

DEMOCRATIC FLAG.

FOR PRESIDENT, GEN. FRANKLIN PIERCE, of N. Hamp. FOR VICE PRESIDENT, COL. WM. R. KING, of Alabama.

The anti-railroad crusade got up in this county this fall by a handful of miscellaneous demagogues, has resulted in their overwhelming defeat. This crushing rebuke will doubtless prove a salutary lesson to them, if they are willing to profit by the teachings of experience.

The Democratic party in this State has been paralyzed by the spirit which has looked to a conquest over the Democracy by an appeal to the martial enthusiasm of our countrymen. If the tide of popular feeling for the party sustaining popular rights could not be turned back in Pennsylvania, such a change can not be hoped for elsewhere, as all the local considerations connected with the election which has just taken place were propitious to the Whig hopes.

Some of the Whig papers and speakers, now that the patriot Cass is not a candidate for the suffrages of the people, occasionally speak in high terms of him as a lover of his country, who would have been a creditable candidate for the Democracy.

It is to be hoped this friendly rebuke will be heeded in the right quarter, and "better counsels" be permitted to have their legitimate influence hereafter; so that the Democracy may act in harmony instead of being torn asunder by wrongful and dishonest issues.

It is amusing to listen to the thousand and one excuses given by the Whigs for their disastrous defeats in Ohio, Indiana, Pennsylvania, &c., and the dogged pertinacity with which they still insist, in spite of the ugly evidence to the contrary, that Scott will carry the day.

The narrative parts of Gen. Irvins' speech in the Town Hall last night were interesting; but his attempts at argument betrayed the treacherous footing of a great party tottering to its fall. Such feeble and transparent sophistry will signally fail to seduce the Democracy from their allegiance to principle.

The returns received from Pennsylvania extinguish the hopes of whiggery in that key-stone of the democracy. That glorious old Commonwealth has ever paid homage to patriotism; and because she has evinced this ardent republican feeling by casting her suffrage for those citizen-soldiers who have given the strongest proof of patriotic devotion in quitting their homes and combating the freeds to fight their country's battles without a view to military advancement or emoluments, federalism has inferred that the glitter of military renown, the plume and epaulets of the commander-in-chief of the standing army, with towering form and pretensions, would carry the State without any consideration of personal character or qualification. Pennsylvania has shown by her glorious vote of the 12th, that she knows how to discriminate between the illustrious hero, Jackson, who, in his Hermitage, was first hailed President by her commanding voice; and Scott, who has been an officer from early manhood to advanced age, in the regular army, has learned but how to command men standing before him, cap in hand, and who has embraced camp, barrack, and field service, if not as a servitude, yet as a business for life.

The Democratic party in this State has been paralyzed by the spirit which has looked to a conquest over the Democracy by an appeal to the martial enthusiasm of our countrymen. If the tide of popular feeling for the party sustaining popular rights could not be turned back in Pennsylvania, such a change can not be hoped for elsewhere, as all the local considerations connected with the election which has just taken place were propitious to the Whig hopes.

LEWISBURG WHIG.

FOR PRESIDENT, GEN. WINFIELD SCOTT, of New Jersey. FOR VICE PRESIDENT, GOV. WM. A. GRAHAM, of North Carolina.

The preliminary skirmish in this State results a drawn battle. We gain in the Senate—hold our own in Congress—and lose on our State Ticket by the absence of thirty thousand Whigs from the Polls. This is no indication of the great contest.

In 1839 Penna. went 25,000 Democratic. " 1840 " " 343 for Harrison. " 1841 " " 21,000 for Porter. " 1845 " " 13,000 Democratic. " 1846 " " 9,000 Whig. " 1847 " " 15,000 for Shunk. " 1848 " " 14,000 for Taylor. " 1851 " " 8,000 for Bigler.

Hundreds of Democrats will vote for Scott openly or secretly; and with our FULL VOTE POLLED, we doubt not SCOTT will carry the State, and be our next President. Let the Pierce men brow-beat and "crow"—(as they did in '40 and '48—) with the staunch friends of the tried and true Hero-Pacifier originate timely and effective means to bring out Every Vote!

Pennington. "CHARGE AGAIN!" was the order of the heroic Scott, as he was borne riddled with bullets and barely alive from the bloody field of Lundy's Lane. They did "charge again," and they swept the field in the same spirit, the Scott men of PENNSYLVANIA are preparing in their several Counties for the great struggle now less than two weeks before us.

Mr. Hoffman has 65 maj. for C. C. in Washington Co., where Mr. Hopkins resides, and where Woodward had 161. In Berks, (his own county) Hoffman has 400 over the Whig ticket. In his own county (Armstrong) Judge Buffington has 10 maj., Hopkins 444.

The following are specimens of the arguments used against Gen. Scott. We did not expect to find them where we do—in the columns of the Sullivan County Democrat, 31st August last:

"The nomination of Scott was an act of folly. He has a weak, silly head which has made so notorious that all the world knows it. Did any one ever read such foolery?—He is a perfect laughing stock. The boys imitate his strut. His sayings are by-words of ridicule.

Scott's Tariff principle is expressed in his words—"I am for Protection for the sake of protection." Gov. Graham, with several Southern Whigs, disapproved of some of the details of the Tariff of '42, but when it was enacted, he defended it, and stoutly opposed its repeal. He is an undoubted and reliable Protective Tariff man.

Reader! where are the millions of gold that are constantly coming from California? Have you any more than you had before it became so plenty? No—then where is it? Gone to pay workmen and enrich capitalists in England, for work which might, could, and would be made in our own land under a Protective Tariff.

We do not support SCOTT because he is a brave Soldier. Our admiration of him rests upon the fact, that, although the "brave of the brave," NONE LIVING HAS DONE MORE TO PREVENT BLOODSHED, AND TO SPREAD TRUE PEACE PRINCIPLES THAN WINFIELD SCOTT. With him as President, no Nation dare insult ours, nor would any War be needlessly allowed.

Hon. Wm. Thompson, of Virginia, some years ago wrote his opinion of the youthful Winfield Scott in the following words—(see life of John Randolph, by Hugh A. Garland):—"We have been visited by the young ladies of Liberty Stock, and by its Mentor, Major Scott. I had rather have his wisdom than Newton's or Locke's, for, depend on it, he has dipped deep in the science of the mind."

Indiana and Ohio have gone for the Democracy to the tune of many thousands. A Democratic Mayor has been elected in Baltimore by over 5000 maj. Woodward and Hopkins' maj. in the State will be a trifle over 18,000.
