# The Farmer.

☞ The annual meeting of the Northumberland County Agricultural Society, for the election of officers, will be held at the Court House in Sunbury, on Monday, January 3, at 2 o'clock P. M.

### List of Good Fruits.

[From the "Transactions of the American Pomological Society," at its session in Philadelphia last Sept., we extract for our readers the following recommendations:]

FRUITS WORTHY GENERAL CULTIVATION.

*Apples.*—American Summer Pearmain, Baldwin, Bullock's Pippin, Danvers Winter Sweet, Early Harvest, Early Strawberry, Fall Pippin, Fameuse, Gravenstein, Hubbardston Nonsuch, Large Yellow Bough, Lady Apple, Porter, Red Astrachan, Rhode Island Greening, Roxbury Russet, Summer Rose, Swaar, Vandervere, White Seek-no-Further, Wine Apple, or Haps, Winesap. *And for particular localities*—Canada Red, Esopus Spitzenburg, Newtown Pippin, Northern Spy, Yellow Belle Flour.

*Pears.*—Ananas d'Ete, Andrews, Belle Lucrative or Fondante d'Automne, Bourre d'Anjou, Bourre d'Arenberg, Bourre Rose, Bloodgood, Buffum, Dearborn's Seedling, Doyenne d'Ete, Flemish Beauty, Fulton, Golden Bourre of Bilboa, Louise Bonne de Jersey, Madeleine, Paradise d'Automne, Rostiezer, Seckel, Tyson, Urbaniste, Uvedale's St. Germain, for baking, Vicar of Winkfield, Williams' Bonerietien or Bartlett, Winter Nelis. *And for particular localities*—Grey Doyenne, White Doyenne.

*Apricots.*—Breda, Large Early, Moorpark.

*Nectarines.*—Downton, Early Violet, Elruge.

*Peaches.*—Bergen's Yellow, Coolidge's Favorite, Crawford's Late, Early York, *serrated*, Early York, large, George the IVth, Grosse Mignonne, Morris White, Old Mixon Free. *And for particular localities*—Heath Cling.

*Plums.*—Bleecker's Gage, Coe's Golden Drop, Frost Gage, Green Gage, Jefferson, Lawrence's Favorite, Purple Gage, Purple Favorite, Washington. *And for particular localities*—Imperial Gage.

*Cherries.*—Belle Magnifique, Black Eagle, Black Tartarian, Downer's Late, Honnaton, Elton, Early Richmond, for cooking Grafton or Bigarreau, Knight's Early Black, May Duke.

*Grapes.*—*Under Glass*—Black Frontignan, Black Hamburg, Black Prince, Chasselas de Fontainebleau, Grizzly Frontignan, White Frontignan, White Muscat of Alexandre. *Open culture*—Catawba, Isabella.

*Raspberries.*—Fastolf, Franconia, Red Antwerp, Yellow Antwerp.

*Strawberries.*—Boston Pine, Hovey's Seedling, Jenney's Seedling, Large Early Scarlet.

*Currants.*—Black Naples, May's Victory, Red Dutch, White Dutch, White Grape.

*Gooseberries.*—Crown Bob, Early Sulphur, Green Gage, Green Walnut, Houghton's Seedling, Iron-monger, Laurel, Red Champagne, Warrington, Woodward's White Smith.

NEW VARIETIES WHICH PROMISE WELL.

*Apples.*—Autumn Bough, Hawley, Melon, Mother, Northern Spy, Smoke-house.

*Pears.*—Brandywine, Brande's St. Germain, Beurre Giffard, Chancellor, Doyenne Boussock Doyenne Goubault, Duchesse d'Orleans, Duchesse de Barri, Diller, Jalousie de Fontenay Vendee, Kirtland, Limon, Manning's Elizabeth, Nouveau Poiteau, Onondaga, Ott, Pratt, Paradise de Automne, St. Michel Archange, Stevens' Genessee, Striped Madeleine, Van Assene.

*Plums.*—McLaughlin, Prince's Yellow Gage, Rivers' Favorite, St. Martin's Quetche.

*Cherries.*—Bigarreau Montreuse de Bavay, Early Purple Guigne, Reine Hortense.

*Grapes.*—Diana.

*Raspberries.*—Knevett's Giant.

*Strawberries.*—Burr's New Pine.

[The catalogue of "REJECTED FRUITS" is much longer than either of the foregoing; but the publication of those will probably suffice. They embody the opinions of men who make Fruit a particular object of study and attention.]

THE GARDEN.—Daniel Webster writing to the overseers of his farm in Franklin, N. H., last March, uses the following truthful language of cultivation and the garden: "Whatever ground you sow or plant, see that it is in good condition. We want no *pennyroyal crops*. 'A little farm well tilled' is to a farmer the next best thing to a 'little wife well willed.' Cultivate your garden. Be sure to produce sufficient quantities of useful vegetables. A man may half support his family from a good garden. Take care to keep my mother's garden in good order, even if it cost you the wages of a man to take care of it. I have sent you many garden seeds. Distribute them among your neighbors. Send them to the store in the village that everybody may have a part of them without cost.

Milch cows, in winter, should be kept in dry, moderately warm, but well ventilated quarters; be regularly fed and watered three times a day, salted twice or thrice a week, have clean beds, carried daily, and in addition to their provender, they should receive succulent food morning and evening.

From the Germantown Telegraph.

### A Good Winter Feed for Milch Cows.

MR. EDITOR—Cows, restricted during their confinement to the barn, in winter, to a dry diet, almost invariably "shrink their milk." This is especially apt to be the case, where very particular attention is not paid to supplying them with water, and where they are restricted to dry hay, or cornstalk feed. When roots can not be supplied, a very excellent substitute may be provided, by chaffing and steaming; but to one who has a supply of potatoes, the following method will be found very economical and efficient in retaining a flow of milk.

Take a quantity of potatoes—(those which are not marketable will answer for this purpose)—crush or rasp them, and put them in a close barrel. Over a layer of six inches thick of potatoes, deposit a stratum of three inches of Indian meal, and so on alternately, till the barrel is full. In the centre of the mass introduce a pint of good yeast, and set aside for one week. A vigorous fermentation will be the result, and the contents, when thoroughly mixed, will be a most excellent and nutritive feed, not only for cows in milk, but for all descriptions of farm stock. If the number of your animals is large, a more spacious receptacle may be supplied—say a hogshead or wine-pipe. Of these there should be several, as it will be necessary to have the process going on, while the prepared food is being used. For mashing the roots, where rasping is not practicable, a plank trough should be used, or a floor he can be traversed by a heavy roller.

In warm weather, a little water will be sufficient to set the fermentation going, and yeast need not therefore be introduced. Apples, cabbage leaves, and, indeed, almost any green succulent matter may be added to the mixture. And here let me add that when the root crops are not taken in till the commencement of cold weather—which they never should be when intended for stock feeding—the tops should be saved for winter use. They will keep well during the colder months, unless placed where there is too great a degree of heat, and will add in a very important measure to the resources of your farm, and the comfort of your stock. Cabbages are excellent for milch cows, and no farmer should neglect to put in an acre or so every year, to feed out toward the last of summer and through the fall, as well as for winter use. The loose heads, and leaves, are as good for this purpose as those which are more compact.

A LOWER MERION FARMER.

TO MANAGE A REARING HORSE.—In the British Sportsman, we find the following hint respecting the management of a rearing horse, which strikes us as being worthy, as it is easy of trial:

Whenever you perceive a horse's inclination to rear, separate your reins and prepare for him. The instant he is about to rear, slacken one hand, bend his head with the other, keeping your hands low. This bending compels him to move a hind leg, and of necessity brings his fore feet down. Instantly twist him completely round two or three times, which will confuse him very much, and completely throw him off his guard. The moment you have finished twisting him round, place his head in the direction you wish to proceed, apply the spurs, and he will not fail to go forward; if the situation be convenient, press him into a gallop, and apply the spurs and whip two or three times severely. The horse will not, perhaps, be quite satisfied with the first defeat, but may feel disposed to try again for the mastery. Should this be the case, you have only to twist him, &c., as before, and you will find that in the second struggle he will be much more easily managed than on the former occasion; in fact you will see him quail under the operation. It rarely happens that a rearing horse, after having been treated in the way described, will resort to his trick a third time.

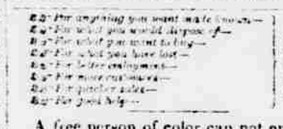
A SEASONABLE HINT.—Suet and lard keep better in tin, than in earthen ware. We have vessels made with covers and handles, which will contain about fifteen pounds each, five of them for a dollar. With careful usage they will last an age. Lard kept in earthen pots, penetrates the pores so that the outer surface is soon covered, and in hot weather so much will pass through as sometimes to run off upon the shelves. Now is the time to get tin cans; once tried you will never go back to the earthen pots, either as a matter of convenience or economy.—*N. E. Farmer.*

TO THAW OUT A PUMP.—Take a half inch lead pipe, put a funnel on one end and set the other on the ice in the pump. Now pour boiling water in the funnel, and the pipe will settle rapidly down through the ice. Now having drilled a hole thro' the mass, hot water will soon enlarge it so your pump-rod will move and raise the water from below, which will melt away the obstruction.

When shrubs of dwarf fruit trees produce an abundance of foliage, but no flowers or fruit, either move them to a poorer soil, or cut through some of the principal roots.

Remember, that all highly concentrated animal manures are increased in value, and the benefits prolonged, by admixture with plaster, salt or pulverised charcoal.

# News and Notions.



A free person of color can not purchase a glass of liquor in North Carolina. The law forbids it.

If you wish to know how quick you can run a mile, tell a red haired woman that her baby squints.

"Uncle Tom's Cabin" is not only to be dramatized in Paris, but it is to be set to music. It is to become the subject of the libretto of an opera for the Theatre Lyrique.

A firm in New York have been arrested for selling adulterated spices; yellow ochre for mustard, and all sorts of trash for pepper, &c. Deleterious drugs were employed to give pungency to the trash.

The worshippers of the rising sun at Washington, are really proposing General Pierce for a second term. After the appointments and *dis*-appointments are made, the number of these sycophants will be thinned.

The trial of Armstrong Powell for the murder of Wm. Jackson, took place at Mifflintown, Juniata county, last week, and resulted in a verdict of murder in the second degree. He was sentenced to the penitentiary for seven years and six month.

Mr. Walsh writes from Paris that translations of Uncle Tom's Cabin, in all the principal languages of Europe, have been announced.

The average price of a serf in Russia is seventy-five dollars.

The graves of Hayne the eloquent, and Calhoun the logical, are still unadorned.

A good story is told of a high officer of the government, who some time ago took a pew in a New School Presbyterian church at Washington city, and with his family continued to worship there for six months, until suddenly information came from an orthodox source, in a distant State, that he had "got into the wrong boat." Whereupon the astonished civilian struck his tent, and made straight for the true orthodox church.

An ox, now going 3,250 pounds, took the first prize at the late Kentucky State Fair.

During the last year (from December 1, 1851, to December 1st, 1852), there were no less than one thousand three hundred and forty-two instruments of writing recorded in the Recorder's Office of Lancaster county, a large majority of them being deeds of conveyance for Real Estate.

Apples are selling in Texas at seventy-five cents per dozen.

The Baptists have commenced a religious organ in California, to be called the "Pacific Banner."

In the Registers' office of Lancaster county, there were proved and registered, since the year 1732 (130 years), 7,291 Wills. The number of Letters of Administration on Intestate Estates granted during the same period were 9,154; and the number of Executors, Administration and Guardianship accounts filed were 11,438.

An Agent on the State road, named Joseph A. Rees, was killed on the 16th inst., at Chandler's station. He was disconnecting two cars and stood upon both at once. They were both moving rapidly at the time and he fell between them. His head was struck by the fender which holds the break blocks, and thrown under the wheels of the front truck, and shockingly crushed.

Hon. Cornelius P. Van Ness, once Governor of Vermont, Minister to Spain and Collector of New York port, died at the Girard House, Phila, on Wednesday evening last.

A city paper informs that there are in New York eight hundred places where lottery tickets are sold.

The income of the Bishop of London for the last seven years, has averaged eighty-five thousand dollars a year.

John Montenus, has been arrested and committed to prison, on suspicion of setting fire to the barn of Mr. Nafsa, which was consumed in Penn Twshp, Lycoming county, on Friday night the 17th inst.

George Harrison of Sunbury, who has won the reputation of raising the heaviest pork in the neighborhood, killed a hog, which when dressed weighed 516½ lbs.

A Lecturing Mania has invaded the ranks of the nobility of England. The Earl of Carlisle is announced to lecture on Gray, Sheffield; the Duke of Newcastle is to lecture to the mechanics at Workshop; Sir Alexander Cockburn, at Southampton, and Lord John Russel at Manchester. Nobility is looking up.

Maj Gen. Scott was in New York last week for two or three days. He stayed at the College Place Hotel.

Mr. Seaver, Whig, has been re elected Mayor of Boston, by 20 majority.

True charity consists in giving people work, not money. The latter makes dependent—the former independent.

*Name no one man.*—These words spelled backwards and forwards, are the same.

This year, the increased receipts of the New York & Erie R. R. is nearly One Million Dollars.

Wm. P. Coulter, of Harrisburg, is about to issue a Temperance paper to be called the "Chrystal Fountain," at $1 per year, and reduced prices to clubs.

The Chief Justice of Minnesota has pronounced the recent Liquor Law of that Territory, unconstitutional.

A bed of lead, fully equal to that taken out at Galena, is said to have been discovered in Sinking Valley, Blair county, about six miles from the Central Railroad.

Robert Baker, Esq, has been appointed Post Master at Jersey Shore, vice S. Gudykunst, resigned.

Boston, Dec. 27.—It is pretty generally understood and credited here, that Gen. Pierce offered Hon. Robert M. T. Hunter a choice of either the State or the Treasury Departments. The latter it is said he will decline, but doubtless accept the former.

DR. LOCKE—DENTIST—has returned to Lewisburg, and may be consulted professionally for a few weeks at his Rooms in N. Third street. Sept. 1, 1852

$500 CHALLENGE.

WHATEVER concerns the health and happiness of a people, is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable. If you have an appetite continually changeable from one kind of food to another, Bad Breath, Pain in the Stomach, Faiting at the Heart, Dizziness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these indicate WORMS, and you should at once apply the remedy—

*LOBENSACK'S WORM SYRUP.*

An article founded upon scientific principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect. Where Bowel Complaint and Diarrhœa have made them weak and debilitated, the tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines in giving tone and strength to the stomach, which makes it an infallible remedy for those afflicted with *Dyspepsia.* The astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM!

This is the most difficult Worm to destroy of all that infest the human system. It grows to an almost indefinite length, becoming so coiled and fastened in the intestines and stomach, effecting the health so badly as to cause St. Vitus Dance, Fits, &c., that those afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this worm, a very energetic treatment must be pursued; it would therefore be proper to take 6 to 8 of my Liver Pills, so as to remove all obstructions, that the Worm Syrup may act direct upon the worm, which must be taken in doses of two tablespoonfulls three times a day; these directions followed have never been known to fail in curing the most obstinate case of *Tape Worm.*

*HOHENSACK'S LIVER PILLS.*

No part of the system is more liable to disease than the Liver, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver effects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Roots and Herbs* furnished by nature to heal the sick, namely, by An *Expectorant,* which augments the secretion from the pulmonary mucus membrane or promotes the discharge of secreted matter. 2nd. An *Alterative,* which changes in some inexplicable and inexcusable manner the certain morbid action of the system. 3d. A *Tonic* which gives tone and strength to the nervous system, restoring health and vigor to all parts of the body. 4th. A *Cathartic* which acts in perfect harmony with the other ingredients, and operating on the bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the blood, which destroys disease and restores health.

*TO FEMALES.*

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their functional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as headache, giddiness, dimness of sight, pain in the side, back, &c.

None genuine unless signed J. N. HOHENSACK, and others being base imitation.

Mifflinburg, Oct 28 1852

*Important to Farmers and Housekeepers!*

HICKOK'S PATENT CIDER MILL.

IN all former times it was supposed that a large quantity of Cider could be made only by using a ponderous machine, that slowly crushed the apples without grinding them fine. They were then made into a massive cheese in straw, and a most severe and long pressure was required to extract a portion of the cider, a considerable portion being absorbed by the straw and the mass of pomace, and to obtain this unsatisfactory result the farmer had to take all his hands and perhaps his six horse teams and devote a whole day that could have been more profitably employed, to make from six to twelve barrels of cider. To obviate the difficulty the farmers have heretofore labored under,

This Machine

has been invented, and the statement of a few facts may prove that it is not only the *Best Machine* of the kind in existence, but that it is the most *profitable* that a man can have on his farm. The apples are by this machine grated up into a fine pulp, so that it requires but a comparatively light pressure, and that but a minute or two, to extract all the cider, it being ascertained by practical experiment that *One Fourth* more can be obtained than by the old process. Besides this it requires only two hands to grind and make up into cider a larger quantity of apples than can be possibly made on the old-fashioned machines. On this press, owing to the compactness of the pomace in the tub and the complete manner in which it is ground, a pressure of three to five tons—which can be easily obtained—will produce a more favorable result than one hundred tons pressure on the ordinary cider press, even if the apples were ground as finely as on the improved Mill; and if the apples were merely crushed as on the Nut machine, it would require a pressure of two hundred tons to produce the result accomplished by this Patent Mill. The following are adduced as decided advantages of this machine:

*First*—It makes more Cider than any other press, with a given quantity of apples, in a given time, and with much less labor and expense.

*Second*—It makes clearer and sweeter Cider than any other machine.

*Third*—You can make your Cider as you want it, and when you want it—and in quantities from one gallon to six or twenty barrels.

*Fourth*—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow.

*Fifth*—With it you can save ONE FOURTH of your time in making Apple Butter.

*Sixth*—With it you can grind or chop your Apples, Potatoes, Turnips, Beets, Carrots, or Pumpkins for Cattle.

*Seventh*—By its use you can at all times have FRESH and SWEET Cider.

The price of the Cider Mill, with right to use the same on any one farm, is $35. Price of the Root Cutting Cylinder, $5.

The size of this Machine is about 3 by 4 fe and weight about 200 pounds. It may readily be taken to the cellar, door-yard, kitchen, barn-floor, or orchard, as may be most convenient.

For State, County or Township rights, or for Grants to make machines in certain territory for stated period, address (post paid)

Lightning Rods.

AFTER many years' close investigation and numerous experiments the Patentee takes pleasure in informing the public that he has succeeded in applying the principles of Electricity to the protection of the human habitation, and property from the destructive influence of LIGHTNING. The experience of nearly every building, whether public or private, in this section of country, annually, from the above cause, is a loss to individuals, to beyond calculation, especially when the remedy is so easy to obtain—this is certainly to

ARMITAGE'S
Patent Magnetic Lightning Rods,

and no other. This Rod has been examined by the most scientific gentlemen in the World—Professors M'Murtrie, Johnson, Mapes and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods to use in this or any other country for the protection of Lives and Property. One advantage is to divide and distribute a part of the electric fluid throughout the whole length of the rod, thereby rendering the rod and the conductor that portion of the fluid that enters the earth without the slightest danger or fear of the conductor. This rod has been in use for about a year at the old house. The only places it cannot be used are

Fire proof brick dwelling houses with Philadelphia.

It is all parties are respectfully invited to call and examine for themselves. Rods will be erected by

THOS ARMITAGE.

These rods have been purchased and successfully used by the following individuals, companies and corporations, whose names are cheerfully submitted:

*In and near Philadelphia*—A. & S. Roberts, George Sanderson, Justice Rawle, Judge Conrad, J. Maffitt, John R. Neal, C. Chaney, Chestnut St. Theatre, The Hockley Mansion, Alexander Brothers, Rev. J. C. Grant, John Swanwick, Wm. Lewis, Esq., Rev. Hooton, A. H. Sanders, Mr. Bonsall, Nicholas Biddle, J. Penrose, J. W. Wallace, Henry Pratt, Rev. Mr. Harrison, Dr. Barton, J. Bellangy, Mr. Bartram, Dr. Pancoast, Rev. Mr. Brown, Dr. Parrish, Rev. Mr. Bedell, Mr. Mercer, the Red Bank Academy, the U. S. Arsenal (Gunpowder), Frankford Arsenal, Mr. Ashmead, Mr. Wm. Jones, Rev. Mr. Wyatt, Mr. Wm. Jones, Mr. Wm. Bolton, John Neilson, Dr. H. M'Murtrie, Mr. Bing, Mr. Fenton, Mr. J. Downing.

☞ The only authorized Agent for the Counties of Union, Juniata, Mifflin, Clinton, Lycoming, Northumberland, Montour, Columbia, Luzerne, &c.
SAMUEL HOOVER

*RECOMMENDATIONS*
Pittsburg, Aug. 13, 1847.

I have this day carefully inspected a conductor of Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Glenwood and have no hesitation in saying that it is the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

H. M. MURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principles of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample communication of their merits and superiority. TEMPY E. WALKER, M. D.
Rising Sun, Philad Co., April 10, 1852.

PIANO AGENCY.

HAVING been appointed Agent for the sale of the celebrated Pianos, manufactured by
GEO. VOGHT, Philad.,
the undersigned would be happy to supply any citizens of the Susquehanna country who may desire an Instrument well made, after the latest improvements. Two of these Instruments have lately been introduced into Lewisburg, to which I am happy to refer any one. The Pianos are are warranted, and if not satisfactory on trial for a year, they may be exchanged. Prices reasonable FRANCIS J. GESSNER.
Lewisburg, Feb 24, 1852.

MOST KINDS OF
JOB PRINTING,
NEATLY & EXPEDITIOUSLY
EXECUTED
AT THE "CHRONICLE" OFFICE
Lewisburg.

COAL, PLASTER, SALT, FISH, IRON and NAILS, always on hand and for sale by D. S. KREMER & CO.

MEDICAL REFORM.

DR. H. B. HARRIS would announce to the citizens of Lewisburg and vicinity that he has removed into North Third street in the house formerly occupied by Capt. Paul, above the German Reformed Church. Thankful for the liberal patronage hitherto received, he continues to offer his professional services to all who may desire them.

He practices medicine in accordance with the most approved system of Medical Reform—gives no Calomel (or Mercury in any form—and hopes to prove himself worthy of the confidence of the community.

He keeps on hand, for sale, an extensive variety of Thomsonian and other Vegetable Medicines, for the use of such customers as may desire them.

He is also prepared to clean and extract Teeth. Lewisburg, April 7, 1852

*THE ONLY TRUE*
PORTRAIT OF WASHINGTON.

JUST published, T. B. WELCH'S magnificent Portrait of [illegible]—engraved (by permission) from STUART'S only original and portrait, in the Athenæum, Boston.

This superb picture, executed under the superintendence of THOMAS SULLY, Esq. (the eminent and highly gifted artist, to whom were all the sittings of Washington were granted), is the very counterpart of Washington in the full vigor of manhood. As Mr. Sully [illegible] Washington [illegible] Mount Vernon, [illegible] Washington [illegible] Mr. Sully [illegible] Washington [illegible] Mr. Sully [illegible] Washington [illegible] Mr. Sully
