The Farmer.

Dickey's Corn Planter" has been introduced here by Mr. Benj'n Leas, of Huntingdon county. The proprietor by planting with this machine-also that dates to the 3d inst., being one week later. planted by this than by the common way. It is certainly worthy the attention of our Farmers, Messrs Christ & Rrick, Lewis-Union and Northumberland counties.

RULES for ascertaining the quantity of Corn or other Grain in a Crib, &c.

Having previously leveled the corn in the crib or storehouse, so that it will be of equal depth thro'out, ascertain the length, breadth and depth of the bulk, multiply duct by 8, and then cut off one figure from the right of the product; this will give you the number of bushels and a decimal of a bushel of cared corn.

Example. In a bulk of corn in the ear, thirty feet long, five feet broad, and six feet deep, there will be seven hundred and twenty bushels of eared corn : as COX 5=150 X 6=900 X 8=720.0; now, as it requires two bushels of car corn to make the above, say 260,0 and you have the the slightest disturbance. amount of shelled corn.

build carners in the barn for Farmers, is replied as follows: the following short process, though not practical purposes. By multiplying the length, breadth, and height, into cubic feet, and deducting one fifth from the result, the capacity of the garner will be sufficiently nearly ascertained. Example. What number of bushels will

a garner or house, 12 feet long, 8 feet 12 X 8=96 X 10=1-5 960, deduct one

answer. 192

- bushels

Now if we make a true calculation we will find, that as 2152.40 cubic inches form a standard bushel, and there are above dimensions, so will it contain 770 beneficial liberty. bushels and a fraction. To save time then, the short cut, being nearly accurate, is the economic one; the first rule is in the law principle and used in the South.

G. B .- Bellefonte Whig. Gregg Tp, Jan. 5, 1852.

Farmers' Clubs.

We are pleased to see that Farmers' Clubs are being organized in various quarters, and if properly conducted they must prove of great advantage to the practical speech. farmer. A monthly assembling together compare notes and mutually communicate votes obtained by the President. their experiences for the benefit of all, The Tuilleries will henceforth be would necessarily be promotive of good; official residence of the President. but in addition to this, it offers an occasion A grand national fete was celebrate to bring residents of the same vicinage.
