Charley-Hi! Johany-Listen now to me.
I'll sing for you, I'll play for you A Ratiroad melody!

When a Railroad project is got up, They're keen to have it made, For "here" (they think) "there is a chance "For something in the shade;" But when they find their "cake is dough," No orrice have they got.
They turn and cry, "Commissioners!
- The Railroad-make it not!"

Ho! I aac-hi! Reubea-Listen now to me. Fil sing for you, Fit play for you A Railroad melody!

Great meetings then they will get up, And make a maghty fuss, But ere the - ball goes rightly on"

They're in an awful muss-Th' Improvement cars just heave in view, With the Voters all along, Th' Repudiators hang their heads,

And we will sing our song: Ho! Charley—hi! Johnny— You must clear the track : Old Ner and go-ahend Bullgine Will lay you on your back. You must clear the track;

Who will dare say that women don't claim their rights in this country, where a whole train is stopped to give a woman a chance to put on her 'becomings'? Western women against the world! If Suffaloe township, adjoining lands of Saul she had got hold of the conductor she would have made him wait!

THE WISE DECISION .- The Uncle of a Welsh minister having been sorely offended, declared that he should never forgive the offender. The minister asked him if he knew what the Bible said. "No," said he; "what does it say?" "Anger resteth in the bosom of fools." "Well. Thomas," said he, "go instantly and tell the man that I forgive him all. I will not be a fool to please either him or any body else."

Brown's Essence of Jamaica Ginger, IS a remedy suited to the extremes of heat and cold, and is very beneficial whenever gentle tonic and stimulating influences are required. Its

stimulant property being independent of alcoholic power, its effect as a frequent remedy need never be dreaded. While it strengthens and refreshes the debilitated in summer season, it is not less potent during the inclemency of the winter; by warming with its healthy tonic principle enable the system to resist the influence of incipient diseases which lurk in a changing climate. No family should be without it, and to travelers by and or sea it will be found invaluable to use few drops in water as a uniformly healthy and agreeable drink, without intoxication.
