HUSSEY'S GRAIN REAPER
and Mowing Machine.
Great Improvements for 1852!
THIS Machine obtained the AWARD of the Judges specially appointed by the Cleveland (Ohio,land) Agricultural Society to compare this Reaper with M'Cormick's. They pronounced it superior in every respect—(see Official Report, below.)
This Machine, invented by Mr. HUSSEY, is achieving a series of triumphs in England, which are rapidly obtaining for it that pre-eminent position which its intrinsic merits have already secured for it in the land of its origin.
Award of the Judges.
REPORT of the Jury appointed by the Committee of the Cleveland Agricultural Society, on the comparative merits of the Reaping Machines of Mr. M'CORMICK and Mr. O. HUSSEY, Tried and Tested before the Jury, on Thursday and Saturday, Sept. 25th and 27th, '51.
The Jury regret most exceedingly the unfavorable state of the weather, on the days of trial, (a perfect hurricane during the whole of the first day,) and their consequent inability to make so full and satisfactory trial as they could have wished.
The Machines were tested on a crop of Wheat, computed at 25 bushels per acre, very much laid; and on Barley, at 5 bushels per acre, very short in the straw, and it possible more badly laid than the Wheat.
The Jury, taking the different points submitted to their consideration, in order as they occur, express—
1st. Their unanimous opinion that Mr. Hussey's Machine, as exhibited by Messrs. Wm. Dray & Co., cut the Wheat in the best manner, especially across ridge and furrow, and when the machine was working in the direction of the Wheat laid.
2d. By a majority of eleven to one, that Mr. Hussey's Machine caused the least waste.
3d. Taking the breadth of the two machines into consideration, that Mr. Hussey's did most work.
4th. That Mr. Hussey's Machine leaves the cut Wheat in the best order for gathering and binding. The question was submitted to the laborers employed on the occasion, and decided by them, as above, by a majority of 6 to 4.
5th. Their unanimous opinion that Mr. Hussey's Machine is best adapted for ridge and furrow.
6th. This question was referred by the Jury to Mr. Johnson, foreman to Mr. Bellerby, of York, a practical mechanic of acknowledged ability, whose report is appended below.
7th. That Mr. Hussey's Machine at first cost is less price.
8th. 9th. The Jury decline to express a decided opinion on these points, in consequence of the state of the weather.
The trials took place on the Farms of Robert Fawcett, of Ormesby, near Middlesbro' on Trees, who in the most liberal and disinterested spirit allowed his crops to be trodden down and damaged to a very great extent, especially on the 25th, when in spite of the storm an immense crowd assembled to witness the trials.
The Jury can not conclude their Report without expressing the great pleasure they have derived from seeing two machines brought into competition that were able to do such very good work, and also at witnessing the friendly, straightforward, and honorable way in which the Exhibitors of the respective machines met on that occasion.
Signed on behalf of the Jury,
W. F. WHARTON, Foreman.
MR. ROBINSON'S REPORT ON QUESTION 6.
Having carefully examined both machines, and given the subject due consideration, I am of the opinion that M'Cormick's Reaping Machine, as at present made, is most liable to get out of order. (Signed)
THOMAS ROBINSON.
Read the following Testimonials.
MESSRS. GEDDES & MARSH—GENTLEMEN: We used a Reaper manufactured by Mr. Hussey, of Baltimore, for cutting our harvest in 1851. It consisted of between 50 and 60 acres of Wheat. A part of it stood well, but a considerable portion was much tangled and laid. The Reaper operated equally as well in both cases, cutting the standing Wheat clean, and depositing it in sheaves of suitable size, straight, and in good order for binding, and saving off the grain heavy, and leaving it much better order for binding, than is generally done by the cradle. When the grain is much lodged, or lies very low, in order to make good work it is necessary to run the machine against the slope of the grain. We are well pleased with the operation of the machine, and a large number of intelligent farmers who witnessed its performance during the harvest, expressed the same opinion in relation to it.
Respectfully yours,
WM. NESBIT,
JOS. M. NESBIT.

DRY VALLEY, March 23, 1852.
TO THE PUBLIC—I do hereby certify that I used Hussey's Grain Reaper in taking off my crop last harvest, and the good order it cut my crop more than met my most sanguine expectations. It cut about 14 acres per day of very heavy Wheat, and even then we stopped to shock the grain out before evening. It takes the grain very clean from the ground. It cut lodged grain remarkably well, and, in fact, a farmer having a well cleared off farm, and not too mountainous, can not add a more useful or labor-saving machine to his stock of utensils. Yours, BENJ. CAWLEY.
DAVID BETTILYOUN.
THIS IS TO CERTIFY, that we have used Hussey's Reaping Machine, and have found it in every respect to answer the purpose designed, and consider it an article that will pay a farmer as well as any other farming implement that he can add to his stock of farming utensils, and take pleasure in recommending it to the farming community. We, the undersigned, having seen Mr. Hussey's Reaper work at cutting grass and grain, think it preferable to M'Cormick's or any other machine that we have seen. It cut Wheat that could not be cut with M'Cormick's Reaper, or Cradle. We are well acquainted with M'Cormick's machine.

I procured one of Mr. Hussey's Reaping and Mowing Machines, from Baltimore, last Spring; I cut eighty acres of Oats and fifty acres of Timothy with it, to my entire satisfaction; after which I cut sixty acres of Clover seed with it in less than five days. I could not have saved the Clover seed without the machine, so I consider I have saved the whole cost of the machine, in the saving of my Clover seed alone. SAMUEL THOMAS.
A number of certificates from others could be given, but we deem it unnecessary, as the Reaper on a fair trial will recommend itself. Farmers and others are cautioned against purchasing of any persons except ourselves or our authorized Agents.

Lightning Rods.
AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in
ARMITAGE'S
Patent Magnetic Lightning Rods,
and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in
Fine St. 3 doors above 12th. Philadelphia,
where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.
These rods have been purchased and successfully used by the following individuals, companies and corporations, whose names are cheerfully submitted:
In and near Philadelphia—A. & S. Roberts, George Santtinger, Judge Bouvier, Judge Conrad, J. Mutford, John Homes, C. C. Cleaby, J. Bonnier, H. RECOMMENDATIONS.
PHILADA., Aug. 13, 1847.
I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Belleyne House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.
H. M'MURTRIE.
I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principles on which they are constructed, and I'll convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority.

For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.
Of all the [illegible] (and some of them valuable) for the cure of [illegible] compounds, nothing has been found which could compare in its effects with this Preparation. Once or even three times, but at all times and in all climates of the known world, wherever this medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those who have tried it but to enable those who have not. Families that have known its value will not be without it, and by its timely use, they are secure from the dangerous consequences of Coughs and Colds which neglected, ripen into fatal consumption.
The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September, 1847; also, the Medal of the three great Institutes of Art, in this country; also the Diploma of the Ohio Institute at Cincinnati, has been given to the Cherry Pectoral, by their Government in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Trust.
Read the following opinion founded on the long experience of the eminent Physician of the Port and City of
Dr. J. C. Ayer:— St. Johns, May 8, 1851.
Five years trial of your CHERRY PECTORAL in my practice, has proven what I foresaw from its composition, must be true, that it eradicates and cures the colds and coughs to which we, in this section, are peculiarly liable. What is equally as good has not been discovered, nor do I know how a better remedy can be made for the diseases of the Throat and Lungs.

S— what it has done on a wide constitution, not only in the following cases, but a thousand more!
SCHENECTADY, Jan. 26th, 1851.
DR. AYER: In the month of July last I was attacked by a violent diarrhœa in the midst of Chillicothe. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My diarrhœa ceased, but was followed by a severe cough—and much soreness of throat which started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once confined to bed, in the performance of a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced the use of your invaluable medicine with little expectation of deriving any benefit from its use. You would not receive these lines did I not regard it my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your CHERRY PECTORAL.
Yours truly, WM. W. SMITH.
WASHINGTON, Pa., April 12, 1848.
Dear Sir: Finding that I have been spared from a premature grave, through your instrumentality by the Providence of God, I will take the liberty to express to you my gratitude.
A Cough and the alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Pectoral." It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health.
If it will do for others what it has for me, you are certainly one of the benefactors of mankind.
Sincerely wishing you every blessing, I am
Very respectfully yours,
JOHN J. CLARK, Rector of St. Peter's Church.
With such assurances and from such men, no stronger proof can be adduced unless it be from its effects upon trial.
