FRIDAY MORNING, JUNE 10, 1853.

A DVERTIZE! — Executors, Administrators, Public Officers, City and Country Merchants, Manufacturers, Machanics, Business Men—all who wish to precure or to dispose of anything—would do well to give notice of the same through the "Lowidoney Coronicle." This paper has a good and increasing circulation in a community containing as large a proportion of active, solvent producers, consumers, and dealers, as any other in the State.

This Map gives Lewisburg a name and place, and Milron is now "near Lewisburg." It also gives the new Territory of Washington, as defined by the late Congress; the proposed new Territory of Nebraska; and the new "disputed boundary" of Mesilla Valley.

A Rail-Road item on first page. Rev. Joux Gerra will preach on Sunday morning next at the Town Hall.

-Such is the name, ownership, date, motto, and request, of a paper we received yesterday. "X" of course, but who our "old friend" Sumner is we can't just now jog our memory sufficient to recall.

THE CROPS. - The Wheat crop seems to be in fine condition the country over, except where it has been injured by the fly, which is a complaint common in many of o'clock, A. M., of Wednesday, June 22, 1853, the best wheat-growing districts in Pennsylvania. Other crops and fruit are looking equally well.

THE LOCK-UP-authorized by the Legi-lature-may be needed in Lewisburg before the summer closes, if we may judge from the increasing latitude allowed by parents, guardians, and masters to boys. Men should be at home evenings, with their families-the boys not excepted-if they would preserve them from the bad habits which the "street" always taught, and long time will teach.

HESS' CAVE in Dry Valley, which we described last week, has attracted hundreds of visiters sfrom all quarters, ladies as well as gentlemen, and this will doubtless be the case throughout the summer. The entrance is not yet fully cleared away, but will be in a few days. Another chamber has since been found. An admission fee of 124 cents is now charged, and the taking away of specimens prohibited. ant scholar, the Rev. Geo. B. Cheever, D.D., is given as a specimen of the whole:

"This exoclient and beautiful work," says Br. Cheever, "possesses many and very strong claims for popular favor, and we do not doubt that it is destined to have an extraordinary sale. It is one of the most elegantly embellished and escauled works we have ever seen issued from the American press; containing a large number of highly finished engravings, illustrative of the crementies, superstitions, persecutions, and incidents of Romanism, which often tell a most cloquent tale, and are of real utility as well as highly ornamental. The work itself is characterized by great research, and a comprehensive and scriptural view of the nature and history of the Popish system. It presents a succinct but sufficiently full history of the rise, progress, errors, crutties, and present condition of the paper, authenticated by reference to the most uncloubted historic sources, related in a spirited, engaging and impressive ctyle, and arranged in the most fueld manuer. It abounds in facts and incidents, and, with its beautiful litestrations, is better adapted to turnish a vivid and impressive otyle, and arranged in the most fueld manuer. It alternations, is better adapted to turnish a vivid and impressive portraiture of Romanism as it is, than any other book we know of. It supplies a great lack in our theological literature; and now that a conflict with Rome is forced upon us, and is soon to become the business of us all, clergy and laity, a work so richly stored with facts and anyuments will be most timely and useful. We should be glad to see it in every family, and adorning every centrelistic in the land."
