CHRONICL LEWISBURG VOLUME X --- NO. 24.

H. C. HICKOK, EDITOR.

O. N. WORDEN, PRINTER,

LEWISBURG, UNION COUNTY, PENN., FRIDAY, SEPTEMBER 30, 1853.

LEWISBURG CHRONICLE watercourses, rights, privileges, advanta-ges, Hereditaments, and appartenances to Louisborough, (or Louisburg as above.) as their Chairman for their permanent AN INDEPENDENT FAMILY JOURNAL.

TERMS -11,00 per year, for cash actually in advance

Square, north side, 2d story, left band door, O. N. WORDEN, Proprietor.

AUTUMN. BI LOSGFALLOW

Oh, with what glory comes and goes the year! The bads of spring-these beautiful hardingers Of sumy skies and challess that so may y Lifes newnone, and cardles garaiture spe And when the silver hubit of the clouds Comes down upon the Automn son, and with Comes a we upon the Arianni an, and a A solar gradness the old year takes up this bricht inner these of golden fruits. A pump and page as this the spin ded scene Third is a beautilet spirit heathing new Its mellow reduces on the curvered trees, And, from a braket fail of richest dyer, Pouring new glory on the anomic words, And dippling to warm light the pillared clouds Mora on the moustain, the a summer bird, Lefts up for purple wing; and in the value The pendle will be seen and parelenate when Kores the blushing leaf, and store up life Within the olemn woo is of ash dee, crimoned, And silver beech, and mayle ye low leaved, Where Autumn, like a funt oid man, sils down By the wayside a weary. Through the trees The gold su robin moves: the purple firsh, That on wild and chorryed c dar feels-A winter bird-comes with its plaintive whiche, And pocks by the worth hars; whilst alout, From cottage roof, the warhing blacked stage ; And merrily, with off reported stocks, Sounds from the threshing floor the busy flat. On, what a goog doch this world put on For him with, with a fercent heart, goes forth Under the beight and governments, and tooks Qu daties well performed and date well spent For him the wind, aye, and the yellow leaves, Shall have a vote, and give eloppent teachings; He shall so hear the source by an that Beath Has lifted up for a.1, that he shall go To his long resting-plate without a tear.

Local History.

MISCHIEF MARING. Oh! could there in this world be found Some little apot upon the ground, Without the vilage tatting? How doubly bler that spot would be Where all might dwell in liberty, Free from the bitter misry Of Gossip's endless pratiling.

If such a spot were really known, Dame Peace might call it as hor own, And in it she might fix her throne For ever and for ever; There like a queen might reign and live, While every one would some forgive The little sights they may receive, And be offended never.

The weight functions that remove Far from our hearts that warmth of love, And lead us at its disapprove What i we insufted releasure: They seem by takes one's part; but when They've hand our every unsindly then They wen retail them again, Mixed up with prisonous measure.

And then they've such a counting way

And then they we such a cuturing way of teiling in incast takes - they say, "Don't mention it, I proy. I would not telt monther;" Straight to your neighbors then they go, Narrating everything they know, And treaking the passes of high and low, Wife, hasband, friend, and brocker. Oh! that the mischief making crew (in) that the memory making trees, where all reduced to one or two, That every one wright know thread Then would our villaers forget To rage and quarrel, fame and fret, And for moto an angry pet With things so much below them.

For 'tis a saf. degrading part,

To make asother's boom smart, And punt a dag, r in the least We might to love and chetish Then is the example is found. It quietness with all spontd. White framiship, y and prace abound, And survy forings period.

Artesian Wells.

One of the most remarkable Artesian deep prevented. Artificial cress plots have the Tribune, with the above title, (Hot wells of our own time is that of Grenelle, also been formed and supplied by means the Tribune, with the noove title, (also in the Paris basin. It was undertaken in of these wells with pure water of a steady ing tears from the eyes, but money from 1834, up to which time no successful arte- temperature.
