The acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation throughout the whole country so extensive, that it would seem unnecessary to urge their merits further. But some late circumstances have occurred which render it a matter of duty to the public not to be altogether silent, for while the ephemeral nostrums of the day are trumpeted by columns through the Press and swallowed by quarts and gallons by the afflicted, and are found just *good for nothing*,

Christie's Galvanic and Magnetic Curatives,

have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of diseases, which have for ages battled all the aid of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS,

and in these diseases medicine is of no avail whatever. It never does good and it often does harm. Syrups, Extracts, Balms, Balsams, Elixirs, Bitters, Pills, Powders and Potions of every kind are alike worthless, for they weaken the vital energies of the already prostrated system, while under this strengthening, life-giving vitalizing influence of Galvanism, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, RHEUMATISM, DYSPEPSIA, DEBILITATION of the HEART, WEAKNESS, and all FEMALE DISORDERS, such as NERVOUS HEADACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Derangement; EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence; NERVOUS TREMORS, or WEAKNESS, which is nearly always caused by torpidity of the Auditory Nerves, and can always be *perfectly cured* by Galvanism, when the organ is not destroyed; DYSPEPSIA, in its worst forms; FALS', and PARALYSIS, uniformly caused by a deficiency of Nervous influence; CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULATION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of diseases—Nervous Complaints are much more numerous than is generally imagined—

CHRISTIE'S GALVANIC CURATIVES,

Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Throat, as Asthma and Bronchitis, and of the Head; and the BRACELETS for all disorders of the arms or limbs, as Rheumatism, Palsy, Tremors and Spasmodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL!

☞ The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by *outward application*, in place of the usual method of Drugging and Physicking the patient till exhausted nature sinks hopelessly under the infliction. *They strengthen the whole system, equalize the circulation of the blood, promote the secretions, invigorate the entire energies, and can never do the slightest harm under any circumstances.*

Since their introduction in the United States, only three years since, more than

75,000 PERSONS

including all ages, classes and conditions, among whom were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

Entirely and Permanently Cured,

when all hope of relief had been given up, and everything else been tried in vain! The beneficial results which have uniformly attended their use is confidently stated to be without a parallel in the annals of Medical Science. Clergymen, lawyers, and even physicians; ladies of the highest standing; distinguished persons holding elevated official stations; merchants, manufacturers, and mechanics; the poor and the rich alike; often whole families, among all classes, ranks and conditions, have equally been recipients, and have equally acknowledged in wondrous and often unexpected benefits which they have thus received.

☞ Let it be known and remembered that the only Natural Restorative for the Nerves is Galvanism, and that in all Nervous Diseases we should

"Throw Physic to the Dogs."

To illustrate the use of the **GALVANIC BELT,** suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. *Take a Dyspeptic sufferer, even in the worst symptoms of an attack*, and apply to the pit of the stomach the Body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

MANY THOUSAND

CERTIFICATES AND TESTIMONIALS

from the most intelligent and respectable persons residing in every portion of the United States, could be presented. These are now unnecessary, but a numerous selection embracing many statements of the most extraordinary character, sufficient to CONVINCE THE MOST SCEPTICAL may be had of the authorised Agent. The interested are particularly invited to call.

WHAT THINK YOU OF THIS?

From one of the most distinguished Physicians in the City of New York.

"I have been using Christie's Galvanic articles in a quiet way among my patients for about two years past, and I confess I am astonished at their success. If I am sure a disease is *Nervous*, I know just what they will do. In Epileptic Fits, particularly in children; Deafness and Affections of the Head, in adults; Paralysis and Palsy, in all ages, and indeed several other diseases of like nature which have long puzzled the profession, I have found the Galvanic articles of surprising benefit. Although I detest the shameless quackery of advertisements and newspapers, I must express my confidence and belief in the wonderful virtues of CHRISTIE'S CURATIVES. My name is, of course, confidential, but I shall never hesitate to recommend your articles on all proper occasions."

ANOTHER INSTANCE OF CANDOR.

To D. C. Morehead, M. D., Gen. Agt. for Dr. Christie, New York.

Dear Sir,—Being a physician in the vicinity of one of your Agents, I have been much gratified in the examination of your Galvanic Curatives, and highly pleased with their practical results. I have observed that they are constructed on the true scientific principle for the *gentle, safe, pleasant* and *continued* development of the Galvanic Current, thereby filling a desideratum, long sought for, but heretofore unknown. I cheerfully recommend them for the alleviation and cure of those distressing ailments called Nervous Complaints, for which they are so happily and ingeniously designed.

Very truly yours, DAVID RICE, M. D.

Leverett, Mass., February 13, 1850.

☞ No trouble or inconvenience attends the use of *DR. CHRISTIE'S GALVANIC CURATIVES*, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use *is highly pleasant and agreeable*. They are accompanied by full and plain directions for use. Pamphlets with full particulars may be obtained gratis, of the authorised Agent.

HUSSEY'S GRAIN REAPER and Mowing Machine.

Great Improvements for 1852!

THIS Machine obtained the AWARD of the Judges specially appointed by the Cleveland (England) Agricultural Society to compare this Reaper with M'Cormick's. They pronounced it superior in every respect—(see Official Report, below.)

This Machine, invented by Mr. Hussey, is achieving a series of triumphs in England, which are rapidly obtaining for it that pre-eminent position which its intrinsic merits have already secured for it in the land of its origin.

Award of the Judges.

REPORT of the Jury appointed by the Committee of the Cleveland Agricultural Society, on the comparative merits of the Reaping Machines of Mr. M'CORMICK and Mr. O. HUSSEY, Tried and Tested before the Jury, on Thursday and Saturday, Sept. 25th and 27th, '51.

The Jury regret most exceedingly the unfavorable state of the weather, on the days of trial, (a perfect hurricane raging the whole of the first day,) and their consequent inability to make so full and satisfactory trial as they could have wished.

The Machines were tested on a crop of Wheat, computed at 25 bushels per acre, very much laid; and on Barley, at 25 bushels per acre, very short in the straw, and if possible more laid than the Wheat.

The Jury, taking the different points submitted to their consideration, in order as they occur, express—

1st. Their unanimous opinion that Mr. Hussey's Machine, as exhibited by Messrs. Wm. Dray & Co., cut the Wheat in the best manner, especially across ridge and furrow, and when the machine was working in the direction the Wheat laid.

2d. By a majority of eleven to one, that Mr. Hussey's Machine caused the least waste.

3d. Taking the breadth of the two machines into consideration, that Mr. Hussey's did most work.

4th. That Mr. Hussey's Machine leaves the cut Wheat in the best order for gathering and binding. The question was submitted to the laborers employed on the occasion, and decided by them, as above, by a majority of 6 to 4.

5th. That Mr. Hussey's Machine is by far the most simple and the least liable to get out of order.

6th. The Jury decline to express a decided opinion on these points, in consequence of the state of the weather.

The trials took place on the Farms of Robert Fawcett, of Ormesby, near Middlesboro' on Tees, who in the most liberal and disinterested spirit allowed his crops to be trodden down and damaged to a very great extent, especially on the Barley, in spite of the alarm an immense crowd assembled to witness the trials.

The Jury can not conclude their Report without expressing the great pleasure they have derived from seeing two machines brought into competition that were able to do such very good work, and also at witnessing the friendly, straight forward, and honorable way in which the Exhibitors of the respective machines met on that occasion.

Signed on behalf of the Jury,
W. F. WHARTON, Foreman.

MR. ROBINSON'S REPORT ON QUESTION 6.

Having carefully examined both machines, and given the subject due consideration, I am of the opinion that M'Cormick's Reaping Machine, as at present made, is most liable to get out of order.

Respectfully, THOMAS ROBINSON.

Read the following Testimonials.

Messrs. Gibson & Mason—Gentlemen: We used a Reaper manufactured by Mr. Hussey, of Baltimore, for cutting our harvest, in 1851. It consisted of between 50 and 60 acres of Wheat. A part of it stood well, but a considerable portion was much tangled and laid. The Reaper operated equally as well in both cases, cutting the straw and Wheat altogether, and depositing the sheaves of suitable size, straight, and in good order for binding, and taking off the grain cleaner, and leaving it in much better order for binding, than it gets rally done by the cradle. When the grain is much lodged, or lies very low, in order to make good work it is necessary to run the machine against the lay of the grain. We are well pleased with the operation of the machine, and a large number of intelligent farmers who witnessed its performance during the harvest, expressed the same opinion in relation to it.

Respectfully yours, WM. NESBIT,
JOS. M. NESBIT.

DRY VALLEY, March 22, 1852.

TO THE PUBLIC—I do hereby certify that I used Hussey's Grain Reaper in taking off my crop last harvest, and the good order it cut my crop more than met my most sanguine expectations. It cut about 14 acres per day of very heavy Wheat, and even then we stopped to shock the grain out before evening. It takes the grain very clean from the ground. It cut lodged grain remarkably well, and in fact, to farmer has risen, is cleared off farm, and not too mountainous, can not add a more useful or labor-saving machine to his stock of utensils. Yours, BENJ. CAWLEY.
DAVID BETTINGER.

THIS IS TO CERTIFY, that we have used Hussey's Reaping Machine, and have found it in every respect to answer the purpose designed, and consider it an article that will pay a farmer as well as any other farming implement that he can add to his stock of farming utensils, and take pleasure in recommending it to the farming community.

We, the undersigned, having seen Mr. Hussey's Reaper at work at cutting grass and grain, think it preferable to M'Cormick's machine or any other machine that we have seen. It cut Wheat that could not be cut with M'Cormick's Reaper, or Cradle. We are well acquainted with M'Cormick's machine.

I procured one of Mr. Hussey's Reaping and Mowing Machines, from Baltimore, last spring; I cut eighty acres of Oats and fifty acres of Timothy with it, to my entire satisfaction; after which I cut sixty acres of Clover seed with it in less than five days. I could not have saved the Clover seed without the machine, so I consider I have saved the whole cost of the machine, in the saving of my Clover seed alone. SAMUEL THOMAS.

A number of certificates from others could be given, but we deem it unnecessary, as the Reaper on a fair trial will recommend itself. Farmers, Attention!

M'CORMICK'S

Reaping and Mowing Machine.

A REAPING MACHINE being now a most universally regarded as a necessary implement to the Farmer (and not much less so than the *Plough* because of the high price of labor at the season of harvest and the great importance of the work to be done in a short time) he should investigate carefully the principles of different machines and *points of difference* as well as the right of the Manufacturer to sell the same.

My machine operates with a *Sickle Edge* and *Reel* combined with a seat or stand for the raker, so that the grain is delivered at the *side of the machine*, and the binding made entirely independent of the cutting.

It is simple, of light draught, and will cut one hundred to three hundred acres of grain without a second grinding and is warranted superior to every other Reaper in all kinds of grain, and grass, whether tangled and lodged or otherwise.

That the Sickle is the "true cutter," and that the Reel is indispensible to the successful operation of the machine *through the harvest* no longer admits of a doubt. These facts being attested by the *thousands* of my machines now in use, and by myself and others soliciting my patents, while a comparatively small number of machines known as "Hussey's Reaper," *with a smooth and very abrupt edge and without a reel* are in use.

An additional evidence of the *great* superiority of this machine, I may say that in the great West and North, where Reapers have been and are still in demand by farmers, and where I have sold more than 5000 Reapers, I have been subjected to the necessity of bringing suit against a number of manufacturers for the protection of my patents, and that against Seymour & Morgan, of Brockport, New York. I have recently obtained a verdict of $17,500 damages, and will here advise the Farmers against purchasing my machines in an old tired out (so far rejected) form from others under a different name, as pure hosers are equally as liable as manufacturers, and suits are now pending against several concerns in Illinois, and others will be sued unless they make fair reparation for the past, and desist for the future.

The first premiums of the States of Pennsylvania, New York, Michigan and Wisconsin, have been awarded to my machine, and also the first premiums of "the American Institute, and Franklin Institute, Philadelphia.

Also THE GREAT MEDAL OF THE WORLD'S FAIR was awarded to me after *two trials* with Hussey's.

After a series of careful and thorough experiments, not only have I *now for the harvest of* 1852 the most perfect Reaping machine ever offered to the public—*but have more than fully* realized my most sanguine expectations in now having a Mowing machine that *will cut all kinds of grass to perfection at a small additional cost*, and for mowing Wheat and Barley, and depositing the sheaves in suitable size, straight, and in good order for binding, and taking off the grain cleaner, and leaving it in much better order for binding, than it gets rally done by the cradle. When the grain is much lodged, or lies very low, in order to make good work it is necessary to run the machine against the lay of the grain. We are well pleased with the operation of the machine, and a large number of intelligent farmers who witnessed its performance during the harvest, expressed the same opinion in relation to it.

Brown's Essence of Jamaica Ginger.

IS a remedy suited to the extremes of heat and cold, and is very beneficial whenever gentle tonic and stimulating influences are required. Its stimulant property being independent of alcoholic power, its effect as a frequent remedy need never be dreaded. While it strengthens and refreshes the debilitated in summer season, it is not less potent during the inclemency of the winter; by warming with its healthy tonic principle enabling the system to resist the influence of incipient diseases which lurk in a changing climate. No family should be without it, and to travelers by land or sea it will be found invaluable to use a few drops in water as a uniformly healthy and agreeable drink, without intoxication.

Caution. Persons desiring an article that can be relied upon as pure JAMAICA GINGER, should be particular to ask for "Brown's Essence of Jamaica Ginger," which is warranted to be what it is represented to be, and is

SCHENCK'S PULMONIC SYRUP!

I WAS on the verge of the grave, and so far gone that my family and friends had lost all hopes of my recovery; and when in this situation, having been recomed by the use of *SCHENCK'S PULMONIC SYRUP*, I desire to testify, with grateful emotions, to Dr. SCHENCK, the unspeakable benefit I have received from the use of his invaluable medicine.

Early last fall I contracted a violent cold, and in consequence of which I had chills, alternated with fever, pain in my right breast and shoulder-blade, with a bad cough and no expectoration. I kept getting worse until I took my bed, and had the attendance of my family physician. I was under his care about four weeks, and at last expectation of that time was reduced so low that despair took hold of myself and friends, and even my physician abandoned me, and gave me up to die with the hasty consumption. My appetite was gone, my bowels very irregular, fever and night sweats, pain in my breast and shoulder, attended with a distressing cough, which was very tight, my flesh and head nearly all gone, and I was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been send for to see me die, and my sick bed was surrounded by kind and sympathising neighbors, who had come to witness my departure from this world. When all rays of hope had fled of my recovery, a neighbor, Mr. David Conrad, proposed SCHENCK'S PULMONIC SYRUP, with a view of loosening my cough, and relieving me of the tough phlegm, and as a means of affording temporary relief, remarking at the time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the *Pulmonic Syrup*. I poured it all out of one bottle, and continued using it. I could feel its healing influence upon my lungs. I continued to improve after its use, and my friends were much gratified to witness my unexpected improvement; many of my neighbors came to look at me as one raised from the dead. My cough now became loose, and I felt something break, where I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged half a pint box full of matter, every day, with hard lumps, like grains of something. My bowels now became regular and natural, and my appetite was so far improved that I could scarcely refrain from eating too much. My strength improved, and I regained my flesh. I continued to improve in every respect soon after commenced using the *Pulmonic Syrup*, and that improvement continued until I was restored to my wanted health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I felt in my life, and I am this day a living testimonial of the great efficacy of *SCHENCK'S PULMONIC SYRUP* in curing pulmonary diseases.

Lest this statement should be thought too highly colored by some people, I subjoin a certificate of a number of the inhabitants of Tacony, who saw me at different times during my disease, and never expected to see me restored. I also append the certificates of the brothers of Mystic Lodge, No. 276, I. O. of O. F., who kindly watched over me, and fully believed they would consign my remains to the tomb; but thanks to Dr. Schenck, for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the foregoing statement for the benefit of suffering mankind.

I reside at Tacony, and am well known by most of the people there, and will be gratified to have any person call upon me and learn more particulars of the great virtues of this medicine. JOHN C. GREEN.

June 24, 1851.

The subscribers, members of the Mystic Lodge, No. 276, I. O. of O. F., of Holmesburg, Pa., do hereby certify that we know John C. Green, and he is a member in good standing in No. 276, I. O. of O. F., who was dangerously ill with a low, ulcerative Consumption last winter, so that they gave him up to die; that he is now fully restored to perfect health, and they believe his recovery was produced by Schenck's Pulmonic Syrup.

We believe his certificate is correct in every particular

The undersigned residents of Tacony, eight miles above Philadelphia, being well acquainted with John C. Green and the circumstances attending his case, feel impelled by a deep sense of imperative duty, to make universally known to the public his entire recovery from the very last stages of a ulmonary Consumption. So entirely helpless was his condition, having been but a brief period in that rapidly sinking and emaciated state, as to utterly preclude in the opinion of his physician and friends, who watched by his bedside, all hopes of even a temporary recovery and his present robust health. Thus the careful use of your invaluable Specific, the Pulmonic Syrup, makes it in our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medical skill or science can produce. It deserves to be imperishably recorded to your credit, and secure for you, the great discovery of an infallible cure for this hitherto remediless disease, a lasting monument, and a world wide reputation in the healing art that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continual cough, superadded to the other symptoms consequent upon, or attending the last stages of a pulmonary disease; and never at liberty so generally believed by his numerous friends that no human power could relieve, or protract his life, much less restore him back again to his former health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery, by means of the exclusive use of your wonderful Syrups, and we should indeed rejoice if we could be made the humble instruments of relief and cure to others who may be so unfortunate as to be similarly afflicted.
