MARCHISI'S UTERINE CATHOLICON.

WE now come to the most important mediv cine of the day, when the number of those afflicted is taken into consideration, and when it is remembered that until the introduction of this remedy it was the't impossible to remove the disease without mechanical means and by a painful course of treatment.

Marshall's Uterine Catholicon

Marshall's Uterine Catholicon

Is the discovery and invention of Dr. Therefore Pemercy, of Utica, an old and successful medical practitioner. Its peculiar effleacy was suggested by unexpected developments in a case of Prolapens Uteri while under treatment for another complaint. The suggestion in this instance led to a course of long and severe study, which resulted in the combination of the Catholicon. We have seen so much pain and patient endurance of suffering in those who labored under these diseases, which the convection that there was no cure, that we feel this medicine will, ere iong, be deemed an inestimable acquisition.

A physician of much eminence, after examining the medicine, and observing its effects, remarked that "a new era had sprung up in the iros of females, and that did they understand in thoseast degree the virtues of the remady, and the inability of the profession to treat their cases, they would not hong waste their more yin declor's bills, nor yet suffer from the terture of a curable disease. This medicine is a certain cure for Prolapens Uteri. (Palling of the Womb.) Profuse Discharges and Painful Met struction, Luchorrhoea, or Whites, and for most of the Gaterssing Complaints incident to Females.

A special Pamphliet gives full particulars of the mature and effects of this moderful melicine.

The acknowledged and extraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation through out the whole country so extensive, that it would seem unnecessary to urge their merits further. By, some late circumstances have occurred which resder it a matter of dary to the public not to be alongwher silent, for while the epheneral neatrons of the day are trumpeted by columns through the Free and awallowed by quarts and gallons by the affected, and are found just good for nothing.

Christle's Galvanic and Magnetic Curatives have been quietly working their way among the most intelligent and respectable cleases and are constantly achieving cures in a slurning train discuses, which have for ages buffled all the sid of medicine and all the resources of Science. These discusses are called

NERVOUS COMPLAINTS.

AFR OUS COMPLAINTS, and in these discuses medicine is of no avail what ever. It never does good and it often does have Syrupe, Extracts, Belins, Balsams, Elixira, Bitten, Pills, Fowders and Potions of every kind are alike worthless, for they weaken the vitil energies of the aircasty prostrated system, while under the trength ching, like-giving, vitalizing influence of Galvania, as applied by this heautiful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, classicity and vigor.

These remarks relate to such discover as NEURALGIA, THE DOLOREUX, BRONCHITE, PALFITATION of the HEART, WFAKNISS, and all FEMALE DISORDERS, such as NERVOUS HEAD ACHE, LASSITUEZ, and DESPONDENCY, which are only other names for Nervous Derangement, EPILEPTIC FITS and CONVULSIONS, which we now known to result from a non-equilibrium of Electric influence. In the above prevalent and terrible class of the

SYNTEM.

In the above prevalent and terrible class of dis-cases—Norvous Complaints are much more nume-ous than is generally imagined— CHRISTIE'S GALVANIC CURATIVES,

Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Threat as Asthma and Brouchids, and of the Bladchetter and Brouchids, and of the Bladchetter and disorders of the arms or limbs, as Bheumatism, Palsy, Tremor and Spannodic affections. These articles are simply apulied as directed with the MAGNETIC FULID which seems them, and when faithfully used they NEVER FALL:

NEVER FAIL:

The great peculiarity and excellence of the GALVANE CURATIVES consists in the first that GALVAND. CURATIVES consists in the first that they arrest and cure discuse by entrangle application, in place of the usual method of Brugging and Physiciang the patient till exhausted nature sinks hopelessly under the infliction. They are register the above against equality the circulation of the Blook, prompt the never loss, incipants the confice energies, and can never do the strickest horn under any circumstance. Since their introduction in the United States, only three years since more than

including all ages, classes and conditions, among whom were a large number of Ladies, who are peculiarly subject to Nervous Complaints, have been Entirely and Permanently Cured, when all hope of velicit had been given up, and every-thing elve been tried in vaint. Clergymen, lawyers, and even physiciant. "Throw Physic to the Dogs." To illustrate the use of the GALVANIC BELT, suppose the case of a person afficied with that bane of civilization, DYSFEFSIA or any other Chronic or Nervous Disorder. In ordinary cases, atimulants are taken, which, by their action on the nerves and muscles of the atomach, afford temperary relief, but which leave the patient in a lower state, and with injured farmlines, after the action thus excited has a need. Now compare this with the effect resultations of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst supplement of the farmlines of an attack, and simply tie the Belt round has Bedy, using the Magnetic Fluid as directed. In the president of the Belt, thereby causing a finite element of the Belt, thereby causing a finite of the control of the fine period the expense of the negative, and themes back again to the period throughout the system. Thus the most severe case of DASFEESIA are FERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

WHAT THINK YOU OF THIS!

From one of the most distinguised Physicians in the City of New York. "I have been using Christie's Galvanic articles in a quiet way among my patients for about two years past, and I confess I am astonished at their success. If I am sure a disease is Nervous, I know just what they will do. In Epileptic Pits, particularly in children; Deafness and Affections of the Head, in adult: Farairysis and Falsy, in all ages, and indeed several other diseases of like nature which have leng puzzled the profession. I have found the Galvanic articles of supprising benefit. Aithough I detest the chameless quackery of advertisements and newspapers, I must express my confidence and belief in the wonderful virtues of CHRISTIE'S CTA-TIVES. My name is, of course, confidence that all never hesitate to recommend your articles of all proper occasions."
