Powder.

No person not conversant with Portage railroad matters has any idea of the immense quantity of powder carried to the west in section boats. It very often occurs that as high as three or four thousand kegs a day cross the Mountain in boats. The bare thought of a thousand kegs of "villainous saltpetre" taking fire from a locomotive, or some other cause, is enough to make one's blood run cold !

A boat captain told us quite a joke on the powder subject a few days ago. He was loaded with 1000 kegs of powder, and nothing else. At Harrisburg a little withered up Frenchman made application to him for passage for himself and family to Pittsburg. After the terms were arranged, the Frenchman got his family on board, and the boat started on her journey. A short distance had been overcome when Mensieur poked his head out of his batch and shouted,

" Hello, Monsieur le Capitane, vat you got in dese leetle barrel, de what you call de cag ?"

"Why, powder," said the Captain.

"Poudre!" echoed the astonished Frenchman, "poudre! stop de boat! stop de boat! By gar! do you want to blow me and mon ami and se enfongs to ze diable? Stop ze boat ! by gar, I travel on se boat nevaire viz two, five, seven hundred leetle barrel poudre on him. I take ze road rail to Peetsburgh, and if he blow up by gar he don't blow you to hundred leetle piece !"

The Captain lay to, and left Monsieur, his wife and "enfonge" sitting on their boxes on the tow-path.-Hollidaysburg

A nobleman told in a dream. "Pardon me," replied the other, "I really did not hear you." Bir Robert Graham, being apprized that he had by mistake, pronounced sentence of transportation on a criminal who had been found guilty of a capital off ence, desired the man to be again placed in the dock, and hastily putting on the black cap, he said, " Prisoner at the har, I beg your per don," and then passed on him the awfu! sentence of death.

PRIMADA, Aug. 13, 1867.

I have this day carefully inspected a conductor or Lightning Red, with vane and index, erected by Mr. Thomas Armitage, on Believue House, Gloucester, and have no hasitation in saying that it is not only the best I have sver seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend his conductor to the attention of owners of buildings.

conductor to the attention of owners of buildings.

I am well satisfied that the Magnetic Lightning Red, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnet ism, and have no healtation in earlying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the god, and it would be impossible, according to the laws of attraction unin repursion, are a building to the laws of attraction unin repursion, are a building to the laws of attraction and requisited with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. MARCHISI'S UTERINE CATHOLICON.

WE now come to the most important medi-cine of the day, when the number of those efficted is taken into consideration, and when it is remembered that until the introduction of this remedy it was tho't impossible to remove the disease without mechanical means and by a painful course of treatment. [Marchisi's Uterine Catholicon

Is the discovery and invention of Dr. Theodore Pemeroy, of Utlea, an old and successful medical practitioner. Its peculiar effects was suggested by unexpected developments in a case of Prolaptus Uter! while under treatment for another complaint. The suggestion in this instance led to a course of long and severe study, which resulted in the combination of the Catholicon. We have seen so much pain and patient endurance of suffering in those who labored under these diseases, with the conviction that there was no cure, that we feel this medicine will, are long, be deemed an inestimable acquisition.

A physician of much coninence, after examining the medicine, and observing its effects, remarked that "a new era had sprung up in the lives of females, and that did they understand in the least degree the virtues of the remady, and the inathlity of the profession to treat their cases, they would not long waste their money in doctor's bills, nor yet suffer from the terture of a curable disease."

This medicine is a certain cure for Prolapsus Uteri, ("Alling of the Womb.) Profuse Discharges and Painful Menstrustion, Luchorrheas, or Whites, and for most of the distressing Complaints incident to Females.

Christie's Galvanie and Hagnetic Caratives. have been quietly working their way among the most intelligent and respectable classes, and are constantly schieving curse in an alarming train of diseases, which have for ages bassed all the aid of medicine and all the resources of Science. These diseases are called

NERVOUS COMPLAINTS.

NERVOUS COMPLAINTS, and in these diseases medicine is of no avail what ever. It never does good and it often does have. Syrupe, Extracts, Baims, Baisans, Elizirs, Butter, Pilis, Fowders and Pottons of every kind are alike worthless, for they weaken the vital cangus of the already prostrated system, while under the strengthening, life giving, vitalizing influence of Galvanas, as applied by this beautiful discovery, the catheated patient and weakened sufferer is restored to forms health, attength, elasticity and vigor.

These remarks relate to such diseases as NEU. RALGEA. TIC DOLOREUX, BRONGHITS, PALPITATION of the HEART, WEAKNESS, and AFEMALE DISORDERS, such as NERVOUS HEAD. ACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Brangement, EPILEPTIC FITS and CONVULSIONS, which are now known to result from a non-epilithrum of Electric influences, NERVOUS TREMORS, LEAF. MESS, which is nearly always caused by implify of the Auditory Nerves, and can always be perfectly cared by Galvansan, when the organ is not destroyed, DYSPEPSIA, in its worst forms, PALSY and PARALYSIS, uniformly caused by a deficiency of Nerves influence, CHRONIC RHEUMATISM, TORPIDITY of the LIVER, PAN in the SIDE, SLUGGISH CR. CULATION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NeWOWS and PHYSICAL EX. ERGY, and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SYSTEM.

In the above prevalent and terrible class of disease—Nervous Complaints are much more names SYSTEM.

In the above provident and terrible class of the cases—Nervous Complaints are much more numerous than is generally imagined—

CHRISTIE'S GALVANIC CURATIVES, Are an Absolute and Positive Specific.

Are an Absolute and Positive Specifica-The BELT is used when the body or system gas-rally is affected, the NECKLACE for complaints of the Throat, as Asthma and Bronchtis, and of the Head, and the BRACELETS for all disorders of the arms or limbs, as Itheometican, Paisr, Tremor and Spasmodic affections. These serticles are simply sp-plied as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL!

NEVER FAIL!

37 The great peculiarity and ascellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by entered applicable, in place of the usual method of Drugging as Physicking the patient till exhausted nature similar hopelessly under the infliction. They attended the whole system equalists the circulation of the Bleek, remote the secretions, insugarate the entire energies, of can more to the nightest hum under ony circumstance.

Since their introduction in the United States, only three years since, more than

75,000 PERSONS including all ages, classes and conditions, among whom were a large number of Ladies, who are pec-liarly subject to Nervous Complaints, have beca

Entirely and Permanently Cured, Entirely and Permanently Cured, when all hope of relief had been given up, and everything else been tried in vain! The beneficial results which have uniformly attended their use is considently stated to be without a parallel in the annals of Medical Science. Clergymen, lawyers and even physicians; balies of the highest standing; distinguished persons holding elevated official stations; merchants, manufacturers, and mechanics; the poer and the rich nilke; often whole families, among all classes, ranks and conditions, have equally been recipients, and have equally acknowledged the wordrous and often unexpected benefits which they have thus received.

37 Let it be known and remembered that the only Natural Restorative for the Nerves is Galvanian, and that in all Nervous Diseases we should

"Throw Physic to the Dogs."

To illustrate the use of the GALVASIC BELT, suppose the case of a person afflicted with that base of civilization, DYSPEPSIA, or any other chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temperary relief, but which leave the patient in a lower state and with highered ficulties, after the action thus excited his Lasted. Now compare this with the effect resulting from the application with the official resulting of the patient of the Gallvanic Exit. Take a Dyspeptic sufferer, even in the worst sympoms of an attack, and simply in the Belt round the Eedy, using the Magnetic Fluid as directed in a thurt period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive hospital control of the system. Thus the most severe case of DYSPERSIA are FERMANENTLY CURED. A FEW DAYS IS AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

To D. C. MORRIELAD, M. D., Gen. Agt. for Dr.

CHRASTER, New York.

Dear Str.—Being a physician in the vicinity of one of your Agents. I have been much gratified in the examination of your Galvanic Curatives, and highly pleased with their practical results. I have observed that they are constructed on the true sensition principle for the gentle, eqf., pleasant and certinused development of the Galvanic Current, thereby filling a disideratum, long sought for, but herefolders unknown. I cheerfully recommend them for the alleviation and cure of those distressing aliments called Newwork Canselastra, for which they are so happily and ingenionally designed.

Very truly yours, DAVID RICE, M. D.

The acknowledged and entraordinary curative powers of these wonderful inventions is now so generally known and their sales and reputation through out the whole country so extensive, that it would seem unnecessary to urgo their merits further. But some late circumstances have occurred which reader it a matter of duty to the public not to be altogether silent, for while the epheneral nostrums of the day are trumpeted by columns through the Press and swallowed by quarts and gallons by the affiliesed, and are found just good for mattering.
