#### Sad Results from Reading.

The "Aurora (Ind.) Standard" tells : story of a slave in Boone Co., Ky., who had learned to read, and who had succeed ed in obtaining possession of a copy of "Uncle Tom's Cabin," which he read by stealth to his fellow slaves. The glowing pictures given of the sympathy and aid received by Ocorge and Eliza, in their escape from Kentucky to Canada, so operated on their imaginations, that 25 of them ran off on the evening of the 2d of April, and, so far as we have heard have not been recaptured. ### Lightning Rods.

A FTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influ-ence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain-this is found in ARMITAGE'S

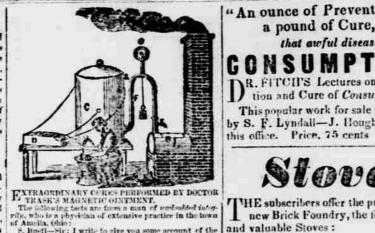

Datent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Wallor and many Professors M Muririe, Johnson, waitor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the carth without the slightest danger of lea-ving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in *Vine St. 3 doors abore 12th, Philadelphia,* where all persons are respectfully invited to call and examine for themselves. conductor to the attention of owners of baildings. I. MCHETRIE. I am well satisfied that the Magnetic Lightning Eod, manufactured by Mr. Thomas Armitage, of Fulladelphin, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnet-ism, and have no hesitation in saying that these Fold are constructed upon the only principle of safaty. The electric shock is received and dispersed by the magnet at the lop of the rod, and it would be impossible, according to the have of attraction and republich, figs a building to be injured by a stroke of lightning what protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufac-ture of these rods I examined the principle on which they are constructed, and fit convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extension call parts of the settended with complete success. The increasing demand for these rods and the extension calls and parts of the contry, is ample commendation of their utility and

of these runaways is, that property of a minister of the Go-pel of Christ ! But perhaps the most ag ravated of these cases of crime is that of Wash. Parker, over whom "The Independent Banner" thus lugubriously discourses :

"One of the negroes, by the name of Wash., belonging to Harvey Parker, was quite a favorite with his master and all who knew him, and had every privilege of a white man. He rode the best horse and saddle there was on the farm, with perfect impunity, and had several acres of land at his disposal for cultivation ; and on Sabbaths was one of the best dressed and souciest looking fellows at church. But, poor devil ! prosperity and good fortune were too much for him, and he ran away to be miserable."

Altogether the facts in this case go to show, in a most affecting manner, the pernicious tendency of novel reading upon slaves -Tribune

Its effects upon masters is sometimes shown to be equally alarming, by such cases as that of Mr. Bacon of St. Louis, who was induced by reading it to execute a bill of emancipation for his slave woman. That the "Union" and the "compromises" are in imminent peril while that book is abroad, can not be hidden from sight. Who is the patriot to step forward with a resedition law ?- Penn. Freeman.
