LEWISBURG CHRONICLE

SEPTEMBER 30, 1853.

☞ We are "AT HOME" again, at the former location of the *Chronicle* establishment, on Market street, and hope after a week to be entirely "fixed up" to receive company.

☞ It is really entertaining to learn—as we do from a score or two of partizan presses—what superior excellence is combined in the Tickets of the Whig and Democratic parties in the State, this year above all others. Never before were each party so lucky—never were the candidates so pre-eminent in virtue, talents and peculiar fitness; and never was there such harmony and joy in "*our*" ranks, or so much discord and dissatisfaction in the ranks of "*t'other*" party. Moreover, the people are all aroused, and panting for the contest!!!

The Division Question

Is soon to be decided, not by voting for any particular candidate, but by a direct vote on the naked question itself.

The Farmers of this county will decide. The New Berlin people attempt to make them believe that *Lewisburg* is at the foundation of the Division movement and thereby to excite any unmanly, low, and false prejudice, which they can possibly do. As far as we know and believe, this charge is not true. There are other localities more interested, and more active, than this. Lewisburg will vote for Division, but does not feel the interest in it which some would represent. The $10,000 which she would have to pay in case the County Seat were located here, is a large sum, and would equal the advantages for many years to come.

Lewisburg has *other* means for enlargement and improvement, and a Court House would be but *one* out of *many* advantages. And she has means for getting to New Berlin, as well as other Towns have. We would prefer Mifflinburg, or Winfield, or the Cross Roads, or New Columbia, to New Berlin; but we can get *there* just as well as any of our fellow citizens.

No—those most interested, are the Farmers of the county. Unless a Division is made, and the Towns build by donations, nothing is surer than that you will have at last to pay for County Buildings, by Direct Taxation. And let New Berlin have the power to say what the buildings shall be, and you may rely upon it they will be of such a character that you will cry for "Division" when it will be TOO LATE.

"Know ye not, who would be free
Themselves must strike the blow?"

THE FISHERY DIFFICULTIES.—A correspondent of the New York *Times* writing from Portsmouth, N. H., says:

"The reports from the commanders of the Fulton, Cyane, Decatur, and Princeton, all concur we learn, in this—that they have been unable to discover any troubles or dissensions among the fishermen; that the British cruisers have been lenient—not violent—in enforcing the treaty of 1818; that many American fishermen have been permitted to obtain their "fares" from inside the "three miles;" and that the much talked of "headlands" has rested where it was first conceived—in the heads of the vaporous provincial politicians.

Melbourne, in Australia, is a fine laid out city. All it lacks is the Yankee enterprise. Its banks are well loaded with gold, and all the business and working men have plenty of the same. But there is a tremendous want of building materials, produce, and goods of all kinds. There are not half enough stores and houses for the convenience of the people. The population of Melbourne is over 100,000; and some days over 3,000 emigrants arrive, and no place in which to live. Thousands of people live in canvass tents outside of the town.

The Russian Government is preparing for another campaign against the Caucasians. Like the boy who could not go to bed without his usual whipping, Russia would not know how to get along without an occasional thrashing from the Caucasians.

A little girl named Tillis, 12 years old, was lost recently in the neighborhood of Old Tampa, East Florida. She was missed ten days before she was found. She had wandered eighteen or twenty miles from home, and, though much reduced, was still able to walk and speak, and when she saw her father, made an effort to run to him.

America has been beaten at Cowes, in a great yacht race. The American clipper Silvie was beaten by the British yacht Julia, fairly and handsomely.

A number of the stone masons about Liverpool have adopted the *moustache* as a protection against the fatal effects of dust, in the exercise of their craft, and with salutary effects. It is undoubtedly an important provision of nature for the protection of the lungs.

A colt near Bridgeton, N. J., in attempting to jump over an enclosure, knocked over two bee-hives, the inmates of which attacked him and stung him so badly that he died. A man was injured also from the stings of the insects. The Bridgeton paper states that cold water thrown over the colt by buckets-full would probably have saved his life.

The Commissioner of Patents has refused to grant an extension to S. Colt, of his patent for improved fire-arms, the patentee having already derived nearly $1,000,000 therefrom.

Writing which has become illegible by age, may be restored by moistening it with an infusion of gall.

Snails fed on strawberries are the last invented delicacy. They are brought to Paris from Ulm, on the Danube.

Opening of the Cattawissa Railroad.

We have the high gratification of announcing the cheering intelligence of the formal opening on Monday last of the Cattawissa, Williamsport & Erie Railroad! The steam engine was placed on the track at Cattawissa, followed by the pleasure cars, on which were seated some hundred gentlemen, prominent among whom was our friend Col. PAXTON, by whose untiring energy this great enterprize has been consumated, when they made an excursion east to Mainville and back, pleasantly and successfuly, traveling at the rate of twenty miles per hour. By early spring, unless the company should be disappointed in getting their rail cast, we are assured, that the communication by Railroad, will be opened direct to Philadelphia.—*Bloomsburg Dem. 24th inst.*

[The next step is—Lewisburg, Centre county, and Spruce Creek, and the communication is direct and complete from St. Louis to New York city.]

LIQUOR INTELLIGENCE.—The vexed and important question whether ten cents or a shilling shall be the established price of a glass of grog is still agitating the drinking circles of New York city. A meeting of the proprietors of saloons and groggeries, has just been held, in which the momentous question was discussed pro and con without any definite conclusion arrived at. The temperance people in the same city are pursuing a system of tactics by which they hope to overcome King Alcohol They make complaint at the Mayor's office of all persons selling liquor without license. Warrants for the offenders are immediately issued, arrests follow, and heavy fines, with bonds for the future observance of the law, are the result. Although this does not meet the wants of the prohibitory men, yet it gives the law now existing the appearance of something like efficiency.

The Supreme Court of Pennsylvania, last week decided that no tavern keeper can legally sell liquor to anybody on Sunday. All the taverns and grogeries were accordingly closed up in Pittsburg on Sunday last.

At the Montour Court week before last, ten indictments were preferred against the keepers of tippling houses. Most of them plead guilty, and were fined from $30 to $100.

GONE TO THE PENITENTIARY.—Sheriff Thomas, of Bradford county, last week took three convicts to the Penitentiary, viz:—Lawrence Gordinier, 1 year; Joseph Gregory, 2 years; Wm. Cummings, 3 years.

Sheriff Snyder, of Columbia county, last week deposited the following named persons in the Penitentiary and House of Refuge:—Henry S. Warner, 2½ years; Stephen C. Johnson, 2½ years; John Whipple, 1½ years; Hugh McDonald (boy) House of Refuge.

PITTSBURG, Sept. 26—A large number of persons have already arrived here to attend the State Agricultural Fair, which opens here to-morrow. The railroads are to run extra trains, and an immense concourse of strangers is expected to-morrow and next day. The preparations at the Fair ground are on the most extensive scale.

PITTSBURG, Sept. 26.—Ashland, the house of Henry Clay, was sold on Tuesday last, pursuant to previous notice, at public sale, to the highest bidder. James B. Clay, Esq, was the purchaser, at $140 per acre. The tract contained 337 acres.

PITTSBURG, Sept. 26.—The Kentucky papers report white frosts in that State. The corn and vegetables were affected, and fears were entertained for the tobacco crop.

Mrs. M. J. Thompson a widow lady has recovered $2000 damages of R. Barnes, at Bardstown, Ky., for slander.

"It is a fact," says the *Bombay Gazette*, "that the entire population of India do not spend sixpence per head in a year in clothing."

They are building a new Court House in Montgomery county, which is to cost one hundred and twenty thousand dollars, to be paid by a County Tax.

A correspondent of the Boston *Traveller*, writing from the Summit House, Mt. Washington, Sept. 13th, says: "As I sit down to inform you of the weather here, the snow is whizzing about me right merrily, and the thermometer stands at 25 degrees. It is utterly impossible for a man to stand erect upon the summit now, where the wind has a fair sweep, without any thing to obstruct its force."

The churches of Boston contributed near six thousand dollars last Sunday for the relief of Mobile. Very creditable indeed.

The election in Maine has resulted in no choice for Governor—the Whig candidate receiving more votes than last year, and the regular democratic candidate less. The legislature is but little changed since last year—the Maine Law majority is considered stronger.

There were seventy-two towns in Massachusetts, in which the population did not increase from 1840 to 1850. They were all agricultural towns, not enjoying railroad facilities. A number of these rural places contained more inhabitants in 1830 than they did in 1850.

The new city of Waterbury has refused to license grog-shops, ten-pin alleys, and theatrical performances. It will flourish all the better for such legislation.

Letters from the White Mountains state that those frozen regions were touched and melted by the late hot weather. A letter from the Alpine House, at Gorham, says: "The thermometer here on Friday stood at 95 degrees; the 'oldest inhabitant' never knew such weather for more than a day."

Change in the time of making Canal Appointments.

As a matter of general information we publish the subjoined resolution, recently adopted by the Board of Canal Commissioners. The reason for making this change in the time of making appointments to office on the public works is, the Harrisburg *Union* learns, founded on the obvious necessity of making the term of service of receiving and disbursing officers correspond with the fiscal year.

PHILADELPHIA, Sept. 14, 1853.

Resolved, That in pursuance of a resolution passed on the 16th day of December, 1852, the Board will, on Tuesday, the first day of November next, proceed to consider applications for and to make appointments to, the various offices on the canals and railroads of the Commonwealth for the fiscal year ending November 30th, 1854.—*Extract from the Journal of the Board of Canal Commissioners.*

THOMAS L. WILSON, *Secretary.*

A GOOD MOVEMENT.—A general meeting of presidents and directors of the various railroads in the United States, we see it stated, will convene at Washington during the month of October, to consider the adoption of a code of laws and the establishment of such general measures as shall guard against accidents on railroads, and give more confidence to travelers, and assurance that pre-cautionary measures of the most reliable kind are hourly exercised upon every railroad throughout the Union.

Division Question.

'The greatest Good of the greatest Number.'

FOR DIVISION.

The Division Plan.

Since new County buildings must soon be made, the Divisionists propose that the towns having the *benefits* of Courts, &c., shall pay the *first cost*. Their plan is to have County Buildings erected *wholly by private subscription*, without any tax upon the people; ☞AND IF BUILDINGS ARE NOT SO FURNISHED, THE COUNTY WILL NOT BE DIVIDED.

Whatever the cost may be, must be fully made up, and bona-fide guarantees, to be approved by Judges, Commissioners, and Jurors, must be *first* furnished.

The County Seats in each county to be determined by the BALLOTS of all who are concerned.

The Anti-Division Plan.

[From the New Berlin "STAR" of Feb. 1853.]

"Union county is sadly behind the majority of her sister counties, in the BEAUTY AND CONVENIENCE OF HER PUBLIC BUILDINGS. *Some of the citizens of the county feel this very sensible*, and they find the reflection a very unpleasant one, *painfully galling to their public pride and spirit*, therefore are THEY *determined*, that **those Buildings shall fall**, and another rise in their place that SHALL BE A CREDIT TO THE COUNTY. They have already once exercised their right of petition, asking the Grand Jury to recommend the new building, but this was refused, though the *close vote is encouragement enough to proceed*. By the way, it is somewhat remarkable what marvellous changes sometimes take place, between sunset and sunrise, as well in men's opinions as the weather. But let the Grand Jury at May term prepare to receive a petition, *so numerously signed, and couched in such language*, as WILL **compel** THEM to report favorably to a NEW COURT HOUSE, and WIPE OUT A FOUL STAIN ON THE FAIR FACE OF THE COUNTY."

☞All to be paid for by TAXING THE COUNTY. And the *costs* of a new Court-House and Jail will be $40,000 or $50,000—according to the estimates of the *Star*, the *Times*, and Messrs. Wilson, Roshong, Seebold, Swineford, and Schoch, the New Berlin Anti-Division Committee.☜

Choose between the Plans!

The New Berlin Heimbach Faction and the Railroad.

We have again and again through our paper given the positive proof, that the New Berliners and their newspapers persuaded the Commissioners to make the $200,000 Railroad debt. And now, after they have succeeded, and, as they say, "fastened this enormous debt of $200,000 on the people of the county," they are corrupt and dishonest enough, to make the attempt to persuade the people, that they were and are opposed to it, they make an attempt to deceive the people, by denying their own acts; this they do for the purpose of gaining popularity with the voters, so that they can lead them into another project they are determined to carry into effect—that is, to compel the tax-payers in the county to pay for splendid new public buildings for New Berlin. To give some appearance to the deception they are attempting to practice on the people, they now make a great noise about the Railroad. And to make their deception look more plausible, they have, in a sneaking and under handed way, commenced some prosecutions. They have been dragging around the corrupt Geo. Heimbach for some weeks; *him* they have given clear, and they contend, that he has done nothing that is wrong. Now we say the people do know, that Heimbach is not such a man as the faction represents him to be, for the people know that Heimbach is one of the most corrupt men in the State. Every one knows, if this faction will bring a hundred prosecutions, *and make ten thousand dollars cost on the county*, yes, if they would *prosecute every man in the county, who is opposed to the rascality practiced at New Berlin*, and convict them all, AND KEEP HEIMBACH CLEAR, then the bonds would be good, and would have to be paid. Every one must see that this New Berlin faction has brought suits, *not* with the object to free the people of the county from the Railroad, or to injure the Railroad subscription or Bonds; they brought those prosecutions to carry some other project, which had nothing to do with Railroad subscriptions. It is to destroy the influence and character of the men who have opposed this New Berlin Heimbach combination in their secret and underhanded schemes to tax the people of the county, to erect a splendid *palace* to hold court in. Every intelligent man in the county must be satisfied that this was their object in commencing prosecutions. They are the very last men who would do anything to destroy or injure the Railroad debt. As they have given Heimbach clear, and are sustaining and supporting him, this fact must convince every man that they have not commenced this prosecution to affect the Railroad Bonds or subscription, for the very man they most convict, if they expect to injure the Railroad bonds, they have given clear, and are using him (Heimbach,) as their witness and tool, to take some revenge at men who are opposing them in their schemes to bring enormous taxes on the people.—*Selinsgrove Demokrat.*

THE SUSQUEHANNA RAILROAD.—The Harrisburg *Union* states that the work upon this important line of road between Bridgeport and Sunbury, is proceeding steadily, and has made as rapid progress as the summer season would admit of. About $200,0000 have been paid out, and a large part of the route is now graded. The expectation is that the road will be completed in another year.

Land Sales.

Orphans' Court Sale.

BY virtue of an order from the Orphans' Court of Union county, the undersigned will offer at Public Sale, on the premises, at 10 o'clock, A. M., of

Friday, October 28, 1853,

the following Real Estate, situated in UNION township, Union Co., Pa., comprising about

112 Acres,

of which about 90 Acres are improved, and through which runs the Main Road between Lewisburg and Selin-grove. The property is bounded north and west by lands of Jacob Hoch, east and south by lands of Doebler and Engel. There are erected upon the premises, a large

Two Story LOG HOUSE,

BARN, a Well of Water at the door, and TWO BEARING APPLE ORCHARDS.

The land is in a good state of cultivation, about **1,000** BUSHELS OF LIME having been put upon it within the last two years.

The Road to Health!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr. R. H. Kirkus, Chemist, 7, Prescot Street, Liverpool, under 6th June, 1851.

To Professor HOLLOWAY, Sir—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, advises me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and had applied to m. On my last occasion, however, the virulence of the attack was so alarming and the inflammation so excessive, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and altho' she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack and the speedy cure, speaks much I think in favor of your astonishing Pills. (signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter just left in the Hobart Town Courier of the 1st March, 1851, by Mr. J. Walch.

Margaret Mc'Donigan, fourteen years of age, residing at New Town, had been suffering from a violent rheumatic fever, for upwards of two months, which had entirely deprived her of the use of her limbs; during this period, she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered to be incurable. A friend recommended her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 81 YEARS OF AGE.

From Messrs. Thos. & Sm, Proprietors of the Lynn Advertiser, who can vouch for the following statement.

To Professor HOLLOWAY. August 24, 1851.

Sir—I am happy to bear testimony to the great efficacy of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath that prevented me from walking about. I am 81 years of age, and notwithstanding my advance in state of life, these Pills have so relieved me from the above complaint that others should be made acquainted with their virtues. I am now considered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before. (signed) HENRY COE, North street, Lynn, Norfolk.

WONDERFUL EFFICACY OF HOLLOWAY'S PILLS IN CASES OF DROPSY.

Persons suffering from Dropsy, either about the turn of life, or at any other period, immediately have recourse to these Pills as hundreds of persons are annually cured, by their use, of that direful complaint in its different stages, when all other means had failed.
