character, extremely popular, and command

Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting familidwellings and property from the destructive influesce of LIGHTNING. The calamines that every City, Town, Viliage and Country falls victim to annually, thro' the grass negligence of its inhabitants, is beyond calculation, especially when the remedy is so casy to obtain -this is found in

Patent Magnetic Lightning Hods, and in this alone. This Rod has been examined by the most scientific g-rolemen in the world-Professors M'Murtrie, Johnson, Waltor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the chetric fluid barmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the casth without the slightest danger of leaschielt is to be extended from Lowisburg to ving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 draws above 12th, Philadelphia. where all persons are respectfully invited to call and examine for themselves. For sale Wholesale

RECOMMENDATIONS.

RECOMMENDATIONS

PRINTING, Aug. 13, 1847.

I have this day carefully inspected a commeter or trichtains floot, with value and index, exceed by Mr. Homes Aradiers, on Editoric House, Gonzecter, Mr. Homes Aradiers, on Editoric House, Gonzecter, Mr. Homes Aradiers, on Editoric House of Sourceter, and have no healthten in extigation in the only one I have yet I have ever seen, but that it is the only one I have yet expendent that is constructed on strictly scientific principles. It is with natch pleasure that I recommend his conductor to the attention of owners of buildings.

In MACHIETER,

I am well satisfied that the Magnetic Lightning Red, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that his even been made. I have spent according to the laws of electricity and magnetism, and have no heighton in saying that these flods are constructed months only principle of safety. The electric shock is reclived and dispersed by the magnet at the top of the root and it would be impossible, according to the laws of attraction and requision, for a building to tell placed by a stroke of lightning when protected by one of these rats. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rats, and before he commenced the manufacture of these rats, and before he consensed that their adoption would be attended with our principle on which they are constructed, and felt convinced that their adoption would be attended with complete ance as. The increasing demand for these roots, and the extensive cales in all parts of the country, is ample comme undation of their milly made superfective.

CERTIFICATES AND TESTIMONIALS from the most intelligent and respectable persons residing in every person of the United States, could be presented. These are now unhacessary, but a anthorised Agent. The interested are particularly invited to call.

WHAT THINK YOU OF THIS! From one of the most distinguised Physi-cians in the City of New York.

claus in the City of New York.

"I have been using Christie's Galvanic articles in a quiet way among my printint for about two years past, and I confess I am assembled at their succest. If I am aire a disease is Norwas, I know just what there will do. In Epileptic Fits, particularly is children: Desfuess and Juley, in all nges, and indeed several other diseases of like instance which have long purzied the protession. I have found the colleand acticles of supprising benefit. Although I detect the diameless quackery of aliserticements and newspapers, I must express my confidence and belief in the wenderful virtues of CHRISTIES CITATIVES. My name is, of course, confidences had all proper occasions."

ANOTHER INSTANCE OF CANDOR To D. C. Monnerae, M., D., Gen. Agt. for Dr. Chairme, New York.

Theor Sir., Heing a physician in the vicinity of one of your Agents. I have been much granifed in the examination of your Galvanic Curaisses and highly pleased with their practical results. I have observed that they are constructed on the true scientific principle for the granife, self. planear and estimated between the true scientific principle for the granife, self. planear and estimated between the control of the Galvanic Current, thereby filling a disideration, long sought for, but heretofore unknown. I cheerinily recommend them for the alteriation and cure of those distressing adments called Nexucus Couraires, for which they are so happily and ingeniously designed.

Very truly yours, PAVID RICE, M. D. Leverett, Mass. February 15, 1800.

En No trouble or insurvemence attends the need DR CHRISTIE'S 6.2LF.2NIC CUR.27IFES and they may be storn by the most feeble and deli-cate with perfect ears and safety. In many core the sensation attending their rase is signly pleased and agreeable. They are accompanied by full and plain directions for use. Famphlets with full po-ticulars may be obtained gratis, of the authorised Agent.
