Petroleum, & ROCK OIL,

A NATURAL REMEDY!

A NATURAL REMEDY!

PROCURED FROM A WELL IN ALLEGHENY CO., PA., Four Hundred feet below the Earth's surface! It is put up in bottles, just as it flows from the well, without admirture of any kind. It gets its ingredients from the beds of substances which it passes over in its secret channel: they are blended together in such a form as to dely all human competition. The Patraleam in this respect is like MINERAL WATERS, whose virtues in most chronic chronic cases are ack nowledged not only by physicians but by the community at large. These singular fluids flowing out from the earth, impregnated with medicinal substances of different properties, and hadding them in such complete solution as to require the aid of Chemistry to detect them, bear ample proof to the fact that they are compounded by the master hand of Nature for the alleviation of human suffering and disease. If Petroleum is a medicine at all, it is a good one, for Nature never half does her work. It will continue to be used and applied as a Remedy, as long as man continues to be affected with disease. That it will cure every disease, we do not pretent! but that it will cure a great many disease, hitherto incurable, is a fact which is proven by the evidence in its favor. Its discovery is a new era in medicine, and will enure to the health and happiness of man.

RHEUMATISM yields to the power of Petroleum. I feel myself under a debt of gratitude to the proprietor of the Petroleum, the use of which great medicine has entirely cured my wife of a violent attack of Rheumatism. She had labored under an attack of the disease for aleust two months, suffering the most intense pain; the greater part of the time confined to her bed, and unable to do anything. The pain in the limbs was very great, attended with a great deal of swediens. The Betroleum had a happy effect, for the first two or three applications the swedien diminished and the pain left her. I continued to apply the medicine daily for about two weeks, which entirely relieved her, and she is now as well as ever she was in her.

The true DIGESTIVE PLUID or GASTRIC JUICE-a great Dyspepsia Curer! Prepared from Rennet, or the fourth stomach of

the Ox, after directions by Baron Lizzais, the

great physiological chemist, by J S. Houseron, M.D., No. 11 N. 8th St. Philadelphia, Pa. A TRULY wonderful remedy for Indigestion,
Dyspepsia, Jaundice, Liver Complaint,
Constipation and Debility, curing after Nature's
own process, by Nature's own agent, the Gastric Juice. Tilali a teaspoonful of this fluid infused in water, can digest or dissolve Five Pounds of roast beef in about two hours, out of the stomach.

Digestion is chiefly performed in the stom-ach by the aid of a fluid which freely exudes from the inner cost of that organ, when in a state of health, called the gastric juice. This fluid is the great solvent of the food—the purifying, preser-ving and stimulating agent of the stomach and intestines. Without it there can be no digestion, no conversion of food into blood, no nurritonbut rather a foul, torpid, painful and destrucive condition of the whole digestive apparatus.

Pepsin is the chief element or great digesting principle of the gastric juice. It is toutd in great abundance in the solid parts of the human tomach after death, and sometimes causes the stomach to digest or cat itself up. It is also found in the stomach of animals, as the ox, call, &c. It is the material used by farmers in making cheese styled Rennet, the effect of which has long been the special wonder of the dairy. Curiling of milk is the first process of digestion. A call's stomach can curdle nearly one thousand times its part of Pepsin dissolved in sixty thousand parts of water, digests meat and other food." Diseased stomache produce no good Gastric Juice, Rennet or Pep-in. To show that this want may be perfeetly supplied, we quote the subjoined
