CHRONICIE TEWISBURG

H. C. HICKOK, EDITOR.

O. N. WORDEN, PRINTER.

LEVISBURG GURDNIELE

August 26, 1853.

First Court in Snyder County!

Our readers will remember that the New Berlin Anti-Divisionists, with the idea of drowning the Division question for the present, are attempting to revive the Repudiation mania of last fall, by re-exciting the people on that exploded issue, hoping thereby to stave off discussion upon the other and the true issue. Under the dust they hoped to raise on that decided question, they seek to kill off the Divisionists and to succeed-by electing one of their number, County Commissioner-in fastenwas to arrest-on the oath of George Heimbach "and his son John"-some of on a charge of BRIBING that pure and spotless personage to complete his contract with the Susq. R.R. Company. ISRAEL GUTE-LIUS-against whom they supposed public prejudice might be easiest inflamed-was the first one arrested. He was bound over, and the result we give in the following editorial from his paper of this week, (which is confirmed to us by the reports the friends of the Lewisburg, Center d of several who were present:)

The Bribery Case.

We informed the public a couple of torious George Heimbach, we had been Jacob Keplar, Geo. Durst, John Shook, arrested for, as he alleged, an attempt to Geo. Gross, John Sankey, Jn Hosterman, bribe him, to sign the Railroad Bonds.

Josiah Neff, B. F. Patton, J. S. Isett. We then gave bail, until we could get our case prepared for an examination, Burchfield, G.W. Johnston, Esq. when we sued out a Habeas Corpus, and the same came for trial before the Hon. James Marshall, one of the Judges of our Court, on Friday last, at Selinsgrove. The case elicited a great deal of interest on the importance of immediate action; and part of the community, and brought to- offered the following resolutions, which gether a large concourae of citizens.

Messrs. Woods, Swineford, Merrill and Van Gezer, colunteered as counsel against us. We were represented by Messrs. Pol-

lock, Miller, and Casey. their power to prevent a hearing of the ling to the requirements of the law. case, and to take every little technical objection, because they did not want the facts out before the community. But the Judge decided promptly that they must come to a hearing. They then attempted to make out their case by George ing, that the road, when completed, will Heimbach and his son John. George prove a safe and highly profitable investswore that we had offered him \$1250 to sign an extension of the agreement, or, that we said Miller, Slifer, and Casey would pay him that sum for doing so. And that at another time we told fertile vallies, furnish indubitable evidence him "they" would pay him \$800 to sign that there will be a very large local trade, him that they had offered the old man

We then proved by four of the most respectable witnesses in Union county, that George Heimbach had, before we spoke to him on that subject, voluntarily agreed to sign the extension of the agreement, and had fixed the time for Mr. Wilt and Mr. Miller to meet him at the Commissioners' Office for that purpose. We also proved by his own testimony, and that of his son John, that we had advised him to employ the Hon. James Pollock, and to follow his advice, whatever it would be, in the

We also proved by his own confessions and declarations that he had offered to sign for a certain amount, and wished his offer communicated to the Directors of the Road. We also proved that he had, over and over again, solemnly declared to the most respectable gentlemen in Union county, that we never offered him one

own son, or that his son went to the Directors of the Company, and told them that his Father had sent him, to offer to sign the Bonds for \$800, and that they spurned his offer indignantly. We also proved that he himself directly offered to one of the Directors of the Company to sign the Bonds for \$1000, which was

again refused. His testimony, and also that of his son John's, was flatly and directly contradicted in important points by men whose veracity can not be doubted. We then proved that this prosecution was got up, and the warrant issued without any prosecutor, and without having been ordered by any person, and that it was the result of a consultation by Mr. Justice Swineford, with We showed clearly that it was a combina- ties.
