the Mississippi, not long since, several way passengers came on board at Vicksburg, and among others a giant looking middle aged Kentuckian, who very soon became eral remark. After traveling a short distance the party, except "our hero," made their way to the "Captain's Office" and | Saw Mill. paid their fare to the place of destination. The next day, the clerk made bold to call on the delinquent passenger, who had taken no berth, but had passed the greater part of his time in sleeping in his chair, and, with his usual orbanity of manner, asked the Kentuckian to give him his place of destination, as it would aid him in making up his book, intending his question also as a gentle hint to pay his fare.

The giant roused from his lethargy and "I'm going up the river a-piece-It's

all right, Mr. Clerk." The clerk not being much the wiser from this answer, again politely asked,

"At what point do you expect toland?" "Don't land at no point, Mr. Clerk. It's all right, though."

Here the clerk left our old hero and went to consult the Captain, who at once lost his wonted good humor, as the clerk related the result of his interview with the delinquent enstomer. The captain proceeded forthwith to bring the matter to a focus, and accosted the Kentuckian,

"How far are you going to bear us company up the river, Uncle?"

"Oh! I'm going a-piece up with yebut it's a-l-l right, Captain !"

"But sir," said the Captain, "you have neither paid your fare nor given the clerk your place of destination, and you are old enough to know that the customs of steam-"W-a-1-1, Captain, 'spese 'tis your cus- or for a residence and place of business.

tom, but it's all right!" Here the Captain lost his patience and him to make ready to go ashore, to which he very graciously replied, "It's all right, Captain.

The boat landed, and the plank put out, the giant was told to walk, to which he readily assented, saying,

" It's all right." After getting on terra firms, the Captain gave him a short blessing for giving him the trouble to land, and threatened him a top dressing if he ever saw him again &c. To which the old man responded again, with an air of triumph, pointing to a fine looking cottage just above him on the bank.

"It's all right, Captain, that's my house, Captain. It's all right."- Econsville Journal.

### Moral Suasion.

When a friend of ours, whom we shall call Agricola, was a boy, be lived on a farm in Berkshire county the owner of which was much troubled by his dog Wolf. The car killed his sheep, knowing, perhaps, that he was conscientiously opposed to capital punishment, and he could devise no means to prevent it. 'I can break him of it,' said Agricola, 'if you will give me leave.' 'Thou art permitted,' said the honest farmer—and now we will let Agricola tell the story in his own words, pregood marksman.

'There was a ram on the farm,' says Agricola, 'as notorious for butting as Woll was for sheep-stealing, and who stood in as much need of moral sussion as the dog. I shut Wolf up in the barn with this old follow, and the consequence was, that the dog never looked a sheep in the face again. The rain broke every bone in his body, literally. Wonderfully uplifted was the ram by this exploit; his insolence grew intolerable; he was sure to pitch into whomsoever went nigh him. 'I'll fix him,' said I, and so I did. I rigged an iron crowbar out of a hole in the barn, point foremost, and hung an old hat on the end of it. You can't always tell, when you see a hat, whether there is a head in it or not; how then should a ram?" Arics made at it full butt, and being a good marksman, from long practice, the bar broke in between his horns, and came out under his tail. This little admonition effectually cured him of butting."

of the Monochic thatment, isod his bate cultivity restored, and now hasps beautiful a head of hair as any maneousli with. His age is about 50 years.

Case 4th. A sour of Mr. Warren of this town, II years of age, had been affined with the Astrona from his cradic. He had the benefit of the best medical advice that a lotting and wealthy father could procure, without arail. It was one of the most ogravated cases I ever saw; he was emisclated almost to a skeleton. By the use of a few bottles of the Ontoment he was thoroughly carred, and for months past has enjoyed robust heath.

Case 5th, This was an extreme case of inflamation of the sphere, of long standing; had a variety of treatment from no less than eight different physicians, without receiving benefit—was cursed by the use of only four bottles of the Magnetic Ontoment. This was four months age, and the lady in Mrs. Dunham, lisstill in good health, and able to aftend to her usual homehold duties. I have treated two cases of Curasas Some Evrs with the Ontoment, both of the patients so nearly letind, as to need an attendant to best them from place to place. One of them had been affected 18 years, the other about 9 years. They had triad the best physicians in the State without benefit; and one of them had been under the treatment of the ecclebrated Boot. Manay, of Christonati, for eighteen months and had expended hundreds of dollars in vain efforts to effect a cury. They are now by use of the Magnetic Ontoment in a number of cases of Physics in vain efforts to effect a cury. They are now by use of the Magnetic Ontoment in a number of cases of Physics and in some error care as of Eurostents. And last but not least. I have within the last year cured four cares of Cantekly by the case of the Magnetic timuted for lease of Cantekly by the case of the Magnetic timuted alone i!

Brown's Essence of Jamaica Ginger, S a remedy suited to the extremes of heat and cold, and is very beneficial whenever gentle tonic and stimulating influences are required. Its stimulant property being independent of alcoholic power, its effect as a frequent remedy need never be dreaded. While it strengthens and refreshes the debilitated in summer season, it is not less potent during the inclemency of the winter; by warming with its healthy tonic principle enabling the system to resist the influence of incipient diseases which lurk in a changing climate. No family should be without it, and to travelers by

## MARCHISI'S

UTERINE CATHOLICON. WE now come to the most important medicine of the day, when the number of those afflicted is taken into consideration, and when it is remembered that until the introduction of this remedy it was the't impossible to remove the disease without mechanical means and by a painful course of treatment.

[Marchisi's Uterine Catholicon

Is the discovery and invention of Dr. Theodore Pemercy, of Utica, an old and success fai medical practitioner. Its peculiar efficacy was suggested by unexpected developments in a case of Prolapsus Uteri while under treatment for another complaint. The suggestion in this instance led to a course of long and severe study, which resulted in the combination of the Catholicon. We have seen so much pain and patient endurance of suffering in those who labored under these diseases, with the conviction that there was no cure, that we feel this medicine will, ere how, by degreed an inestimable acquisition.

there was no cure. that we feel this medicine will, ere long, be deemed an inestimable acquisition.

A physician of much eminence, after examining the medicine, and observing its effects, remarked that "a new era had sprung up in the lives of females, and that did they understand in the least degree the virtues of the remety, and the inability of the profession to treat their exces, they would not long worste their money in dector's bills, nor yet suffer from the torture of a curable disease."

This medicine is a certain cure for Prologous Ucri. (Falling of the Womb.) Profuse Discharges and Painful Merstruation, Luchorrhen, or Whites, and for most of the distressing Complaints incident to Females.

A special Pamphete discs full particulars of the nature and effects of this wonderful medicine.

The neknowledged and extraordinary cursive powers of these wonderful inventions is now to generally known and their sales and reputation through out the whole country so extensive, that it would seem unnecessary to urge their merits further. But some late circomstances have occurred which renies it a matter of day to the public not to be altogether silent, for while the ephemeral nostrums of the day are trumpeted by columns through the Press and awallowed by quarts and galloms by the afficient, and are found just good for nothing.

Christie's Galvanic and Magnetic Curatives. have been quietly working their my among the most intelligent and respectable classes, and are constantly achieving cures in an alarming train of diseases, which have for ages baffled all the aid of medicine and all the resources of Science. These diseases are called

### NERVOUS COMPLAINTS,

NERVOUS COMPLAINTS, and in these diseases need time is of no avail what ever. It never does good and it often does hans. Syrupe, Extracts, Balms, Balsams, Elixirs, Bitters, Fillis, Fowders and Potions of every kind are alike worthless, for they weaken the vital energies of the already prestrated system, while under the strengthening, integriving, vinilizing influence of Galvanian, as applied by this beautiful discovery, the exhausted patient and weakened sufferer is restored to formas health, strength, elasticity and vigor.

These remarks relate to such diseases as NEURALGIA, TIC DOLOREUX, BRONCHITIS, FAUPITATION of the HEART, WEAKNESS and AS FEMALE DISORDERIS, such as NERVOUS HEADACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Derragoment; ACHE, LASSITUDE and DESPONDENCY, which are only other names for Nervous Deringment; EFILEFTIC FITS and CONVULSIONS, which are now known to result from a non-equilibrium of Electric influence; NERVOUS TREMORS, LEAV-AESS, which is nearly always caused by torpolity of the Auditory Nerves, and can always be perfectly of the Auditory Nerves, and can always be perfectly enough by Galvanian, when the organ is not destroyed, DYSPEPSIA, in its worst forms; PALSY and FARALYSIS, uniformly caused by a deficiency of Nerves influence, CHRONIC RHELIMATISM, TORTIDITY of the LIVER, PAIN in the SIDE, SLUGGISH CIRCULYTION, SPINAL and HIP COMPLAINTS, DEFICIENCY of NERVOUS and FRUSICAL ENERGY and all those distressing complaints resulting from a DERANGEMENT of the NERVOUS SUSTEM.

Are an Absolute and Positive Specific. Are an Absolute and Positive Specific.

The BELT is used when the body or system generally is affected; the NECKLACE for complaints of the Throat, as Asthma and Bromchaits, and of the Head; and the BRACELETS for all disorders of the Arms or limbs, as Rhemmatism, Palsy, Tremors and Spasmolic affections. These articles are simply spoiled as directed with the MAGNETIC FLUID which accompanies them, and when faithfully used they NEVER FAIL:

NEVER FAIL:

### The great peculiarity and excellence of the GALVANIC CURATIVES consists in the fact that they arrest and cure disease by mineral applicates, in place of the usual method of Drugging and Physicking the patient till exhausted nature sinks hopelessly under the inflation. They strengthen to whole system, equalize the circulation of the Blood, permeter the accretions, manipulate the entire energies, and can never do the slightest have under any circumstance. Since their introduction in the United States, only three years since, more than

WHAT THINK YOU OF THIS! From one of the most distinguised Physicians in the City of New York.

"I have been using Christies Galvanic articles in a quiet way among my patients for about two years past, and I confess I am astonished at their success. If I am sure a discusse is Nermens, I know just what they will do. In Epilloptic Fits, particularly in children; beatness and falsy, in all ages, and indeed several other discusses of like nature which have long pureled the protession. I have found the Galvanic articles of surprising benefit. Although I detest the dameless quackery of advertisements and new-papers, I must express my confidence and belief in the wenderful virtues of CHRISTIES CURA. TIVES. My name is, of course, confidential, but I shall never hesitate to recommend your articles on all proper occasions."
