Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world— Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throwback a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of

manufacturing is in Vine St. 3 doors above 12th, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE. These rods have been purchased and success-
