MR. EDITOR: The Legislature has ad journed; the Members and Officers and also outsiders are bastening homewards; and Harrisburg is getting decidedly dull. ... But it is a beautiful Spring day; and if you are not too busy, we will take an hours' walk upon the Turnpike leading to Hummelstown, Lebanon, and Reading.

True to the ancient error, our road leads over hills which could be passed around with much more ease and within as short a distance. Science can certainly make better roads than tradition, as a comparison of this old route with any modern. toll-taking highway, will abundantly prove. Yet you will find hundreds of honest and independent farmers, toiling up and down these hills year after year, who will sturdily maintain that their fathers made much better roads than these "book-learned youngsters can do with their instruments and their paper calculations."
