We hope our readers will not forget the meeting to be held in New Berlin tomorrow a-week to form a County Agricultural Society. We are informed that it is not the intention of the projectors of the enterprise to waste any farther time in idle and profitless discussion, but to adopt a Constitution, elect officers and fully organize at once. There has been enough Lewisburg Female Institute talk, and it is to be hoped there will now be some efficient action upon this important subject. Let those who are favorable to the movement turn out in full force. and lead it the influence of their presence and approval.

Grayden's Forms"-advertised in another column-is now the only complete for exercise in unfavorable weather. Miss Hadassah S. Scribner of Littleton, N.H., and reliable form book to be had, and under the editorial labors of Mr. Wright, has become of great practical value to business men generally, as well as indispensable to every magistrate and lawyer.

"Binn's Justice" is a work too widely and favorably known to need any encomium at our hands

Both these publications are very moderste in price, and should be in the hands of every business man. The enterprising publisher,s have got them up in their usual neat and durable style.
