The Railroad.
We have the pleasure of announcing that on Tuesday evening last, the Borough authorities of Lewisburg, by a unanimous vote—attested by the signatures of the Burgesses and each member of the Town Council—made a formal and official subscription of Seventy Five Thousand Dollars to the Capital Stock of the Susquehanna Railroad; being an increase of \$25,000, over the amount they had originally agreed to subscribe. This subscription evinces a sagacious foresight and enlightened public spirit, that reflect the highest credit upon the Burgesses and Council; and will not only facilitate the operations of the Company, but tend greatly to advance the local interests and general prosperity of our growing town, and the adjacent country—we shall take occasion in a few weeks to more particularly demonstrate.

THE STATE ELECTIONS.—The Presidential election is to occur on the second day of November next, and elections in advance of the Presidential will occur in the following States at the time mentioned below, at most of which members of Congress are to be elected:—Alabama, Kentucky, Indiana, Illinois, Missouri, and Iowa, August 2d; North Carolina, and Tennessee, August 5th; Vermont, September 7th; Maine, September 13th; Georgia, Arkansas, and Florida, October 4th; South Carolina, October 11th; Pennsylvania, and Ohio, October 12th.

MR. CLAY'S BIRTHDAY.—The birth of the illustrious Henry Clay is commemorated in this country with much interest. The day is observed in every part of the Union with appropriate solemnity. In this town, a public dinner was given in honor of his memory on the 12th inst. The occasion was happily and profitably employed in the dissemination of the principles of Liberty and Union. The following resolutions were adopted:—That the memory of Henry Clay be ever held in veneration by this people; that his example be to us a constant and salutary lesson; and that we strive to emulate his virtues and his patriotism. The day was also spent in the reading of his life and a discourse on his merits.

THE CHOLERA.—The Cholera has broken out on a New Orleans ship, off Havana. The vessel arrived at New Orleans on the 6th inst. and on the following day several cases were reported. The disease is now spreading rapidly, and is believed to be of the Asiatic type. The health authorities are on the alert, and have taken measures to isolate the ship and to prevent the disease from spreading to the city.

The day was also spent in the reading of his life and a discourse on his merits.

Eulogy on Mr. Clay in Congress.
[Senator Underwood, in the course of his interesting remarks, thus refers to some of the incidents of Mr. Clay's illness:]
Mr. Clay, from the nature of his disease, declined very gradually. He bore his protracted sufferings with great equanimity and patience. On one occasion he said to me that when death was inevitable, and must soon come, and when the sufferer was ready to die, he did not perceive the wisdom of praying to be "delivered from sudden death." He thought, under such circumstances, the sooner suffering was relieved by death, the better. He desired the termination of his own sufferings, while he acknowledged the duty of patiently waiting and abiding the pleasure of God. Mr. Clay frequently spoke to me of his hope of eternal life, founded on the merits of Jesus Christ as a Saviour; who, as he remarked, came into the world to bring "life and immortality to light." He was a member of the Episcopal Church. In one of our conversations, he told me that as his hour of dissolution approached, he found that his affections were concentrating more and more upon his domestic circle—his wife and children. In my daily visits he was in the habit of asking me to detail to him the transactions of the Senate. This I did, and he manifested much interest in passing occurrences. His inquiries were less frequent as his end approached.

For the week preceding his death he seemed to be altogether abstracted from the concerns of the world. When he became so low that he could not converse without being fatigued, he frequently requested those around him to converse. He would then quietly listen. He retained his faculties in great perfection. His memory remained perfect. He frequently mentioned events and conversations of recent occurrence, showing that he had a perfect recollection of what was said and done. He said to me that he was grateful to God for continuing to him the blessings of reason, which enabled him to contemplate and reflect on his situation. He manifested during his confinement the same characteristics which marked his conduct through the vigor of his life. He was exceedingly averse to giving his friends "trouble," as he called it. Some time before he knew it, we commenced waiting through the night in an adjoining room. He said to me, after passing a painful day, "perhaps some one had better remain all night in the parlor." From this time he knew some friend was constantly at hand ready to attend him.
