

Wonderful Cider Press.

Our townsman W. O. HICKOK, has invented a cider press that will entirely supersede all the presses now in use.

This machine consists of two cylinders of about six inches in diameter, and four feet in length, arranged with iron guides and gear wheels.

The advantage of this machine is, that it can be carried about any where, and used in the house, in the cellar, in the wash house, barn, or out of doors.

But in addition to this, by the removal of the spiral cylinder and the substitution of another that is furnished with the machine, it will cut up turnips and all kinds of roots at the rate of fifty bushels per hour.

This is decidedly one of the greatest machines extant, and we trust our friend Hickok may realize a fortune from it.

Farmers and others in this region of country, wishing to procure the above machine, can do so by applying to the Editor of the Chronicle.

Not so Singular after all.

Last week we copied a short article from the "Batavia Times," headed "Singular," relating the fact that a farmer near that place had a heifer which had been giving milk since May last, without ever having a calf.

He also informed us that Mr. C. Dobb had a heifer in his possession that had been giving milk for a still longer period.

Notwithstanding this multiplicity of cases, these facts are unaccountable to us.

Homicide at Columbia—Great Excitement.

COLUMBIA, Pa., April 30.—Considerable excitement was created here, yesterday afternoon, by the appearance in our Bay of Deputy Marshal Snyder, of Harrisburg, accompanied by police officer Redgey, of Baltimore, and Mr. Stansburg, of Baltimore.

There are also gross errors in names, and despoiling of one Teacher and one Officer of their well earned titles, which we hope may be clarified accounted for by the distance between the University and the Printer.

We have been politely furnished with the Second Annual Catalogue of the Officers and Students of the University at Lewisburg, for 1851-2.

That statement, as it stands, and as it is calculated to be understood, is not true. It was not "printed" in "Lewisburg." It is well printed, and whoever executed it is entitled to the credit.
