The Farmer.

Society.

NEW BERLIN, Feb. 14, 1853.

The Society having been ealled to order, the Corresponding Secretary of the Society, was appointed to act as Recording Secretary, pro tem., in the absence of Mr.

On motion, John Moyer of Kelly, and George Dauberman of Middlecreek, were existing in their respective townships.

On motion of John Wilt, Esq., the second Thursday of October was fixed upon as the time for holding the First Annual Fair of the Society.

The Society then proceeded to select the place at which the Fair should be held, very plentiful. Take the entrails of hogs and New Berlin, having a majority of all or sheep, or a dead careass of any kind, the votes, was selected.

and place it at a proper distance behind the On motion, the Vice Presidents for each barn, or other out-building. Then take district were requested to appoint a com- a two inch augur and bore a hole through mittee to solicit members for the Society, some convenient spot, the proper height, within their district.

The Executive Committee was also re- Then take a good fowling-piece, well loadquired to report to the next meeting a list ed, and when the black gents assemble to of articles and products, for which premidine, point the muzzle of your gun through ums should be offered.

Adjourned to meet in New Berlin, on thickest part of the assembly, and let go, the first Tuesday of the May Court. RICHARD V. B. LINCOLN,

Rec. Sec., pro tem.

Food for Cross.

This is the "grand question" among the insides and throw in a handful of salt firmers at the present day. In new counto preserve them, and you can have crows tries, where the land has not been cultiva- to hang over the fields in the spring in ted much, little is thought about giving any quantity; and depend upon it, they the crop any food, in order to make it in- are perfectly horrified at the sight, and to food for ourselves, but after the fresh have no idea of entering premises where knife and a hatchet, both newly sharpened. soil has become exhausted by constant their black brethren are so uncivilly dealt eropping-after the "new" is off, or rath | with. er out, the farmer finds, that to make food for himself, he must give food to the plants he wishes to raise.

Well what must it be? To answer it with perfect accuracy, you should first know what the soil is made of, and then not the roofs of the buildings been accidenwhat the plant is made of-or, in other tally or Providentially made FIRE PROOF on words, both should be analysed, and the the morning of the late fire. The water months, any other person may sue for, ingredients ascertained, both as to their and frost acted the part of a fire preserver. quality and quantity. But this requires Had the roofs been dry as is usual, nothing a greater knowledge of practical chemistry could have saved us from a wide-spread than the majority of the people as yet possess, and also more expense than most be duly considered and headed by every citizen. farmers are able to meet.

What is the next best thing to be done? Fortunately the remains of organic bodies, (by which we mean those bedies both of animal and vegetable origin, that have had certain terms the erection of any except life and a set of organs forming their bod. fire-proof buildings. In our Boro', where ready in the market. ies,) possess most of the ingredients requi- most of the dwellings are of brick, this red for this purpose. Although some of would be no bardship except as regards Germany to print children's books on. I these ingredients which make up the mass the roofing of buildings. A law to pre- is dearer than paper, but the youngsters of organic manures may not be needed in veut shingle, or fire-inviting roofs, would this crop, they will not be lost, and will be just to holders of adjoining properties and in the long run prove profitable to the come in play for some future one.

We are aware that there is much said owner of the property itself. No man has about specific manures, and this article and any right, legal or moral, to erect any very thing, and the only thing needed. ger his neighbor's property. A roof of live miles from Cincinnati back of Covin-We do not undervalue them, and at the same time we would caution our readers not to overvalue them. Watch all experiments-use everything of the specific kind, such as plaster, super-phosphate of lime, sulphate of ammonia, guano, &c., &c., as you know will be beneficial, but at the same time don't give up your manure

As a general rule, the remains, or manare made from the remains of organic bodies the nearest related, that is the nearest in kind and quality to those which you wish to raise, will make the best manure for them. Return to the soil again as much of the same crop as you can, in order to make another one.

Nature gives you this advice. How is it that yonder forest has kept up for so saved to our fellow citizens. many years such a heavy crop of wood? How is it, that for as long as you can realready introduced a bill into the Legislamember, there has not only been a heavy ture for incorporating the Lewisburg Waburthen of wood on that soil, but it has ter Company. An additional supply of been constantly increasing in growth? It water would doubtless aid in suppressing works, Hariley t'p, was visited by a very is manured every fall, as sure as the fall fires, as well as be otherwise beneficial. comes, by a thick deposit of leaves, and But "PREVENTION is always better and inst. His stable, three cows and about 4 twigs, and small branches, which the frosts, cheaper than CURE." A law requiring tons of hay, were consumed. Less estiand the winds, and snow break off and roofs to be of an indestructible nature spread around their roots. These leaves from fire, would be worth many hogsheads and twigs are made up of material, in part of water in suppressing and confining fires. drawn from the soil, and in part drawn Think of it. from the air, and of the same kind as the rest of the wood, and so they decay and supply food for the standing, growing

\$500 CHALLENGE.

WHATEVER concerns the health and appiness of a people, is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and hat every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are able. If you have an experience

HOBENSACK'S WORM STRUP, HOBENSAGE'S WORM STRUP,
An article founded upon scientific principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect. Where Bowel Compraint and Diarrhora have made them weak and debilitated, the tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines in giving tone and strength to the stomach, which makes it an Infailible remedy for these afflicted with Dyspeptia. The astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM! This is the most difficult Worm to destroy of all that niest the human system. It grows to an aimest indefite length, becoming so colled and festened in the intesmes and stomach, effecting the health so asaly as to ause St. Vitus Dance, Fits, &c., that those afflicted seldom

lowed have never been known to fail ig curing the most obstimate case of Tope Horm.

HOBENSACK'S LIVER PILLS.

No part of the system is more liable to disease than the liver, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver effects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c. We chould, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of Rosts and Plants furnished by nature to heal the sick, namely, lat, An Expectorant, which augment the secretion from the pulmonary mucus membrane or promotes the discharge of secreted matter. 2nd. An Allerative, which changes in some inexplicable and insensible manner the certain morbid action of the system. 3d. A Tome which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th. A Cathartic, which acts in perfect harmony with the other ingreeients, and operating on the bowels, and expelling the whole mass of corrupt and vitiated matter, and parifying the blood, which destroys disease and restores health.

TO FEMALES.

TO FEMALES. TO FEMALEN.

Ton will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of investimable benefit, restoring their functional arrangements to a healthy action, purifying the blood and other fusition of effectually to put to flight all complaints which may arise from female irregularities, as headache, gliddiness, dinness of sight, pain in the side, back, Ac.

HOLLOWAY'S PILLS.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Protect Street, Liverpool, dated 6th June, 1851. To Professor Honoway, Sir.—Your Pills and Ointment To Professor Hanoway, Sir—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, theires me to let you know the particulars of her case. She had been troubled as years with a disordered liver, and had digestion. On the last occasion, however, the virulence of the attack was so alarming and the inflamation set in so asversely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try year Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and althe she used only three Reve, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack and the specify cure, speaks much I think in layer of your actionshing Pills.

RECOMMENDATIONS

I have this day carefully inspected a conductor or Lightning Red, with vane and index, erected by Mr. Thomas Armitage, on Believes House, Gioneceter, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of corners of business.

I am well satisfied that the Magnetic Lightning Red,

I am well satisfied that the magnetic manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnet-years in the study of the laws of electricity and magnet-ters.

years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rols are constructed upon the only principle of safety. The electric shock is received and disperred by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitoge for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority.

TRACY E. WALLER, M. D. Rising Sun. Philad. Co., April 10, 1852.
