LEWISBURG CHRONICLE & WEST BRANCH FARMER.

The Election

history of the government. Stunned and dismayed by this annihilation of their forces, the Whig presses induige in all and intensity of feeling that indicates a keenness of disappointment not readily to be assuaged.

The restoration of the Democratic party to power, and that too by such wide spread and imposing evidences of popular approtion to the Democracy, and their rejoicing could not be otherwise than heartfelt and enthusiastie. But in the very fuluese of suble words of admonition on this subject, that " with high-toned and honorable men the hour of triumph is also the hour of noguanimity. It is not to be overlooked that there are many with whom we are in is in the control of the state to allow that circulastance to detract somewhat from their generous joy." These suggestions are especially appropriate and just after so full-toned and majestic an utterance as has just been heard from the ballot box.

The gallant Democracy of Lewisburg are entitled to the highest meed of praise for their energetie and effective operations on the 2nd of November. The glorious vote they polled for Pierce and King, and the inroads they made spon the Whig ranks are no less gratifying in themselves than in their contrast with the lame results in districts under the special jurisdiction and influence (!) of the Whiskey Inspector. The Union Times has even sought to restore itself to favor by a muttered tribute of approval; though what the intelligent and patriotic Demosrasy of our town have done to bring such a misfortune upon themselves we can not imagine. They have endured with patient composure the sterm of maudlin abuse which that sheet has poured upon them this fall, and could continue to do so her after, but to be suddenly bespattered with its proise was the " unkindest cut of all." Bat its flatteries and denunciations alike fall on unbeeding vars. The Democracy here, and in the adjacent townships, perfectly understand their rights and dutics, and fully appreciate the force of principles and the value of party organization, but not such scandalous and disbonest movements as the Whiskey Inspector and the Times swamped themselves in trying to carry out this fall.
