But some laise circumstances have occurred which render it a matter of dury to the public not to be altagether silent, for while the ephemeral nestrums of the day size trumpeted by columns through the trees and awallowed by quarts and gallous by the afficied, and are found just good for nothing.

Christie's Calvanie and Magnetic Curatives. have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cores in an aluming train of diseases, which have for ages builted all the aid of medicine and all the resources of Science. These diseases are called.

It never does good and it often does have Serups, Extracts, Lains, Balsams, Flixirs, Batter Fills, Fowders and Potions of every kind are all worthless, for they weaken the vitil energies of the already prestrated system, while under the strength uning, life-giving, smallering influence of Garanness as applied by this beautiful liscovery, the communication of the communic patient and weakened wiferer is restored to former health, strength, electricity and vigor.

These remarks relate to such discusses as NEU-RALGIA, THE HOLOREUX, BROWN HITES, FAL-FITATION of the HEART, WEARNESS and all FEMALE DISCROSSES, such as NERVOUS HEAD ACHE LASSITIONS and DESIGNDENCY, which are only other names for Nervous Decangement, EPILLEPILE FITS and CONVELSIONS which are now known to result from a non-equilibrium of Electric influence, NERVOUS TREADORS DELIE NESS, which is nearly always coursed by building of the Additiony Nervous, and can always be possibly query by Galvanism, when the organ is not destroyed, DISTISTAL is its worst forms; PALSC and PARALYSIS, aminorally caused by a deficiency of Nervous influence; CHRONE BELL MATISM, TORPHOTY OF the LIVER, PAIN in the SIDE, SILAGGISH CIR CULATION, SPINAL and BIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL ENERGY, and all these districting compounts reculting from a DEFRANGEMENT of the NERVOUS SISTERS. the above prevident and terrible class of dis-

"CHRISTIE'S GALVANIC CURATIVES, Are an Absolute and Positive Specific. The BELT is used when the body or system generally is affected; the NEKKLACE for complaints of the Threat, as Asthma and Bronchitis, and of the Head; and the BILAUFLETS for all disorders of the arms or limbs, as Rheumatista, Paisy, Tremors and Spasmodic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL:

NEVER FAIL:

27 The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by entured application, in place of the usual method of Drugging and Physicking the patient till exhausted nature sinks hopelessly under the infliction. They arrengthen the whole suiton, evaluate the creations. They arrengthen the whole suiton, evaluate the creation of the Blood, premate the secretions in agent the entire energies, and can arese do the alightest harm under any creamstances. Since their introduction in the United States, only three years since, more than

75,000 PERSONS including all ages, classes and conditions, among whom were a large number of Ladles, who are pecu-liarly subject to Nervous Complaints, have been

Entirely and Permanently Cured. when all hope of relief had been given up, and ever-thing else been tried in vain. The beautic all result which have uniformly attended their use is could dently street to be without a parallel in the annul of Medical Science. Clergymon, lawyers and ever physicians; Indies of the highest standing, distin-guished persons holding elevated official stations merchants, manufacturers, and mechanics; the pos-and the rich alike; often whole families among all cluses, ranks and conditions, have equally been re-cipients and have equally arknowledged the mon-drousned often unexpected females which they have has received.

Let it be known and remembered that the only

Natural Restorative for the Norves is Galvanian, and that in all Nervous Discases we should "Throw Physic to the Dogs."

"Throw Physic to the Dogs."

To illustrate the use of the GALVANIC BELT, suppose the case of a person sifficted with that bane of civilization, by SPLPSIA or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford isosparny sellef, but which leave the patient in a lower state, and with injured faculines, after the action thus excited has cased. Now compare this with the effect resulting from the application of the GALYANIC BELT?

The second control of the GALYANIC BELT?

The second control of the Belt round the Bedy, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive has keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are FERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

MANNY THOUSAND

MANY THOUSAND CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persons residing in every portion of the United States, could be presented. WHAT THINK YOU OF THIS? From one of the most distinguised Physi-cians in the City of New York.

"I have been using Christie's Galvanic articles in a quiet way among my patients for about two years past, and I confess I am astonished at their success. If I am sure a disease is Normas, I know just what they will do. in Epileptic Fits, particularly in children; Deafness and Affections of the Head, in adults; Paralysis and Palsy, in all ages, and indeed several other diseases of like nature which have long purriled the profession. I have found the Galvanic articles of surprising benefit. Although I detest the shameless quackery of advertisements and newspapers, I must express my confidence and belief in the wonderful virtues of CHRISTIES CURATIVES. My name is, of course, confidencial, but I shall never hesitate to recommend your articles on all proper occasions."
