# Thanksgiving Day.

Pannsylvania, ss .- In the name and by the authority of the Commonwealth of Pennsylvania, by William F. Johnston, Gov-ernor of the said Commonwealth.

A PROCLAMATION. The promise that "the seed time and harvest shall not cease," bas again been fulfilled. A God of infinite goodness has watched over and cared for us, as a people, during another year; plenty has poured her treasures into our garners; peace has presided over our councils, and health and happiness have been universally enjoyed. Civil and religious liberty has been more widely spread, and the foundations of those institutions which our fathers laid, have

providences thus youchsafed to us. To that gracious Giver, to whom longs "the Earth and the fullness thereof," for these manifold evidences of his benfiecence, the citizens of this Commonwealth owe a public demonstration of their humble dependence and adoration, and of their heartfelt gratitude and thanksgiving.

been deepened and strengthened by the

Deeply impressed with the propriety of that duty, and in accordance with venerated custom, I, William F. Johnston, Gov. ernor of the said Commonwealth, do hereby appoint and designate Thursday, the 27th day of November next, as a day of general Thanksgiving throughout the State. And I hereby recommend and earnestly invite all the good people of this Commonwealth to a sincere and prayerful observance of the same.

Given under my hand and the great seal of the State, at Harrisburg this twenty first day of October, in the year of our Lord, one thousand eight hundred and fifty one, and of the Commonwealth the Fy the Governor : A. L. RUSSELL.

See'y of the Commonwealth.

A PROCLAMATION.

Whereas, There is reason to believe that a military expedition is about being fitted out in the United States for the purpose of invading the Mexican Republic, with which this country is at present at peace; and Whereas, There is reason to apprehend that a portion of the people of this country, regardless of their duty as good citizens, are concerned in, or may be seduced to take part in the same; and, Whereas, Such enterprises tend to degrade the character of the United States, in the opinion of the civilized world, and are expressly prohibied by law-

Now, therefore, I have issued this, my proclamation, warning all persons who shall connect themselves with any such enterprise, in violation of the laws and the national obligations of the United States, that they will thereby subject themselves to the heavy penalties denounced against such offenders, that if they should be captured within the jurisdiction of the Mexican authorities, they must expect to be tried and punished according to the laws of Mexico, and will have no right to claim Richard Peal of Sunbury, Mr. Wm. T the interposition of this Government in their behalf.

I therefore expect all well disposed citizens, and all who have at heart the reputation of their country, and are animated with a just regard for its laws, its peace and its welfare, to discountenance and by all lawful means prevent any such enterprise; and I call upon every officer of this government, civil or military, to be vigi- Alex. The live stock was exhibited in a field above Sunbury, where suitable pens and coops were erected the day previous, and the grain, vegetables, domestic manufactures and fancy articles were exposed to the examination of the public in the Court

Some specimens of good cattle were exhibited, among which we observed a Devon bull and calf of excellent appearance, and several Durham heifers, besides specimens of the native breed. There was a fine display of horses, some of the finest mags in the country being present, and their examination was carried on with apparently strict impartiality, although much emulation existed among the owners. The number of hogs exhibited was not large, but those that were produced were excellent specimens of the native breed, and the one that took the premium was a handsome animal, and very creditable to its rearer. A few sheep were brought on the extensively, and although the number exhibited at our fair was this year very limi-Appirtonat Jupges .- The following ted, we think that hereafter they will make

reunions. The display of vegetables was good Good fruit was on hand, among which we saw a jar of beautiful lemons. The grain present was the best of its kind; corn,oats, and wheat. The wheat was pronounced by them who had seen both, to be as good as that which took the first premium at the Rochester fair. The domestic flannel displayed elicited much admiration. Henry Nyer of Northumberland exhibited some beef and pork which for excellent appearance and fatness could not be surpassed by any in the city markets. Among the fancy articles produced at the fair were some beautiful artificial flowers manufactured by young ladies of Sunbury and Northumberland. But the finest thing we saw there was a basket of butter manufactured by a lady of Upper Augusta township, which was extremely fair to look

The Agricultural fair was something that the farmers and citizens in general of Narthumberland county have great reason to be proud of. The attendence was very good, and much roirit was exhibited. Next scale, and we expect to see exhibited every thing that Northumberland county can produce, both in agriculture and domestic nanufactures .- Sunbury Gazette.
