☞A subscriber in Hartley, sends for republication in the *Chronicle*, from an old *Times*, the annexed life-like picture of the Sorrows of a Country Shoemaker, "by one of the Craft."—[Editor Lew. Chron.]

A Shoemakers' Downfall & Lamentation.

My customers, both far and near,
For several miles around,
To get their shoes come flocking here
Some barefoot to the ground—

And no excuses will they take,
No matter what I say;
Their shoes I must agree to make,
Before they'll go away.

And strict attention must be paid
To measures sent and brought;
Their work in quick time must be made,
For they no shoes have got.

Besides, old shoes to me they send,
And of the very worst—
One half of them not fit to mend,
Yet I must mend them, first.

I have a dozen pair or more
Now in my shop to mend,
And every day they send in more—
And who knows when they'll end!

They come with a lamenting tale,
Their warmest shoes they'll show,
And make me promise, without fail,
A pair—and then they go.

Then, all contend their shoes are worst,
And tell how bad they be—
Insist to have their own made first,
And so they jester me.

I very often them deny,
But it is all in vain—
They make *me* promise, fail or lie,
And then they do complain.

My promises I can't fulfil,
I know not what to say,
Yet they are waiting on me still,
Impatient of delay.

I've thirty measures in my shop,
And thirty more might take—
But I am now resolved to stop
Till I that thirty make

If I could please them all each way,
Their shoes but make and mend,
I might begin my work to-day,
But never should I end.

If they were all as good to pay
As tease me for their shoes,
I could provide some other way
And not a man refuse.

There are a few, I don't deny,
The golden rule who keep;
They do as they would be done by—
They neither lie nor cheat.

They deal me trade at market price,
And money sometimes give—
Some few this principle possess,
And by this few I live.

But I must wait a year or more
On some to get my pay,
And when my patience out is wore,
In debt they'll run away.

There's some (who money never paid)
Could buy and sell me twice,
But I must take my pay in trade
Of them at double price.

Some deal in goods at double rate,
Some my account decry,
And thus I'm doomed a wrongful fate
To bear until I die.

To work for ever is my doom,
On poverty to gaze,
And pounds of midnight oil consume
To comfort evil days.

To make the shoes of those around
Who do so constant teaze.
My full supplies are in the ground—
And there must surely freeze.

I've had no time to get me hay,
To make my cow a pen.
And if I wait from now till May,
No more time will I have then.

To get the work for others done
Who pushed and drove me so,
I've let my children barefoot run
Through water, stones, and snow.

My children all I did refuse
That others shod might be—
I now resolve I'll make their shoes,
And see who'll hinder me.

I also will make for my cow
A pen to keep her warm,
A cover from the winter snow
And shelter from the storm.

But my potatoes all—alas!
They can not be redeemed;
Frozen, I have lost the sauce
Which I so much esteemed.

WHAT NEXT? The man who a few years ago carried a sealed note to the telegraph office, with a request that it be transmitted to Washington without opening, seems now to have been only a little ahead of the times. It is stated that a gentleman in Newport Ky., is perfecting an application of electricity for propelling a box containing letters over wires from place to place, on the telegraph principle. The experiment over wires of six hundred yards in length, has it is said worked to a charm.

SUFFICIENT REASON.—At a recent term of the Court in an eastern county, J——s H——n, or "Uncle Jemmy," as he is familiarly called, was a juryman. Several actions of H., a clock-vender, came on for trial. All the cases, good and bad alike, going against the plaintiff, some one asked "Uncle Jemmy" how it happened. "Why," said he, "most all of the Jury had some of them clocks!" There was "retribution" moral and legal!

Our Novel.

Imogen and the Caitiff—Chap. XI.—Leaving England, the Caitiff takes ship for Leghorn. Ten days out, a gale of wind carries away the top gallant bulwarks—shortly after which the keel springs a leak and all hands take to despair and the long boat.—The long boat being overloaded, swamps—leaving the Caitiff to seek land on a crow bar.

UNIVERSITY at Lewisburg.

THE next Session of the University will commence on Thursday, Oct. 16, 1851.

The Board of Trustees have been highly gratified by the large degree of success which has already attended their exertions; and they are resolved to spare no efforts in order to furnish hereafter the highest advantages to Students.

The Rev. HOWARD MALCOM, D. D., has entered upon his duties as President of the University. His well established reputation gives assurance that under his administration a still larger degree of success awaits the University. He will be assisted in the department of instruction by the following able Professors:

REV. GEO. R. BLISS, A.M., Prof. of Greek Lang. & Literat.
GEO. W. ANDERSON, A.M., " Latin "
CHAS. S. JAMES, A.M., Prof. of Math. & Natural Philos.
ALFRED TAYLOR, A.M., Prof. of Belles Lettres.

The usual system of Collegiate education is fully carried out, embracing a course of four years and entitling the successful student to the degree of Bachelor of Arts.

In order, moreover, to adapt the University to the wants of all, a course of study has been established omitting the Ancient Languages and substituting in their place various branches of Mathematics, Philosophy and Natural Science. This course will occupy a period of three years. It is thorough and complete, and will entitle the faithful Student to the degree of Bachelor of Philosophy.

Students who design spending but a year or two at College, will have an opportunity of studying whatever branches they may elect, such as Chemistry, Civil Engineering, &c.

Every Student will be required to give special attention to Composition and Public Speaking.

In connection with the Collegiate Department is an *Academy* in which the ordinary branches of an English and Classical education are pursued. This department is under the charge of ISAAC N. LOOMIS, A.M., Principal, and Assistants. There is also a *Primary Department* under the superintendence of Mr. NORMAN BALL.

Every arrangement has been made to furnish all requisite aid in every part of a thorough Academic and Collegiate education. An excellent Library, a very complete Philosophical Apparatus and a well furnished Chemical Laboratory are provided. The Library is constantly receiving valuable additions.

The University has extensive Buildings standing in an elevated grove on the south side of the town. A more beautiful, pleasant and healthful location could not be found within the State.

PRICE OF TUITION—Collegiate Department, $20 per annum.
Academic " 20 "
Primary " 12 "

Boarding and Washing can be obtained at prices ranging from $1.50 to $2.50 per week.

The year is divided into two Sessions—one of 26 weeks, commencing 16th Oct. and continuing till the 14th April; the second of 14 weeks, from the 13th of May to the 18th Aug. 1852.

Another Rescue
BY
SCHENCK'S PULMONIC SYRUP!

I WAS on the verge of the grave, and so far gone that my family and friends had lost all hopes of my recovery; and when in this situation, having been recued by the use of *SCHENCK'S PULMONIC SYRUP*, I desire to testify, with grateful emotions, to Dr. SCHENCK, the unspeakable benefit I have received from the use of his invaluable medicine.

Early last fall I contracted a violent cold, and in consequence of which I had chills, alternated with fever, pain in my right breast and shoulder-blade, with a bad cough and no expectoration. I kept getting worse until I took my bed, and had the attendance of my family physician. I was under his care about four weeks, and at the expiration of that time was reduced so low that despair took hold of myself and friends, and even my physician al andoned me, and give me up to die with the hasty consumption. My appetite was gone, my bowels very irregular, fever and night sweats, pain in my breast and shoulder, attended with a distressing cough, which was very tight, my flesh had nearly all gone, and I was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick-bed was surrounded by kind and sympathising neighbors, who had come to witness my departure from this world. When all rays of hope had fled of my recovery, a neighbor, Mr. David Conrad, proposed to try SCHENCK'S PULMONIC SYRUP, with a view of loosening my cough, and relieving me of the tough phlegm, and as a means of affording temporary relief, remarking at the time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the *Pulmonic Syrup*. I found it afforded me relief, and continued using it. I could feel its healing influence upon my lungs. I continued to improve under its use, and my friends were again called to witness my unexpected improvement; many of my neighbors came to look at me as one raised from the dead. My cough now became loose, and I felt something break, where I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spit box full of matter every day, with hard lumps, like grapes of something. My bowels now became regular and natural, and my appetite was so far improved that I could scarcely refrain from eating too much. My strength improved, and I regained my flesh. I continued to improve in every respect soon after I commenced using the Syrup, and the improvement continued until I was restored to my wonted health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I felt in my life, and I am this day a living testimonial of the great efficacy of *SCHENCK'S PULMONIC SYRUP* in curing pulmonary diseases.

Lest this statement should be thought too highly colored by some people, I subjoin a certificate of a number of the inhabitants of Tacony, who saw me at different times during my disease, and never expected to see me restored. I also append the certificate of the brothers of Mystic Lodge, No. 270, I. O. of O. F., who kindly watched over me, and fully believed they would consign my remains to the tomb; but thanks to Dr. Schenck, for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the foregoing statement for the benefit of suffering mankind.

I reside at Tacony, and am well known by most of the people there, and will be gratified to have any person call upon me and learn more particulars of the great virtues of this medicine. JOHN C. GREEN.
June 24, 1851.

The subscribers, members of the Mystic Lodge, No. 270, I. O. of O. F., of Holmesburg, Pa., do hereby certify that we know John C. Green, and he was a member in good standing in No. 270, I. O. of O. F., who was dangerously ill with a low Pulmonary Consumption last winter, so that they gave him up to die; that he is now fully restored to perfect health, and they believe his recovery was produced by Schenck's Pulmonic Syrup.

We believe his certificate is correct in every particular.

Holmesburg, Phillad. Co., Pa. June 25, 1851.

The undersigned residents of Tacony, eight miles above Philadelphia, being well acquainted with John C. Green, and the circumstances attending his case, feel impelled by a deep sense of imperative duty, to make unreservedly known to the public his entire recovery from the very last stages of a Pulmonary Consumption. So entirely helpless was his condition, having been but a brief period that people visiting and emaciated skeleton, as to utterly preclude in the opinion of his physician and friends, who watched by his bedside, all hopes of even a temporary recovery and restoration to his present robust health. Thus the careful use of your invaluable specific, the pulmonic syrup, makes it in our belief, under the circumstances of the previous greatness of the disease, and condition one of the most startling results in the annals of medical skill or science can produce. It deserves to be imperishably recorded in your credit, and secures to you, the great discoverer of an insidious cure for this hitherto remediless disease, a lasting memorial and a world wide reputation in the healing art that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continual cough, superadded to the other symptoms consequent upon, or attending the last stages of a pulmonary disease; and moreover as being so generally believed by his numerous friends that no human power could relieve or protract his life, much less restore him back again to his former health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery, by means of the exclusive use of your wonderful Syrup; and we should indeed rejoice if we could be made the humble instruments of relief and cure to others who may be so unfortunate as to be similarly afflicted.

Petroleum, or ROCK OIL,

A NATURAL REMEDY!

PROCURED FROM A WELL IN ALLEGHENY CO., PA.

Four Hundred feet below the Earth's surface! It is put up in bottles, just as it flows from the well, without admixture of any kind. It gets its ingredients from the seeds of substances which it passes over in its secret channels: they are blended together in such a form as to defy all human competition. The *Petroleum* in this respect is like MINERAL WATERS, whose virtues in most chronic chronic cases are acknowledged not only by physicians but by the community at large. These singular fluids flowing out from the earth, impregnated with medicinal substances of different properties, and holding them in such complete solution as to require the aid of the mistry to detect them, bear ample proof to the fact that they are compounded by the master hand of Nature for the alleviation of human suffering and disease. If Petroleum is a medicine at all, it is a good one, for Nature never half does her work. It will continue to be used and applied as a Remedy, so long as man continues to be afflicted with disease. That it will cure every complaint to which mankind are subject, we do not pretend to say; but we do say and pretend to say that it will cure a great many diseases, with its immediate use, is a fact which is proven by the evidence in its favor. Its discovery is a new era in medicine, and will ensure to the health and happiness of man.

SCROFULA—The Petroleum is a great medicine in Scrofula and king's Evil—in all those diseases of the blood, in a depraved condition of the blood and all the fluids of the body. It will cure pain in the shoulders, arms, breast, back and joints, Rheumatism, Erysipelas, Piles in the form of Blind, Bleeding and Itching Piles, Ringworm and the various Skin diseases. It has cured many cases of Rheumatism, Neuralgia, Gout, &c. A woman in Franklin county, Pa., was cured of a rheumatic affection of six years' standing, that the disease was so contracted as to confine her to her bed during the greater part of that time; she is now well, and considers herself entirely restored.

RHEUMATISM yields to the power of Petroleum!

I feel myself under a debt of gratitude to the proprietor of the Petroleum, the use of which has given me health. I was perfectly crippled up with a violent attack of Rheumatism. She had taken it under an attack of the disease for about two months, suffering the most intense pain; the greater part of the time confined to her bed, and unable to do anything. The pain in the knees was very great, attended with a great deal of swelling. The Petroleum had the desired effect, for the second time it was applied to the swelling it subsided and the pain left her. I continued to apply the medicine daily for about two weeks, which entirely relieved her, and she is now as well as ever she was in her life. I feel confident that the Petroleum is one of the great curatives in the world for rheumatic pains and swellings.

PETER PUHL, Penn St., Alleghany City.

Chronic Cough cured.

I take pleasure in certifying to the valuable properties of Mr. Kier's Petroleum, for an affection of the throat and lungs, accompanied with severe pain in the chest, and a cough. I took the Petroleum in larger doses than is recommended in the directions, but after taking it a few days I got to like it. I should like to have a barrel of it to use in my family, for I believe it to be a valuable medicine. The Petroleum produced no unpleasant feelings whatever in the use of it.

"There is nothing like it for Burns."

Rochester, Feb. 21, 1850.

I got three dozen of Mr. Kier's Petroleum of Mr. Hoxsie, and I am disposed to think there is nothing equal to it for burns. I found one bottle sufficient to cure a burn in my family, and I could not see more at a time than could be covered by the bottle. I also found it very beneficial when applied internally in cases of cholera morbus. I feel confident that it is a valuable medicine, and will be introduced in all families where it is known.

Very respectfully &c. HARVEY MANN.

Sandy M. Kier, Esq.—Dear Sir:—I have been confined to my bed nearly two months with Typhoid Fever, and although much better, I am not able to leave my room. Under several recommendations I have used your Petroleum, and believe it has done me more good than any other medicine I have taken. I have been troubled for one year with Dyspepsia, and for two months past with Liver Complaint, and have consulted and used the prescriptions of two of the most eminent physicians in this city, but found no relief from their prescriptions. I have used your Petroleum but a short time, but I am confident it will cure me. I would be willing to send my servant to Bull's Head in Lewisburg, Pa., for a bottle, if I could be sure that it was genuine. I am a stranger to you, but I write this that you may know what I think of your Petroleum. I have a number of friends who are troubled with Liver Complaint, and I will recommend it to them. Very respectfully yours &c.
ALEX. SCOTT.

Price Reduced!

VAUGHN'S
LITHONTRIPTIC MIXTURE!
Large Bottles—Only One Dollar.

The Proprietor of the Great American Remedy "VAUGHN'S VEGETABLE LITHONTRIPTIC MIXTURE," induced by the urgent solicitations of his Agents, throughout the United States and Canada, has now

Reduced the Price

of his popular and well known article; and from this date, henceforth, he will put up but one size only,—his quart bottles:—the retail price will be

ONE DOLLAR

The public may rest assured that the character of the Medicine, its strength, and curative properties WILL REMAIN UNCHANGED, and the same care will be bestowed in preparing it as heretofore.

As this medicine, under its reduced price, will be purchased by those who have not hitherto made themselves acquainted with its virtues, the proprietor would beg to intimate that his medicine is not to be classed with the vast amount of "Remedies of the day;" it claims for itself a *greater healing power, in all diseases, than any other preparation now before the world*; and has continued itself for eight years by its superior medical virtues, and, until the reduction, commanded double the price of any other article in this line.

NOTICE PARTICULARLY, the results acts with great healing power and certainty, upon the

Blood, Liver, Kidneys, Lungs,

and all other organs, upon the proper action of which life and health depend.

This medicine has a justly high repute as a remedy for

Dropsy and Gravel,

and all cases of that nature. It may be relied upon when the intelligent physician has abandoned his patient,—and for these distressing diseases, more especially Dropsy, the proprietor would earnestly and honestly recommend it. At its present price it is easily obtained by all, and the trial will prove the article to be the

Cheapest Medicine in the World!

☞Pamphlets or pamphlets—the agents give them away—they contain over sixteen pages of reading, (in addition to the medical matter) valuable for household purposes, and which will save many dollars per year in essential household expenses.

These pamphlets are introduced to make the book of great value, aside from its character as an advertising medium to the medicine, the testimony in favor of which, in the form of letters from all parts of the country, may be relied upon.

☞"Vaughn's Vegetable Lithontriptic Mixture"—the Great American Remedy, now for sale in many bottles at 6 cents each, small bottles at 12½ cents each. So small that they will be sent after the present stock is disposed of.

GENUINE
TEAS!

THE *Canton Tea Company* of New York—the oldest and largest establishment of the kind in the U. S.—invite universal attention to the fact that, from their superior arrangements, they are prepared to sell Teas purer and more fragrant for the respective prices, than any house on this continent can uniformly do.

These Teas combine every good description and quality; they are done up in packages from a quarter of a pound upwards; the wrapper next the tea is a heavy tin foil, covered with water proof and elegant Chinese paper, and are perfectly secured from light and air, so that the quality is completely preserved in any climate.

The above Teas from 50 cts to $1.25 cts per pound, for sale by J. HAYES & CO.
