

HARRISBURG, FEB. 10, 4, P. M. Mr. O. N. Worden: THE SUPPLEMENT TO THE SUNBURY & ERIE RAILROAD CHARTER, HAS PASSED, WITHOUT PACKER'S AMENDMENT. E. L. SLIFER.

The word "fast" is as great a contradiction as we have in the English language. The Delaware was fast because the ice was immovable, and the ice disappeared fast for the contrary reason, it was loose. A clock is called fast when it goes quicker than time, but a man is told to stand fast when he is desired to remain stationary. People fast when they have nothing to eat; and eat fast, consequently, when opportunity offers to eat.

By an error in footing up the returns in Philadelphia County, Mr. Demers was returned elected to the Legislature, instead of Mr. Painter, who had the most votes. Mr. Demers took his seat and kept it until last week, when an investigation resulted in his yielding his seat to Mr. Painter. Both gentlemen are of the Democratic party. (They certainly have queer election officers in Philadelphia county.)

A Dutchman, in describing a span of horses which he had lost, said, "They wash very much alike, especially de off one; and de one looked so much like de other, dat he could not tell de oder from which; when he went after de one he always caud de oder, and he whipt de one almost to death because de oder kicked at him."

There is a church building near Bengon, which can contain nearly one thousand persons. It is circular within, octagonal without, the roof the ceiling, the Cornelian capitals, are all of paper mache, rendered water-proof by saturation in varnish, lime water whey, and white of eggs.

Mr. Burlington of McKean Co. Pa, says he never so much met in Cincinnati, and conversed with Mr. Geo. W. Babbs, whose mysterious disappearance from Clinton county excited so much apprehension that he had been murdered.

Elizabeth Arnold, a cousin of Benedict the traitor, died on the 15th ult. at the purchase in Norwich, Ct. aged 92—a staunch Tory to the last.

Count Pulzsky, Kossuth's Secretary, in a letter dated at Pittsburg, has fully met and refuted the charges preferred against Kossuth and his administration by Count Casimer Bathanyani.

The number of office-holders in France appointed by the Government is over half a million; this of course, does not include military or naval officers. No wonder that with such a mass of patronage the Government should do as it desires with the people.

Printer's Ink and Ganpowder—With freedom for the one and fair play for the other, the world will become a Republic. (The above toast, by Gen. Packer, is very good—a speck of gold in a pound of soil.)

A bill has been introduced to amend the new postage law—that is, to increase the rates. We do not think it likely, the law will be materially interfered with this session.

To Rise Early.—Place a basin of cold water beside your bed, dip your hands in the basin, and sleep will not again seal you in its treacherous embrace.

The Opinion Republique of Paris lately appeared with one column blank, the censor having struck out so much of an editorial article.

WAYER'S CHERRY PECTORAL. For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION. Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and a popularity far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confers relief on the afflicted, and is remarkably effective in the most difficult cases. It is a safe and reliable remedy, and its use is recommended by the most distinguished physicians. In Great Britain, France, and Germany, where the medical science have reached their highest perfection, the Cherry Pectoral is introduced, and in constant use in the Armies, Hospitals, Ambulances, public Institutions, and in domestic practice, it is the chief remedy for the following affections: Croup, Whooping Cough, Sore Throat, Hoarseness, Bronchitis, Asthma, and Consumption. In all these cases, it is a safe and reliable remedy, and its use is recommended by the most distinguished physicians.
