blade.

A farmer's daughter in this State was visited by a youngster, who, finding it difficult to keep up the conversation, asked the girl, after an embarrassing silence had prevailed for some time, "If she knew anybody that wanted to buy a shirt?" "No, I don't," she replied, " have you one to sell?" "Oh, no," said he, "I only asked to make talk."

The following Bible authority is cited by the opponents of the Bloomer costume. Of course the attempt to introduce the fashion will be at once abandoned : "The woman shall not wear that which pertaineth unto man, neither shall man put on woman's garment; for all that do so are an abomination unto the Lord thy God."-[Deut. 22: 5.

An old soldier was court-martialed for drunkenness; the offence was clearly proved. and the culprit was called upon for defence. It was short, simple and successful. "Does the court think that Uncle Sam bires all the cardinal virtues for seven dollars a month ?"

There is only one newspaper published in Egypt proper. It belongs to the Pacha. All his officers are compelled to subscribe for it. The Pacha knows how to sustain

the party. A traveler, writing from the coast of Africa, says: "The people die very fast, and the sheep have very long tails." Suf-

ficiently concise for any class of readers. Mrs. Partington says the candidates for the sufferings of the sovering peoples in

her dominions are so sunk in moral turpentine as to merit her entire dissent. A Lying Institute is established and in

full operation in Ohio. Political editors are made in six lessons, and lawyers in two.

UNIVERSITY at Lewisburg.

HE next Session of the University will con mence on Thursday, Oct. 16, 1851. The Board of Trustees have been highly grafied by the large degree of success which ha fready attended their exertions; and they are e-olved to spare no efforts in order to fu bereafter the highest advantages to Students. The Rev. HOWARD MALCOM, D. D., ha entered upon his duties as President of the University. His well established reputation gives ssurance that under his admini 'arger degree of success awaits the University. He will be assisted in the department of instruc-ion by the following able Professors:

REV. GEO. R. BLISS, A.M., Prof. of Greek Lang, & Literat TEO. W. ANDERSON, A.M. Latin " CHAS. S. JAMES, A.M., Prof. of Math. & Natural Philos ALFIERD TAYLOR, A.M., Prof. of Belles Lettres. The usual system of Collegiate education fully carried out, embracing a course of four year

of Bachelor of Arts. In order, moreover, to adapt the University to nothing better than to continue the 'tork.' the wants of all, a course of study has been establi-hed omitting the Ancient Languages and sub-tituting in their place various branches of Mathematics, Philosophy and Natural Science. This course will occupy a period of three years.

It is thorough and complete, and will entitle the Philosophy.

Students who design spending but a year or two at College, will have an opportunity of studying whatever branches they may elect, such as

Chemistry, Civil Engineering, &c. Every Student will be required to give special tention to Composition and Public Speaking.

In connection with the Collegiate Department is an Academy in which the ordinary branches of an English and Classical education are pursued. This department is under the charge of ISAAC N. LOOMIS, A. M., Principal, and Assist ants. There is also a Primary Department under the superintendence of Mr. NORMAN BALL.

Every arrangement has been made to furnish all requisite aid in every part of a thorough Academic and Collegiate education. An excellent Library, a very complete Philosophical Apparatus and a well furnished Chemical Laboratory are demic and Collegiate edu provided. The Library is constantly receiving valuable dditions.

The University has extensive Buildings stand ing in an elevated grove on the south side of the town. A more beautiful, pleasant and healthful location could not be found within the State.

Price of Turnos—Collegiate Department, \$10 per annum Academic 200 results Primary 12 4

Petroleum, & ROCK OIL,

A NATURAL REMEDY!

PROCURED FROM A WELL IN ALLEHHENY CO., PA., Four Hundred fiet below the Earth's surface! It is put up in bottles, just as it flows from the well, without admixture of any kind. It gets its ingredients from the beds of substances which it passes over in its secret channel; they are biended together in such a form as to defy all human competition. The Istrodems in this respect is like MINERAL WATERS, whose virtues in most chronic chronic cases are acknowledged not only by physicians but by the community at large. These singular fluids flowing out from the earth, impregnated with medicinal substances of different properties, and holding them in such complete solution as to require the aid of Chemistry to detect them, bear ample proof to the fact that they are compounded by the master hand of Nature force half docs her work. It will continue to be used and applied as a Remedy, as long as man continues to be afflicted with disease. That it will cure every disease, we do not prebend; but that it will cure a great many diseases, hitherto incurable, is a fact which is proven by the evidence in its favor. Its diseavery is a new era in medicine, and will ensure to the health and happiness of man.

SUROFILLS.—The Petroleum is a great medicine in PROCURED FROM A WELL IN ALLEGHENY CO., PA-SCROFULA.-The Petroleum is a great medicine in

SCROFELA.—The Petroleum is a great medicine in Scrottla and King's Evil—in all those discusses originating in a depraced condition of the blood and other fluids of the body. It will cure pains and enlargements of the bones and joints, Blotches, Block, Eryspicias, Finaples on the face, Tetter, Scald-head, Ringworm, and the various Skin discusses. It has cured numerous cases of Rheumation, Neuralgia, Gout, &c. A woman in Franklin county, Ph., was cured of a rheumatic affection of six years' standing: the disease was to aggravated as to confine her to her bed during the greater part of that time; she is now well, and considers herself entirely restored. RHEUMATISM yields to the power of Petroleum!

RHEUMATISM yields to the power of Petroleum!

If el myself under a debt of gratitude to the proprietor of the Petroleum, the use of which great medicine has entirely cursed my wife of a violent attack of Rheumatism. She had labored under an attack of the disease for about two months, suffering the most intense pain; the greater part of the time confined to her bed, and unable to do anything. The pain in the limbs was very great, attended with a great deal of swelling. The Petroleum had a bappy effect, for the first two or three applications the swelling diminished and the pain left her. I continued to apply the medicine daily for about two weeks, which entirely relieved her, and she is now as well as ever she was in her life. I feel confident that the Petroleum is one of the greatest medicines in the world for rheumatic pains and swellings. (Signet)

(Signed)
PETER PUHL, Perry St., Allegheny City. Chronic Cough cured.

Obronic Cough cured.

I take pleasure in certifying to the valuable properties of Mr. Kier's Potroleum, for an affection of the breast and langs, accompanied with severe pain in the chest, and a cough. I took the Petroleum in larger doses than is recommended in the directions, but after taking it a few days I got to like it. I should like to have a barrel of it to use in my family, for I believe it to be a valuable medicine. The Petroleum produced no unpleasant feelings whatever in the use of it.

Pittsburg, March 16, 1850.

"There is nothing like it for Burns."

Billerout, Feb. 21, 1850, and I got three dozen of Mr. Kier's Petroleum of Mr. Howell, and I am disposed to think there is nothing equal to it for Burns: having burnt my handle, and expecting nothing less than a long, tedious sore, but found no soreness at all from its only leaving a red scale, without any soreness shen pressed upon, which quite surprise dime. I therefore have great faith in its efficacy, so far at least, and will introduce it in this section.

Very respectfully, &c. HARVEY MANN. "There is nothing like it for Burns."

Samuel M. Kirs, Esq.-Dear Sir: I have been confined SARIEL M. Kurs, Esq.—Door Sir: I have been confined on we bed ever five months with Typhoid Fever, and still am in bed. During my sickness, my left foot and leg swelled very much, and continued so until lately: I tried several remedies, without any effect. Col. Basic called to see me with Gen. Clover, and he recommended me to try your. Petroleum, as it had worked some wonderful curse to his knowledge. I had been thinking all that day, before he was, here, that I would try it: I immediately sent my nept ew. Br. J. W. Sowents (the beaver of this note) to the drug-store, and get a bottle, and applied some that night to the sores, and the next morning you could see a marked difference in the foot, and has continued so ever sin e. I can assure you if operated almost like a charm—I we see difference in the foot, and has continued so ever sin c. 1 can assure you it operated almost like a charm—I never saw anything heal like it in my life.

I want a small quantity yet to effect a perfect cure; you will please let the bearer have some and he will pay you for the same. Very respectfully your friend.

ALEX. SCOTT.

LIGHTNING RODS.

THE awful calamities that every City, o annually, thro' the gross neglect of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is found in Armitage's Patent Magnetic Lightning Rods,

and in this alone. This rod has been examined by the most scientific gentlemen in the world--Pro fessors M'Murtrie, Johnson, Wallor, and many others that have examined them, recommend and strict attention to business speak of them in the highest terms of approbation a liberal share of patronage nd have pronounced them the only safe in use in this or any other country for the protection of Lives and Property. One advantage is to highest market price will be paid in cash divide and throw back a part of the electric fluid harmless to the clouds, this is in time of a stroke, this enables the rod to conduct that portion of fluid that belongs to the earth without the slight est danger of leaving the conductor. This rod has many other advantages over the old one. The patentee takes pleasure in informing his

ANOTHER SCIENTIFIC WONDER!

The true DIGESTIVE PLUID or GASTRIC JUICE-a great Dyspepsia Curer!

repared from Rennet, or the fourth stomach of repared from Rennet, or the fourth stomach of the Ox, after directions by Baron Lizare, the great physiological chemist, by J. S. Heconros, M.D., No. 11 N. 8th St. Philadelphia, Pa. A TRULY wonderful remedy for ladigeston,
Dyspepria, Jaundice, Liver Complaint,
Constipation and Debility, curing after Nature's own process, by Nature's own agent, the Gastne Juice. (Tital a teaspoonful of this fluid infued in water, can algost or dissolve Five Pounds of

roast beef in about two hours, out of the stomach.

Digestion is chiefly performed in the stomch by the aid of a fluid which freely exudes frog ach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the gastric juice. This fluid is the great solvent of the food—the purifying, preser-ving and stimulating agent of the stomach and intestines. Without it there can be no digestion, no conversion of food into blood, no nutriton—

but rather a foul, torpid, painful and destructive condition of the whole digestive apparatus.

Pepsin is the chief element or great digestpepsits is the dastric juice. It is found in great abundance in the solid parts of the human tomach after death, and sometimes causes the stomach to digest or eat itself up. It is also found stomach to digest or ent itself up. It is also found in the stomach of animals, as the or, calf, &c. It is the material used by farmers in making cheese styled **Rennet**, the effect of which has long been the special wonder of the dairy. Curdling of milk is the first process of digestion. A calt's stomach can curdle nearly one thousand times its own weight of milk. Baron Liebig states, "one part of Pepsin dissolved in sixty thousand para of water, digests meat and other food." Discuss stomachs produce no good Gastric Juice, Rense or Pepsin. To show that this want may be perfectly supplied, we quote the subjoined

SCIENTIFIC EVIDENCE!

SCIENTIFIC EVIDENCE:

Baron LIEBIG, in his celebrated work on Animal Chemistry, says: "An artificial digestive fluid, analogue to the teastra, olitectural be readily prepared from the measurembrane of the stomach of the east, in which various articles of fixed, as meat and eggs, will be softened and irrested in the same manner as in the human stemach. Be. BEREHRA, in his famous treatise on Food and bet, published by Fowlers & Wells, New York, page 35, state the same great fast, and describes the method of preparation. There are few higher authorities than br. Ferra Br. COMBE, in his valuable writings on the Physiology of Dipection, observes that "a diminution of the dequantity of the describes that "a diminution of the dequantity of the describe June is a prominent and alleptication of the describe of Dipection, observes that "a diminution of the distribution of the distribution of the state of Physiology afflicted with this complaint, finding everything distributed with this complaint, finding everything distributed with the complaint, finding everything distributed in the property of dissolving various articles of the stomach of living animals, macerated in water, inpart with a stomach of the find the property of dissolving various articles of the find the property of dissolving various articles of the find the property of dissolving various articles of the patient. From revent experiments, we know that food a flaced ved as rapidly in an artificial disposite, full prepared from Popsin, as it is in the natural Gastrie Juice leff. Prof. DE NGLESON, of the Jofferson College, Philai, in his great work on Human Physiology, devote more the fifth property of on a examination of this endowed.

As a DYSPEPSIA CURER, Dr Houghton's reparation of Pepsin has produced the most marelous effects. It is impossible to give details of rases in the limits of this advertisement-but apthenticated certificates have been given of more than TWO HUNDRED rapid, wonderful, and permanent cures. It is a great NERVOUS ASTIpoorr, and particularly useful for tendency to he evil effects of quinine, mercury, &c., also for
