NEW MAP

OF THAT PORTION OF

NORTH AMERICA

EXHIBITING

The United States and Territories, the Canadas, New Brunswick, Nova Scotia, and Mexico, also Central America and the West India Islands.

Compiled from the most recent Surveys and authentic Sources.—Published by JACOB MONK, Baltimore, Md.

AFTER much labor and expense, the Publisher is enabled to furnish a complete and accurate Geographical Map, on a larger scale than any general map heretofore issued, embracing the whole country from the Atlantic to the Pacific Ocean, and extending from the 50th parallel of North Latitude to South America, or to within 7 degrees of the Equator. No labor or pains has been spared to make it one of the most accurate Reference Maps ever put forth, there being much entire new matter taken from actual surveys, and many names not found on any other work extant.

The Drawing and Engraving are executed with neatness and accuracy, showing distinctly the Railroads (made or projected,) Canals, Rivers and Lakes, with the Names, Boundaries, Position and Relative Size of all the States and Territories belonging to the Government of the United States, of North America, and of the Republic of Mexico, together with the Canadas, New Brunswick and Nova Scotia, also all the different States of Central America, New Grenada and the Isthmus of Panama; the lacation of all the Cities, Principal Towns, Villages, the Indian Tribes, the prominent stopping places on the great routes leading West to the Gold Regions, to Oregon, &c.; also a table showing the distances by land and water between the most important places on this Continent, and to other parts of the World, exhibiting clearly the Gold Regions of California, the Surveys and Explorations of Col. Fremont, Lieut. Wilkes, Emery, Abert and others.

It will be found a valuable acquisition to all Institutions of Learning, and very useful in the Library of any gentleman as a reference map, it being all on the same scale, with no detached portions. When mounted on rollers the size is—about 5 ft. high by 5 ft. 4 inches wide.

N. B.—A New Map of the World on Mercator's Projection, is engraved on the vacant South-west corner of the General Map, on a new plan, there being 15 degrees duplicated, exhibiting China in the West as well as in the East, with the Continent of America in the centre; showing, conclusively, the transportation of Goods from East to West and rice versa must, eventually, be by the Isthmus of Panama, Nicaragua Lake, or through the United States, it being many thousand miles nearer.

LUTHER ROOT, AGENT,

will soon canvass Union County for this Map.
