P. McMURTRIE.

I am well satisfied that the Magnetic Exchange 130, manufactured to Mr. Thomas Armitage, of Philadelphia is the best that has ever been made. I have spent severa pears in the study of the laws of electricity and magnetism, and have no bestitation in saying that these Reals are ism, and have no besitation in saying that these Reals are sonstructed upon the only principle of aferty. The electric check is received and dispersed by the magnet at the top of the rock and it would be impossible, sectoring to the laws of attraction and repolation, for a building to be injured by a stroke of lightning when protected by one of these roots. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of those roots. I exaculted the principle on which they are constructed, and fait convinced that their adoption would be attended with complete success. The increasing demand for these roots, and the extensive sales in all parts of the country, is ample commenciation of their utility and superiority.

"I have been using Christie's Galvaine articles in a quiet way among may patients for shout two years past, and I confess I am estonished at their success. If I am eure a disease is Nervous. I know just what they will do. In Epilopiic Fits, particularly is chibtren; Desfiness and Affections of the itend, is shaller. Faralysis and Falsy, in all ages, and indeed several other diseases of like nature which have long purried the profession, I have found the tilerance articles of surprising benefit. Although I detect the thameless quackery of advertisements and newspapers, I must express my confidence and belief in the wonderful virtues of CHRISTIE'S CURA-TIVES. My name is, of course, confidential, but I shall never hesitate to recommend your strictes of all proper occasions."

Committe. New York.

Deer Sir.—Being a physician in the vicinity of
one of your Agents, I have been much gratified in
the examination of your Galvanic Curatives, and
highly pleased with their practical results. I have
observed that they are constructed on the true scientific principle for the gentle, eye, pleasant and ontimed development of the Galvanic Current, thereby
filling a disideratum long sought for, but heretoften
unknown. I cheerfully recommend them for the
allevinition and cure of those distressing animents
called Naxvers Commissions, for which they are so
happily and ingeniously designed.

Very truly yours. DAVID RICE, M. D.
