

Tux acknowledged and extraordinary curative

Christie's Galvanic and Magnetic Curatives, have been quietly working their way among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of diseaser, which have for ages baffled all the aid of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS,

NERVOUS COMPLAINTS, and in these diseases medicine is of no avail what ever. It never does good and it often does burning the property of the LYSIS, in its worst forms: FALS? and FARA-LYSIS, uniformly caused by a deficiency of Nervous indusace, CHROME RHEUMATISM, TORPIDITY of the LIVER, PAIN in the SIDE. SLUGGISH CHR-CULATION. SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and PHYSICAL EN-LINGY, and all those distressing complaints result-ing from a DERANGEMENT of the NERVOUS 5) STEM.

In the above prevalent and terrible class of dis-cases—Nervous Complaints are much more numer.

CHRISTIE'S GALVANIC CURATIVES. Are an Absolute and Positive Specific. The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Throat, as Asthma and Bronchitis, and of the Head; and the BRACELETS for all disorders of the arms or limbs, as Rheumatism, Palsy, Tremors and Spaemedic affections. These articles are simply applied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL:

The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by outward application, in place of the usual method of Drugging and Physicking the patient till exhausted nature sinks hopelessly under the infliction. They strengthen the whole system equalities the circulation of the Blood, promote the secretions, invigorate the entire energies, and seem series dightest harm under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 PERSONS facilities all ages, classes and conditions, among whom were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been

Entirely and Permanently Cured, when all hope of relief has been given up, and every-thing else been tried in wain! The beneficial results which have uniformly attended their use is conf-dently stated to be without a parallel in the annul-of Medical Science. Clergymen, lawyers, and even physicians: ladies of the highest standing; distin-guished persons hedding elevated official stations; marchants, manufacturers, and mechanics; the peor-end the rick slike; often whole families among all clause, ranks and conditions, have equally been

cipients, and have equally acknowledged the wen-drous and often unexpected benefits which they have hus received.

27 Let it be known and remembered that the only Natural Restorative for the Neeves is Galvanian, and that in all Nervous Phoases we should "Throw Physic to the Dogs."

"Throw Physic to the Dogs."

To filustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that hone of civilization, DYSLETSIA or any other Chromic or Nersons Disorder. In ordinary cases, simulants are taken, which by their section on the nerves and muscles of the atomach, afford temposary relief, but which leave the patient in a lower state, and with higured faculties, after the action thus excited has resisted. Now compare this with the effect resulting from the application of the GALVANIC Belt. Take a Dyspeptic sufficer, even in the worst ayeng tome of an attack, and simply the the Belt round the Bedy, using the Magnetic Fluid as directed. In a fibert period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the againty, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of Dispersia are Fernmanently Curen. A few Dans is amply Sufficient To Eradi. CATE THE DISEASE OF YEARS.

MANY THOUSAND

MANY THOUSAND CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persons residing in every portion of the United States, could be presented. These are now unare States, could be presented. These are now unsecessary, but a numerous selection embracing many statements of the most extraordinary character, sufficient to CON.

WHAT THINK YOU OF THIS? From one of the most distinguised Physi-ciam in the City of New York.

class in the City of New York.

"I have been using Christie's Galvanic stricles in a quiet way among my palients for about two years past, and I contess I am astonished at their success. If I am sure a disease is Nervous, I know just what they will do. In Epileptic Fits, partendarly in children; Deafness and Affections of the Head, in adults; Paralysis and Palsy, in all ages, and indeed several other diseases of like nature which have long purzled the profession, I have found the Galvanic stricles of surprising benefit. Although I detest the chameless quackery of advertisements and newspapers, I must express my confidence and belief at the wonderful virtues of CHRISTIE'S CURATIVES. My name is, of course, confidential, but I shall never hesistate to recommend your articles on all proper occasions."

Dew Ser.—Being a physician in the vicinity of
one of your Agents. I have been much gratified in
the examination of your Galvanic Curatives, and
highly pleased with their practical results. I have
observed that they are constructed on the true scientific principle for the gentle, earle, pleasent and contimes development of the Galvanic Current, thereby
filling a disideratum, long sought for, but heretofore
unbasows. I cheerfully recommend them for the
alleviation and cure of those distressing ailments
called Nazarous Complaints, for which they are sehappily and ingeniously designed.

Very truly yours, DAVID RICE, M. D.

Read the following Testimonials.

Missis, Germis & Marsis—Germens: We used a Resper manufactured by Mr. Hussey, of Baltimore, for cutting our harvest, in 1851. It consisted of between 30 and 60 acres of Wheat. A part of it stood well, but a considerable portion was much tangled and laid. The Respect operated equally as well in both cases, cutting the standing Wheat clean, and depositing it in sheaves of suitable size, straight, and in good order for binding, and taking off the grain cleaner, and leaving if in much better order for binding, than is generally done by the cralle. When the grain is much lodged, or lies very lew, in order to make good work it is necessary to run the machine against the slope of the grain. We are well pleased with the operation of the machine, and a large number of in telligent farmers who witnessed its performance during the harvest, expressed the same opinion in relation to it.

Respectfully yours, WM. NESHIT.

Day Valley, March 23, 1882.

TO THE PUBLIC—I do hereby certify that I used Hussey's Grain Respectations. It cut about 14 acres per day of very heavy Wheat, and even then we stopped to shock the grain out before evening. It takes the grain very clean from the ground. It cut ledged grain remarkably well, and, in fact, a farmer having a well cleared of farm, and not too mountainous, can not add a more useful or labor-saving machine to his stock of utentils. Yours, BENJ CAWLEY.

Brown's Essence of Jamaica Ginger,

I'S a remedy suited to the extremes of heat and cold, and is very beneficial whenever gentle tonic and stimulating influences are required. Its stimulant property being independent of alcoholic power, its effect as a frequent remedy need never be dreaded. While it strengthens and refreshes the debilitated in summer season, it is not less potent during the inclemency of the winter; by warning with its healthy tonic principle enabling the system to resist the influence of incipient

diseases which lurk in a changing climate. No family should be without it, and to travelers by land or sea it will be found invaluable to use a few drops in water as a uniformly healthy and agreeable drink, without intoxication. agreeable drink, without intoxication.

IT IS A FACT, ONE self-evident, and worthy of every consideration, that no Miller can make good clean flour without he has good clear wheat. I suppose you wish to know i Bergstresser's Wheat Scourers, or Smil Machines. He being an old, practical and experienced Millwright has invented, got up and put in successful operation the bes Wheat Scourer now in use. Any person ordering a machine and afterwards finds; that it does not prove to operate as reprisented, there shall be no sale, as these machines are to be warranted good. Further recommendations are thought unnecessary He is now having a supply made at Lewisburg, by Messrs, Geddes & Marsh. Orden for machines, or letters of inquiry, will be
